In *Stop Sabotaging Your Life: 3 Steps To Your Full Potential*, acclaimed life coach Bruno LoGreco shares his simple path to achieving healthy mental and emotional independence. How many times have you caught yourself thinking something like this?: I'm not enough—good enough...smart enough...good looking enough...successful enough.... LoGreco says we sabotage our lives by focusing too much on being what others want us to be and do, and not spending enough time listening to our own hearts and minds. Some people try to find self-acceptance and contentment through counseling, but end up trapped on the therapy treadmill. Others try to go it alone, but still end up in a tiresome process of navel-gazing that never leads to personal fulfillment. LoGreco offers a three-step plan to help you reach your own potential: self-awareness (recognize what you have been doing, and why); rebuilding values (learn a different way to do things); and reach your full potential (identify opportunities and set meaningful goals). You will learn to leverage your strengths to stop chasing illusions and work toward achieving your dreams. LoGreco doesn't claim his book will cure everything that ails you. As he says, "There is no secret formula, no magic pill that will make you happy, productive, and successful. You must challenge your beliefs and take back control of your choices. Don't just think outside the box—break out of it altogether." What clients and readers are saying about life coach, mentor, and motivational speaker Bruno LoGreco: "As a divorced mother of three, I've encountered many obstacles, mostly personal ones within myself. I wondered why I kept repeating the same patterns with the men I was dating and why it always ended badly, usually with me being hurt, and questioned what 'I' was doing wrong. Bruno taught me how to love myself again, how to respect myself and above all else, BELIEVE in myself.... Bruno saved me from my self-destructive patterns. Without his help, I wouldn't be the confident woman I am today. I am a better mother for that." —Cristina "The world is filled with very successful executives who for decades focus every waking minute on professional accolades and professional development [only to] realize they haven't take the time out to focus on personal development in terms of a better balance in life, being in touch with their spiritual side and inner self, and even the fun side of life. That would describe me in the past.... I came across Bruno, and I knew he was the man. His personality exudes authenticity and geniality. The man simply knows his stuff, has this uncanny ability to read between the lines, and zero in instantly on underlying triggers. His structured approach steers you to address issues head on; challenges you to challenge yourself; opens your mind; helps you understand behaviors, experiences and patterns; gets you in touch with yourself; fuels a sense of purpose and passion; and escorts you to chart a

new course to life. He never judges, but relentlessly encourages and empowers you. He's truly a brilliant, genuine and a humane person with an infectious enthusiasm to make you seize your inborn potential.” —Adrian “If I had to sum up my experience with Bruno in one word, it would be 'awakened.' Bruno helped me see life from a different perspective, which is what I needed, but most importantly, he showed me how to do that myself without being dependent on him.... Bruno got me to step outside of my comfort zone and do things I normally wouldn't have done otherwise, which is undoubtedly the key to growth.” —Blaine This guide has been written to help people understand what goes on when you have been in a trauma and how to get over it. This guide is an incentive for people to do something that will help them heal from the often disturbing and overwhelming reactions to trauma so that they can re-claim their life as best as possible.

got comfortable with how life was treating me. I no longer cared about how I presented myself, stuck between life and death, you know Purgatory. The real me had left long ago and the figure that I saw before me was just a shell that protects me until I could be found again. I had everything a woman could ask for and more yet somehow and somehow I forgot about myself and ended up in the purgatory of living. When I had my epiphany, I discovered some things that I should have seen all along but was too busy allowing life to consume me that I didn't care to pay attention. You know, taking care of kids, husband, family, work, friends and oh yeah, then me if I'm not too tired.... Me! One day I found myself on the outside of the milk carton... Lost, hanging in the purgatory of living. It was the shock of my life yet not a shock for everyone else. Most often others can see what's going on in your life even when you cannot (or you think you do). Don't let that to happen to you or to allow it to continue. You can step out of the purgatory of living and into a new beginning. It could be easier than you think it is. For me... I have some changing to do and the changing can only be done by me for me. I cannot change you or the rest of the world but we can help each other with the process of changing for the better.... TOGETHER! And look who we shall find! (You and me too) Let's begin... how did I lose myself?

It actually made sense and addressed what it said it would do, which in my opinion is a rarity in these types of books. The life force, also known as "spirit," is the essence of being and the conscious and most important form of energy. Living energy is personal and within our conscious control, and by learning about it, we can use it to transform our life into vibrant and meaningful expressions of who we really are. Consciousness is purely energetic and therefore difficult to quantify in mechanistic terms. It is the characteristic of living energy and is the foundation of awareness. Consciousness is the thread running through all life. Living Energy is an introduction to the process of mystic spirituality. The reader is encouraged to attain a deep and meaningful connection to the divine with expanded awareness. The principles given in this book are equally relevant to the novice and the advanced practitioner. Robert explains how we may reveal our hidden potential by shifting our perception away from what is customary and comfortable to open the doors to greater spiritual awareness.
