Before the "Big Three," even before the Model T, the race for dominance in the American car market was fierce, fast, and sometimes farcical. Car Crazy takes readers back to the passionate and reckless years of the early automobile era, from 1893, when the first US-built auto was introduced, through 1908, when General Motors was founded and Ford's Model T went on the market. Among the pioneering competitors were Ransom E. Olds, founder of Olds Motor Works and creator of a new company called REO; Olds' cutthroat new CEO Frederic L. Smith; William C. "Billy" Durant of Buick Motor Company (and soon General Motors); and inventor Henry Ford. They

Their war on wheels ultimately culminated in a courtroom battle that would shape the American car industry forever. Based on extensive original research, *Car Crazy* is a page-turning story of popular culture, business, and sport at the dawn of the twentieth century, filled with compelling, larger-than-life characters, each an American original.
