This book addresses the point of intersection between cognition, metacognition, and culture in learning and teaching Science, Technology, Engineering, and Mathematics (STEM). We explore theoretical background and cutting-edge research about how various forms of cognitive and metacognitive instruction may enhance learning and thinking in STEM classrooms from K-12 to university and in different cultures and countries. Over the past several years, STEM education research has witnessed rapid growth, attracting considerable interest among scholars and educators. The book provides an updated collection of studies about cognition, metacognition and culture in the four STEM domains. The field of research, cognition and metacognition in STEM education still suffers from ambiguity in meanings of key concepts that various researchers use. This book is organized according to a unique manner: Each chapter features one of the four STEM domains and one of the three themes—cognition, metacognition, and culture—and defines key concepts. This matrix-type organization opens a new path to knowledge in STEM education and facilitates its understanding. The discussion at the end of the book integrates these definitions for analyzing and mapping the STEM education research. Chapter 4 is available open access under a Creative Commons Attribution 4.0 International License via [link.springer.com](http://link.springer.com) There is lots of lift-the-flap fun to be had and four flashing sound buttons to press in Noisy Tractor, a brilliant book for tractor-mad kids. Each spread focuses on a different farm vehicle, with "chug-chug-chugging" and other noises to hear on the press of each button. Lift the flaps and read the simple text to learn about the unique features on each vehicle, and there's a simple matching activity for additional fun. Publishing alongside Noisy Fire Engine.

The perfect bedtime book from Nick East and Michelle Robinson - Goodnight Princess As a little girl says goodnight to her dressing up clothes and dolls she is transformed into a princess in a magical realm. A beautiful rhyming text is accompanied by atmospheric illustrations which will delight and soothe all little girls as they snuggle up in bed. A follow-up to the wonderful Goodnight Tractor and Goodnight Digger, this is the perfect bedtime book. Michelle Robinson has always wanted to be an author like her hero Roald Dahl, but all they had in common was the same birthday and a love of chocolate. Now at last, Michelle is a real author too. She lives in Frome, Somerset with her husband, son and daughter. Visit her at [www.michellerobinson.co.uk](http://www.michellerobinson.co.uk). Nick East has been working as a museum designer for the past 16 years but

has always been a storyteller, whether as a child, filling sketchbooks with quirky characters, or as a designer displaying a collection of ancient artifacts. Nick lives near York with his wife and two children and, when he isn't drawing, he is out riding bikes and spending time with his family.

Go on a counting adventure with your favourite animals in this noisy board book for little ones. With six high-quality animal sounds to press and count, easy-to-grip tabbed pages, and lots of cute animals to meet, this interactive book will appeal to young children and encourage early learning skills. Give your child a head start before they start school with this fun and educational children's book. With this unique book children can count the animal sounds as they press each button. Learning to count abstract things such as sounds is part of the early years curriculum and this book lets your child practise this skill, getting them ready for school. Parents will love the other ways that this noisy book supports preschool learning; the tabs encourage little ones to turn the pages all by themselves, and joining in with the rhyme and copying the animal noises helps children get ready for reading. Children will love meeting the playful animals, including one tooting elephant squirting water, two oinking pigs splashing in the mud, and three lions playing chase. The lively pictures, together with the fun rhyme, ensure that children will be eager to return to this animal book again and again. Learning to count and name animals has never been so much fun!

This charming jungle story is part of the collection of DK's noisy books for preschoolers. Young children will love hearing animal sounds as they lift the flaps. Growl! Howl! Animals contains lively rhymes to help children discover life in the jungle. With 16 lift the flaps and 5 light-activated sounds, including a baby orangutan, a parrot, and a crocodile splish-splashing, Growl! Howl! Animals combines early learning with preschool play and is ideal for reading aloud with babies and toddlers.

Plowing, planting, harvesting...there's always so much to do on a farm. Thank goodness there's a big, sturdy tractor! Our Zippy Wheels series celebrates young children's fascination with all things "big rig," helps them learn some interesting things about their favorites, and even comes with rotating wheels. From fire trucks that help save lives, to dump trucks that drop heavy loads, to tractors that help around the farm, and diggers that clear the ground, there's always something to learn and see here.

Accelerate your toddler's education in first words and colors using this engaging book designed by a professional artist and licensed speech pathologist. Wishy Washy takes your young child on an adventure as they learn new words through life-like paintings, bright colors, and an animal friend who guides them along the way. This book is more dynamic than other basic first words or color books because its pictures and words were strategically chosen to start with early developing phonemes (b,p,m,d,t) and to teach your child words they can easily say or approximate at a very young age

(9 months to 2 years old) like "puppy" vs. "elephant." Wishy Washy also provides tips for parents to help them encourage verbal approximations (acceptable substitutes). Plus, this engaging book comes with an attached wooden paintbrush and faux paint palette—a tactile, interactive tool that will provide your child with multi-sensory learning and help them better retain information on each page.

A visit to a family farm with a special tractor brings back memories for a grandfather who shares them with his grandson. Grandpa Joe takes his grandson Timmy back to the site of his family's farm, where the old house and a ramshackle barn still stand. The visit stirs up memories for Grandpa Joe—in particular, the majesty of his own father's shiny red tractor, now rusting in the forgotten fields. An ideal gift, this picture book evokes nostalgia while demonstrating a special bond between a grandparent and grandchild.

In a pair of bright lift-the-flap books full of animals, author-illustrator Petr Horáček gets little ones thinking with simple questions and easy concepts. Brave or shy, short or tall, slow or fast? Opposites abound in a colorful book of animals, inviting readers to celebrate each creature for its differences.

A first introduction for toddlers who love tractors! Beep! Beep! Follow the busy tractor around the farm in this first introduction to tractors. With layered die-cuts, fun facts, and a mouse to find on every spread!

Blue is having a sleepover party, but what does she want to do before bed? Cuddle up with this padded board book and play a special game of Blue's Clues with Josh from Nickelodeon's Blue's Clues and You to find out!

An engaging book of hide-and-seek filled with peek-through pages! When Spots, the ladybug, wants to play hide-and-seek but Beepo, the lightning bug insists that he will find Spots and all of his friends because they are so bright and spotted. Children will meet a variety of bugs and insects on the pages of this hide-and-seek book filled with fun die-cut pages!
