Doesn’t matter who did it. Not anymore. I did the time. It’s over.” When Drix was convicted of a crime—one he didn’t commit—he thought his life was over. But opportunity came with the Second Chance Program, the governor’s newest pet project to get delinquents off the streets, rehabilitated and back into society. She wants to follow her own path, whatever that means. When Drix and Elle meet, their connection is immediate, but so are their problems. Drix is not the type of boy Elle’s parents have in mind for her, and Elle is not the kind of girl who can understand Drix’s messy life. But sometimes love can breach all barriers. Acclaimed travel writer Pam Mandel's thrilling account of a life-defining journey from the California suburbs to Israel to the Himalayan peaks and back. Given the choice, Pam Mandel would say no and stay home. It was getting her nowhere, so she decided to say yes. Yes to hard work and hitch-hiking, to mean boyfriends and dirty travel, to unfolding the map and walking to its edges. Yes to unknown countries, night shifts, language lessons, bad decisions, to anything to make her feel real, visible, alive. A product of beige California suburbs, Mandel was overlooked and unexceptional. When her father ships her off on a youth group tour of Israel, he inadvertently catapults his seventeen-year-old daughter into a world of angry European backpackers, seize-the-day Israelis, and the fall out of cold war-era politics. Border violence hadn't been on the birthright tour agenda. But then neither had

domestic violence, going broke, getting wasted, getting sick, or getting lost. With no guidance and no particular plan, utterly unprepared for what lies ahead, Mandel says yes to everything and everyone, embarking on an adventure across three continents and thousands of miles, from a cold water London flat to rural Pakistan, from the Nile River Delta to the snowy peaks of Ladakh and finally, back home to California, determined to shape a life that is truly hers. An extraordinary memoir of going away and growing up, *The Same River Twice* follows Mandel's tangled journey and shows how travel teaches and changes us, even while it helps us become exactly who we have been all along.

The inspiring, unlikely, laugh-out-loud story of how one woman learned to lead—and how she ultimately succeeded, not despite her many mistakes, but because of them. This is the story of how Kristen Hadeed built Student Maid, a cleaning company where people are happy, loyal, productive, and empowered, even while they're mopping floors and scrubbing toilets. It's the story of how she went from being an almost comically inept leader to a sought-after CEO who teaches others how to lead. Hadeed unintentionally launched Student Maid while attending college ten years ago. Since then, Student Maid has employed hundreds of students and is widely recognized for its industry-leading retention rate and its culture of trust and accountability. But Kristen and her company were no overnight sensation. In fact, they were almost nothing at all. Along the way, Kristen got it wrong almost as often as she got it right. Giving out hugs instead of feedback, fixing errors instead of enforcing accountability, and hosting parties instead of cultivating meaningful relationships were just a few of her many mistakes. But Kristen's willingness to admit and learn from those mistakes helped her give her people the chance to learn from their own screwups too. *Permission to Screw Up* dismisses the idea that leaders and organizations should try to be perfect. It encourages people of all ages to go for it and learn to lead by acting, rather than waiting or thinking. Through a brutally honest and often hilarious account of her own struggles, Kristen encourages us to embrace our failures and proves that we'll be better leaders when we do.

This book tells the story of the Eastern Professional Basketball League, a pro basketball institution for over 30 years. In this instant New York Times bestseller, Angela Duckworth shows anyone striving to succeed that the secret to outstanding achievement is not talent, but a special blend of passion and persistence she calls “grit.” “Inspiration for non-geniuses everywhere” (People). The daughter of a scientist who frequently noted her lack of “genius,” Angela Duckworth is now a celebrated researcher and professor. It was her early eye-opening stints in teaching, business consulting, and neuroscience that led to her hypothesis about what really drives success: not genius, but a unique combination of passion and long-term perseverance. In *Grit*, she takes us into the field to visit cadets struggling through their first days at West Point, teachers working in some of the toughest schools, and young finalists in the National Spelling Bee. She also mines fascinating insights from history and shows what can be gleaned from modern experiments in peak performance. Finally, she shares what she’s learned from interviewing dozens of high achievers—from JP Morgan CEO Jamie Dimon to New Yorker cartoon editor Bob Mankoff to Seattle Seahawks Coach Pete Carroll.

