Academic Course Guide Manual

This is the Lab Manual to accompany 70-698: Installing & Configuring Windows 10 exam. Students pursuing a Microsoft Certified Solutions Associate (MCSA) for Windows 10 will need to start with this 70-698: Installing & Configuring Windows 10 exam. Often referred to as the Help Desk course, this exam provides students with the essentials needed for a career in Information Technology in a corporate environment. Exam 70-698 is the first exam required to earn the Windows 10 MCSA credential, and a primary course in most Help Desk Technician curricula. This text is comparable to exam 70-687 for Windows 8.1 or 70-680 for Windows 7. This exam covers local installation, configuration of core local services, and the general local management and maintenance of Windows 10. Although the focus is primarily on local scenarios, enterprise scenarios are also included, where applicable. Some cloud-integrated services are covered where appropriate, such as with Microsoft Passport. Microsoft Official Academic Course (MOAC) textbooks are designed for instructor-led classroom courses; the optional MOAC Labs Online facilitate hands-on labs from any location, locally or remotely. Available as an ebook with optional MOAC Labs Online or Lab Manual.

This comprehensive yet concise annual annotated reference source catalogs the important series, periodicals and reference tools published by U.S. government agencies. Over the years, the index section of the Guide to U.S. Government Publications has expanded to more than 40,000 entries. This Guide to the Study and Use of Military History is designed to foster an appreciation of the value of military history and explain its uses and the resources available for its study. It is not a work to be read and lightly tossed aside, but one the career soldier should read again or use as a reference at those times during his career when necessity or leisure turns him to the contemplation of the military past.

This is a unique book covering topics of both academic and professional interest. Be they new Teachers, Researchers, Authors, Editors, Copyeditors, Graduate students or corporate executives and officials having anything to do with writing, editing, and publishing, this Manual and Some Thoughts will be a trusted companion. Starting from issues on Language and Style, Citations and Referencing, Editing, Plagiarism, etc., the volume also encompasses Articles on publishing and book development proposals in South Asia and other non-English speaking regions. The book will be a handy guide in maintaining consistencies and acceptable standards. The Manual is a concise compilation of Styles and Standards from various authentic sources (in Part 1) as well as an analysis of the present status of publishing (in Part 2) in Bangladesh and elsewhere. A painstaking, research-based, and brief but well illustrated Manual on Standards and a short but thought-provoking work on publishing, the book also suggests an academic Course on Publishing – all for dissemination of knowledge and scholarship. An academic, an open learning proponent and a publishing professional of long-standing, the Author was a senior Faculty in universities and research organizations in Bangladesh and abroad. A PhD in Communication, with a Masters in English, Manzurul Islam received advanced training in UK, USA, and Canada. His recent engagements include Faculty Development and Quality Assurance programs through trainings in research and publication works.

Written by the International Federation of Mountain Guides Association (IFMGA) certified mountain guides Marc Chauvin and Rob Coppolillo, The Mountain Guide Manual is the go-to reference for novice and experienced mountain guides, as well as advanced recreationalists. Covering everything from rope systems and belaying to advice on group dynamics and rescuing, the manual combines practical how-to instruction with clear graphics, illustrations, and awe-inspiring alpine imagery.

This manual explains how to make the right decisions on the timing and selection of investigations and surgical procedures in emergency and urgent surgical settings and describes the most widely used procedures step by step with the aid of high-quality illustrations. The goal is to address the situations that can arise in almost any emergency department throughout the world, enabling the surgeon on call to acquire or sharpen the knowledge and skills needed to deal with acute surgical problems in the most appropriate way. The reader will gain a sound understanding of the most efficient diagnostic modalities, pre-, intra-, and postoperative decision-making, and surgical techniques and issues in particular circumstances. The manual stems from an initiative by members of the European Society of Trauma and Emergency Surgery (ESTES) and the American Association for the Surgery of Trauma (AAST) to set up and formalize Emergency Surgery Courses to provide specific training in emergency and acute care surgery. It represents a didactic accompaniment to the course that will guide the beginner and maintain a certain degree of standardization among the more experienced.
