The 11th Hour Series of revision guides are designed for quick reference. The organization of these books actively involves students in the learning process and reinforces concepts. At the end of each chapter there is a test including multiple choice questions, true/false questions and short answer questions, and every answer involves an explanation. Each book contains icons in the text indicating additional support on a dedicated web page. Students having difficulties with their courses will find this an excellent way to raise their grades. Clinical correlations or everyday applications include examples from the real world to help students understand key concepts more readily. Dedicated web page, there 24 hours a day, will give extra help, tips, warnings of trouble spots, extra visuals and more. A quick check on what background students will need to apply helps equip them to conquer a topic. The most important information is highlighted and explained, showing the big picture and eliminating the guesswork. After every topic and every chapter, lots of opportunity for drill is provided in every format, multiple choice, true/false, short answer, essay. An easy trouble spot identifier demonstrates which areas need to be reinforced and where to find information on them. Practice midterms and finals prep them for the real thing.

• Chapter wise & Topic wise presentation for ease of learning • Quick Review for in depth study • Mind maps for clarity of concepts • All MCQs with explanation against the correct option • Some important questions developed by 'Oswaal Panel' of experts • Previous Year's Questions Fully Solved • Complete Latest NCERT Textbook & Intext Questions Fully Solved • Quick Response (QR Codes) for Quick Revision on your Mobile Phones / Tablets • Expert Advice how to score more suggestion and ideas shared • Some commonly made errors highlight the most common and unidentified mistakes made by students at all levels

Sexual Selection in Primates provides an account of all aspects of sexual selection in primates, combining theoretical insights, comprehensive reviews of the primate literature and comparative perspectives from relevant work on other mammals, birds and humans. Topics include sex roles, sexual dimorphism in weapons, ornaments and armaments, sex ratios, sex differences in behaviour and development, mate choice, sexual conflict, sex-specific life history strategies, sperm competition and infanticide. The outcome of the evolutionary struggle between the sexes, the flexibility of roles and the leverage of females are discussed and emphasised throughout. Sexual Selection in Primates is aimed at graduates and researchers in primatology, animal behaviour, evolutionary biology and comparative psychology.

- Perfect answers with Board Scheme of Valuation
- Hand written Toppers Answers for exam-oriented preparation
- NCERT Textbook Questions fully solved
- Solutions of PUE Textbook Questions
- Previous Years' Board Examination Questions

In an era of globalization and urbanization, various social, economic, and environmental challenges surround advances in modern biological sciences. Considering how biological knowledge and practice are intrinsically related to building a sustainable relationship between nature and human society, the roles of biology education need to be rethought to respond to issues and changes to life in this biocentury. This book is a compilation of selected papers from the Twenty Third Biennial Conference of the Asian Association for Biology Education 2010. The title, Biology Education for Social and Sustainable Development, demonstrates how rethinking and reconstruction of biology education in the Asia-Pacific region are increasingly grounded in deep understandings of what counts as valuable local knowledge, practices, culture, and ideologies for national and global issues, and education for sustainable development. The 42 papers by eminent science educators from Australia, China, Philippines, Singapore, Taiwan, and the U.S., represent a diversity of views, understandings, and practices in biology education for sustainable development from school to university in diverse education systems and social-cultural settings in the Asia-Pacific region and beyond. The book is an invaluable resource and essential reference for researchers and educators on Asian perspectives and practices on biology education for social and sustainable development.

Global Gender Issues in the New Millennium argues that the power of gender works to help keep gender, race, class, sexual, and national divisions in place despite increasing attention to gender issues in the study and practice of world politics. Accessible and student-friendly for both undergraduate and graduate courses, authors Anne Sisson Runyan and V. Spike Peterson analyze gendered divisions of power and resources that contribute to the worldwide crises of representation, violence, and sustainability. They emphasize how hard-won attention to gender equality in world affairs can be co-opted when gender is used to justify or mystify unjust forms of global governance, international security, and global political economy. In the new and updated fourth edition, Runyan and Peterson examine the challenges of forging transnational solidarities to de-gender world politics, scholarship, and practice through renewed politics for greater representation and redistribution. Yet they see promise in coalitional struggles to re-radicalize feminist world political demands to change the downward conditions of women, men, children, and the planet. Updated to include framing questions at the opening of each chapter, discussion questions and exercises at the end of each chapter, and updated data on gender statistics and policymaking. Chapters One and Two have also been revised to provide more support to readers with less of a background in gender politics. Case studies and web resources are now also provided.

While beginning the preparation for Medical and Engineering Entrances, aspirants need to go beyond traditional NCERT textbooks to gain a complete grip over it to answer all questions correctly during the exam. The revised edition of MASTER THE NCERT, based on NCERT Classes XI and XII, once again brings a unique set of all kinds of Objective Type Questions for Physics, Chemistry, Biology and Mathematics. This book "Master the NCERT for NEET" Biology Vol-2, based on NCERT Class XII is a one-of-its-kind book providing 16 Chapters equipped with topic-wise objective questions, NCERT Exemplar Objective Questions, and a special separate format questions for NEET and other medical entrances. It also provides explanations for difficult questions and past exam questions for knowing the pattern. Based on a unique approach to master NCERT, it is a perfect study resource to build the foundation over NEET and other medical entrances.

A complete curriculum for teaching about sexual health and intimate relationships, taking into consideration the learning preferences, sensitivity, social and other issues characteristic of individuals with autism spectrum disorders.

This report reflects the work of a research programme conducted by the World Health Organization which brings together a global network of health care providers, policy-makers, scientists and clinicians, as well as consumer and community representatives to explore sexual and reproductive health problems and identify ways of addressing them. Issues discussed include: family planning methods; making pregnancy and childbirth less life-threatening; preventing reproductive tract infections, including HIV infection; preventing unsafe abortion; and exploring adolescent sexual behaviour.

Via 100 entries, 21st Century Psychology: A Reference Handbook highlights the most important topics, issues, questions, and debates any student obtaining a degree in the field of psychology ought to have mastered for effectiveness in the 21st century. This two-volume reference resource, available both in print and online, provides an authoritative source to serve students' research needs with more detailed information than encyclopedia entries but without the jargon, detail, or density found in a typical journal article or a research handbook chapter. Students will find chapters contained within these volumes useful as aids toward starting research for papers, presentations, or a senior thesis, assisting in deciding on areas for elective coursework or directions for graduate studies, or orienting themselves toward potential career directions in psychology.

We need to understand how to utilize Geospatial Research in order to help us solve problems in environmental, life science, and defense industries, as well as intelligence, natural resources, medical and public safety industries. Emerging Methods and Multidisciplinary Applications in Geospatial Research exemplifies the usage of geographic information science and technology (GIS&T) to explore and resolve geographical issues from various application domains within the social and/or physical sciences. It specializes in studies from applied geography that interfaces with geographic information science and technology. This publication is designed to provide planners and policy analysts, practitioners, academicians, and others using GIS&T useful studies that might support decision-making activities.
