First published in 1987, this book discusses the life and natural history of moral systems as seen through the eyes of a biologist. The volume offers a comprehensive introspective of the biology of a moral system by examining the evolutionary approach from perspectives of sociobiology and ideology. Morality in relation to conflicts and confluences of interest among humankind are further evaluated, with particular emphasis on the human psyche and the ontogeny of moral behaviour. Philosophical meets biological with insightful commentary on the morality of law and democracy. The book concludes with an epilogue, bibliography and name and subject index. It is clear, concise and contemporary and would be of use to those studying Biology, Philsophy and many other social sciences.

Invasion Genetics: the Baker & Stebbins legacy provides a state-of-the-art treatment of the evolutionary biology of invasive species, whilst also revisiting the historical legacy of one of the most important books in evolutionary biology: The Genetics of Colonizing Species, published in 1965 and edited by Herbert Baker and G. Ledyard Stebbins. This volume covers a range of topics concerned with the evolutionary biology of invasion including: phylogeography and the reconstruction of invasion history; demographic genetics; the role of stochastic forces in the invasion process; the contemporary evolution of local adaptation; the significance of

epigenetics and transgenerational plasticity for invasive species; the genomic consequences of colonization; the search for invasion genes; and the comparative biology of invasive species. A wide diversity of invasive organisms are discussed including plants, animals, fungi and microbes.

The revised Third Edition of *The Prokaryotes*, acclaimed as a classic reference in the field, offers new and updated articles by experts from around the world on taxa of relevance to medicine, ecology and industry. Entries combine phylogenetic and systematic data with insights into genetics, physiology and application. Existing entries have been revised to incorporate rapid progress and technological innovation. The new edition improves on the lucid presentation, logical layout and abundance of illustrations that readers rely on, adding color illustration throughout. Expanded to seven volumes in its print form, the new edition adds a new, searchable online version.

Revised by the American Medical Association (AMA), Graduate Medical Education Directory, 2012-2013 (Green Book) contains comprehensive information on 9,000 Accreditation Council for Graduate Medical Education-accredited programs (GME) in the United States, including Residency, Fellowship, and Combined programs, plus residency application and career-planning resources. Revisions and updates: specialty/subspecialty information, Match data, 215 new programs, and 3,000 teaching institutions.

NOTE: This edition features the same content as the traditional text in a convenient, three-hole-punched, loose-leaf version. Books a la Carte also offer a great value--this format costs significantly less than a new textbook. The papers in this book, illustrating the present status of knowledge related to the vacuolar compartment of fungi and plants, were presented at an Advanced Research Workshop entitled "Plant Vacuoles. Their Importance in Plant Cell Compartmentation and their Applications in Biotechnology" held in Sophia-Antipolis, France, on July 6-11, 1986. The organizers were fortunate in being able to assemble representative leaders of all the above fields of research concerning this compartment. These scientists from all over the world were invited to present

their latest results and to exchange views and plans for continued research in this highly exciting field, which is very important for the improving the industrial aspect of plant biotechnology related to the production of molecules with a high added value. To ensure maximal flexibility and opportunity for discussion, the chairmen of the various sessions were asked to introduce their respective topics, after which they were given the freedom of organizing their sessions in a more or less improvised fashion, with brief presentations of relevant new information by participants following a schedule fixed relatively shortly before the workshop. This procedure proved to be highly successful, giving rise to most productive and stimulating discussions among the representatives of the various fields.

We present this small treatise to pious persons, entreating them to peruse it. Long ago the Holy Ghost said: "It is a holy and wholesome thing to pray for the dead, that they may be loosed from their sins." the feelings of her Divine Founder, is incessantly recommending charity for the Souls suffering in Purgatory. One of her eminent doctors, St. Thomas of Aquinas, has said that: "Of all prayers, the most meritorious, the most acceptable to God are prayers for the dead, because they imply all the works of charity, both corporal and spiritual." But there are many people unconscious of the fact that charity for the "Poor Souls" is profitable to the living as well as to the dead. It is the teaching of the most learned theologians, viz: St. Alphonsus Liguori, Sylvius, Robert Bellarmine, Bonacina, and Suarez. "It is true," says St. Alphonsus, "they are unable to pray or merit anything for themselves, yet, when they pray for others, they are heard by God." Let us refer to Bellarmine: "The Souls in Purgatory," says he, "can pray for those, who address to them their petitions, and obtain from God help, forgiveness, assistance against temptations, and, all favors, both temporal and spiritual, which they may need." Many Saints have experienced this wonderful assistance. St. Catherine of Bologna assured her Sisters that: "She obtained many favors by the prayers of the holy Souls in Purgatory, which she had asked in vain, through the intercession of the Saints." St. Theresa affirms that: "She always obtained the favors which she asked from God, through the intercession of the Poor Souls." We read also in the book of St. Bridget's Revelations that: "Being one day conducted by an Angel into Purgatory,

she heard a soul say: "Oh Lord, vouchsafe to reward those who assist us! Return hundredfold blessings to those who help us and introduce us into the light of Heaven." St. Leonard of Port Maurice emphatically affirms that: "The blessed Souls, delivered by our prayers, will come down from Heaven to assist us in our temporal and spiritual affairs." The Venerable Cure d' Ars, replying to a priest said: "If one knew what we may obtain from God by the intercession of the Poor Souls, they would not be so much abandoned. Let us pray a great deal for them, they will pray for us." Blessed Margaret Mary Alacoque had a special devotion for the Souls in Purgatory and has often accepted the charge of suffering for them. "Would that you knew," she said, "how my soul was replenished with joy, when speaking to those Souls, and seeing them immersed in glory as in a deep ocean. As I requested them to pray for you, they replied: "An ungrateful soul is not to be found in Heaven!" No, we cannot be deceived! If we have an ardent charity, a sincere piety, a true devotedness for the Poor Souls, we will be favored with their protection. Let us try it! When we are in trouble, when we long for a favor, let us perform some pious or charitable work for the relief of the "Poor Souls." They will be grateful, they will plead for us, and present our requests to the Eternal Father, Who loves them. May God bless this humble work! May He deign to enkindle generous hearts with zeal for the "Poor Souls." "Blessed are the merciful: for they