“Duckworth’s ideas about the cultivation of tenacity have clearly changed some lives for the better” (The New York Times Book Review). Among *Grit*’s most valuable insights: any effort you make ultimately counts twice toward your goal; grit can be learned, regardless of IQ or circumstances; when it comes to child-rearing, neither a warm embrace nor high standards will work by themselves; how to trigger lifelong interest; the magic of the Hard Thing Rule; and so much more. Winningly personal, insightful, and even life-changing, *Grit* is a book about what goes through your head when you fall down, and how that—not talent or luck—makes all the difference. This is “a fascinating tour of the psychological research on success” (The Wall Street Journal).

"Dad. I've got very, very, very bad news. Peter was killed tonight . . ." With that middle-of-the-night phone call, life for the Mayer family plunged from "best-ever year" to months and years of dealing with the oppressive presence of Peter's unending absence. A letter from his father to the freshly deceased Peter, intended for the memorial service, became the first in a torrent of letters from his dad to Peter, though which his dad poured out agonized and angry grief. In the letters, Peter's dad laments the way events otherwise beautiful for Peter's wife, five-year-old daughter, and the rest of the family are relentlessly punctuated with the pain of the loss. "Dammit, Peter, why didn't you . . .?" Ultimately, slowly, the letters begin to reflect on the strange mystery of healing. How is it that in spite of the pain, in spite of the unending loss, comfort does come, opening the way once again for unbelievably deep joy? "It was all so rich and beautiful that with a certain private touch, and exchange of glance, your mom and I signaled an agreement . . . slipped to our cave . . . with playful freedom and deep gratitude." So for Peter's dad, the confirmation of the odd observation from Jesus: "How blessed are those who grieve!"

Still vivid in many Americans' memories are the 444 days of 1979 when Islamic militants held U.S. diplomatic personnel hostage in Iran. Though their story has been told before, never has it been related from such a perspective. Unique among the hostages, the author was an

officer for the Central Intelligence Agency serving at the U.S. embassy in Tehran. Once his CIA connection was discovered, Bill Daugherty became a special target of his captors and was subjected to extraordinarily harsh treatment. He managed to survive the ordeal by relying upon his Marine Corps training and combat experience and his remarkable inner reserve of fortitude. Ultimately he was awarded the State Department Medal of Valor and the CIA Exceptional Service Medal. Drawing on intelligence information not readily available to previous writers, recently declassified materials, interviews with such key government officials as former national security adviser Zbigniew Brzezinski and former CIA director and ambassador to Iran Richard Helms, and to his own firsthand knowledge, Daugherty sheds light on this disturbing event, particularly with respect to the decision-making process in the White House. Among his revelations is the involvement of the Soviet Union. Despite his personal involvement, Daugherty has produced an impressively objective account of the tragedies and triumphs that marked this black time in U.S. history. It is both a harrowing adventure story and a serious look at U.S.-Iran relations. The pivotal event continues to evoke emotions and begs careful analysis for potential lessons learned.

This deeply personal book recounts the course of those friendships over the decades and provides an intimate look at two of the most astonishing cultural figures of our time. Before it was demolished, the Robert Taylor Homes was one of America's largest Housing Developments. Nestled five miles from downtown Chicago, and divided from the rest of city by an expressway and electrical rail system, there were many stories of crime and mayhem and

general disdain for the apartment complex and those who lived there. Brenda Costanzo writes her story of being a resident and telling raw and gritty anecdotes from a first-person perspective about what life was like living in Robert Taylor. Her memoir is a testimony of survival and overcoming the odds.
