

## Advanced Accounting Part 2 Gloria J Tolentino Baysa

Second edition of Gloria Anzaldua's major work, with a new critical introduction by Chicano Studies scholar and new reflections by Anzaldua. This book breaks important new ground in describing the enhancements in performance, motivation and mental well-being that Inclusive Leadership brings to organisations. Illustrating these benefits through theory and practical examples, the book also contrasts this style with Command and Control or 'Transactional' leadership, a style that still holds sway in many organisations, with leaders focused on mistakes rather than progress. Inclusive Leadership will transport you through time and geography – from the UK, US, and Australia to France and Norway – showing how much more nurturing an environment Inclusive Leadership provides than Transactional leadership. Read how Inclusive Leadership complements a competitive strategy emphasising innovation and how it dominates in four organisations – Royal Mail Sales, the PageGroup, Sevenoaks School and APAM - spanning sales, recruitment, education and real estate. The chapters also cover education and the associations between Inclusive Leadership and enhanced undergraduate student performance, motivation and engagement both in Norway and in the UK. With a unique combination of both theoretical and practical perspectives, this book is a useful tool for practitioners in the corporate world; business, management and leadership students; and both emerging and established leaders. Product and service designers place increasing emphasis on the colour, form and appearance of what their organization offers and the language with which they describe it. Gloria Moss' erudite, sophisticated and fascinating book, guides the reader to an understanding of the way gender influences our visual perception. In this wide-ranging book the author explores design, visual aesthetics, language and communication, by drawing on an exhaustive range of primary sources of research from psychology, design, branding and communication. The lessons that emerge offer challenges to organizations both in the way in which their design and marketing is perceived by men and women, and how the make-up of their workforce may limit their ability to appreciate and address the diversity of customers' preferences. The challenge for management is to overcome these limitations and ensure that an organization's products and services mirror preferences of customers rather than those of senior managers.

Fundamentals of Corporate Accounting has been designed as per the CBCS syllabus prescribed by University of Calcutta and other allied universities of West Bengal. The book is primarily intended for third year B.Com students but would also be useful for students of professional courses. The content has been presented in a systematic manner (theory-illustrations-practice problems) with elaborate explanation on core topics. The Companies Act, 2013, along with recent amendments and rules, and the latest Accounting Standards have also been explained in detail. Abundant Solved Examples, illustrations with detailed working notes, previous years' questions and solutions, and practice questions will greatly benefit the students and help them master the subject. This fifth edition retains its emphasis on the full equity method whilst expanding its coverage of the cost and partial equity methods. It also adds coverage of interim reporting, corporate joint ventures, SEC accounting and estates and trusts.

Born in the Río Grande Valley of south Texas, independent scholar and creative writer Gloria Anzaldúa was an internationally acclaimed cultural theorist. As the author of *Borderlands / La Frontera: The New Mestiza*, Anzaldúa played a major role in shaping contemporary Chicano/a and lesbian/queer theories and identities. As an editor of three anthologies, including the groundbreaking *This Bridge Called My Back: Writings by Radical Women of Color*, she played an equally vital role in developing an inclusionary, multicultural feminist movement. A versatile author, Anzaldúa published poetry, theoretical essays, short stories, autobiographical narratives, interviews, and children's books. Her work, which has been included in more than 100 anthologies to date, has helped to transform academic fields including American, Chicano/a, composition, ethnic, literary, and women's studies. This reader—which provides a representative sample of the poetry, prose, fiction, and experimental autobiographical writing that Anzaldúa produced during her thirty-year career—demonstrates the breadth and philosophical depth of her work. While the reader contains much of Anzaldúa's published writing (including several pieces now out of print), more than half the material has never before been published. This newly available work offers fresh insights into crucial aspects of Anzaldúa's life and career, including her upbringing, education, teaching experiences, writing practice and aesthetics, lifelong health struggles, and interest in visual art, as well as her theories of disability, multiculturalism, pedagogy, and spiritual activism. The pieces are arranged chronologically; each one is preceded by a brief introduction. The collection includes a glossary of Anzaldúa's key terms and concepts, a timeline of her life, primary and secondary bibliographies, and a detailed index.

Gloria Romero—former California Senate Majority Leader and Professor Emeritus of Psychology—shatters the glass ceiling in a sweeping takedown of gender bias at the workplace and the price women and society pay for the virulent, double standard of “the likability factor” that persists in the workplace. She exposes the link between success and likability that 21st-century women leaders face in politics and the workplace. In a book both accessible and enlightening, Senator Romero stands as a woman unafraid to break down barriers for women. As the first female Majority Leader of the upper house in California's State Legislature, she authored major reform laws in public education, criminal justice, governmental ethics, and transparency. *Just Not That Likable* is the story of a trailblazer who understood that while the 20th-century sexism of unequal pay for equal work had been outlawed and anti-discrimination laws had become common, there was still a hidden likability penalty and the so-called “double bind” applied to successful women. The book features the most comprehensive review to date of what is known about the “double bind” faced by women executives and leaders: they are expected to exhibit strength and lead, but are penalized as being “abrasive” or exhibiting characteristics stereotyped as being masculine. Drawing on her own life as well, Senator Romero's journey leads her to the realization that when women smash through the persisting ceiling—still with us in the 21st century—the shards cut. Too deep and too often, these practices and behaviors shut down opportunity for our daughters, sisters, and each other. *Just Not That Likable* recognizes that our workplaces must promote practices, policies, and cultures which confront and disassemble this double bind for women.
