As a surprise gift for his eighty-sixth birthday, Fuller received 'Synergetic Stew': a compilation of cooking recipes contributed by his friends and colleagues, sharing personal anecdotes and humorous recollections of his life, such as a reminiscence about Bucky's somewhat peculiar but enthusiastic love for tea. Scattered throughout the book are enticing texts and poems from Fuller himself. The book is a glimpse into Fuller's life, told by his peers and embedded in nearly a hundred achievable recipes. A few of them are joyful odes towards Fuller's oeuvre, such as Shirley Sharkey's Geodesicandy, the Microbiotic Diet by John Cage, or Amy Edmondson's Allspace-Filling Whole Wheat Bread. In addition to the facsimile, Fuller's grandson Jaime Snyder reflects upon often overlooked facets of Bucky's character, revealed through anecdotes of his relationship with food. Short profiles of all contributors complete the reprint.

This is a new release of the original 1924 edition.

A Manager's Guide to Telecommunications discusses the basic principles of various telecommunications equipment that can be utilized in management practice. The book also covers the techniques, relevance, and selection of different telecommunication devices. The text first covers communication and computers, and then proceeds to tackling transmission technology and techniques. The next chapter covers networks and exchanges, while the succeeding two chapters discuss voice and text communication, respectively. The last two chapters talk about database on-line database and local area networks, successively. The book will be of great use to those in management positions who wish to learn more about the various telecommunications equipment.

Faxed is the first history of the facsimile machine—the most famous recent example of a tool made obsolete by relentless technological innovation. Jonathan Coopersmith recounts the multigenerational, multinational history of that device from its origins to its workplace glory days, in the process revealing how it helped create the accelerated communications, information flow, and vibrant visual culture that characterize our contemporary world. Most people assume that the fax machine originated in the computer and electronics revolution of the late twentieth century, but it was actually invented in 1843. Almost 150 years passed between the fax's invention in England and its widespread adoption in tech-savvy Japan, where it still enjoys a surprising popularity. Over and over again, faxing's promise to deliver messages instantaneously paled before easier, less expensive modes of communication: first telegraphy, then radio and television, and finally digitalization in the form of email, the World Wide Web, and cell phones. By 2010, faxing had largely disappeared, having fallen victim to the same technological and economic processes that had created it. Based on archival research and interviews spanning two centuries and three continents, Coopersmith's book recovers the lost history of a once-ubiquitous technology. Written in accessible language that should appeal to engineers and policymakers as well as historians, Faxed explores themes of technology push and market pull, user-based innovation, and "blackboxing" (the packaging of complex skills and technologies into packages designed for novices) while revealing the inventions inspired by the fax, how the demand for fax machines eventually caught up with their availability, and why subsequent shifts in user preferences rendered them mostly passé.

The story begins in Jerusalem in 70 AD as Abraham the Temple scribe flees the destruction of his home. Two thousand years and a hundred generations later, another Abraham perishes, immolated in the fires of the Warsaw Ghetto.

The Department of Licensing has worked to keep the notary public application process as simple as possible. A prospective notary need only submit a complete application, proof of a \$10,000 surety bond, and appropriate fees to the Department of Licensing in order to begin the process. Once an applicant has completed all application requirements and proven that he or she is eligible, the Department will have a new certificate of commission mailed out promptly. New in 2018, notaries public can also apply for an electronic records notary public endorsement, which allows the notary to perform notarial acts on electronic documents as well as paper documents. The application process is similar to the application process for the commission, and can be done at the same time or separately.
