Dr Mike Moreno's 17 Day Diet is a revolutionary new weight-loss programme that activates your skinny gene so that you burn fat day in and day out. The diet is structured around four 17-day cycles: Accelerate- the rapid weight loss portion that helps flush sugar and fat storage from your system; Activate-the metabolic restart portion with alternating low and high calorie days to help shed body fat; Achieve - this phase is about learning to control portions and introducing new fitness routines; Arrive - A combination of the first three cycles to keep good habits up

for good. Each cycle changes your calorie count and the food that you're eating. The variation that Dr. Mike calls 'body confusion' is designed to keep your metabolism guessing. This is not a diet that relies on a tiny list of approved foods, gruelling exercise routines, or unrealistic calorie counts that leave you hungry and unfulfilled. Each phase comes with extensive lists of what dieters can and can't eat while on the phase, but also offers acceptable cheats. He advises readers not to drink while on the diet, but concedes that if they absolutely have to then they should at least drink red wine. Dr Mike knows that a diet can only work if it's compatible with the real world, and so he's designed the programme with usability as a top priority.

With her Eat-Clean Diet, Tosca Reno went from being overwhelmed and overweight to modeling a bikini, but her seventy-pound weight loss and body transformation didn't happen overnight; even Tosca needed a simple approach, a place to begin. Now she reveals her secrets so that you can begin your journey to safe weight loss and optimal health. Start now with The Start Here Diet! Tosca knows what it's like to feel ashamed of your body: At her heaviest, she hid behind bulky clothes and rarely had her picture taken. Her blood sugar level was like a roller coaster, and her heart rate was far from normal. Tosca was so focused on taking care of her family that she neglected her own needs. Then she started making slight adjustments in her everyday life—small changes that brought about big results. In this exciting book, she shares the three easy-to-follow steps that helped her get her life back on track: Step 1: Dive Inward. Identify the emotional triggers for your overeating, the self-defeating “self-talk,” and the underlying reason why you really want to shed the pounds. Sharing her own internal dialogue—including excerpts from the journal she kept at that time—Tosca will help you overcome these internal barriers in a completely unique, accessible way. Step 2: Uncover Your Hidden Foods. Do you have a food you think you just can't live without? Or something you eat mindlessly and often? These are your “hidden foods” and they are sabotaging your best efforts to lose weight and keep it off. Through Tosca's transformative process, you will once and for all identify the empty-calorie foods that have added extra pounds and replace them with nutritious foods you can enjoy without weight gain. Part 3: Move a Little! The Start Here plan doesn't require you to join a gym or do lengthy daily workouts. Simply choose from Tosca's list of fifty basic movements to strengthen, tone, and improve your health. These are exercises you can fit into the rhythm of your busy life. Moving a little for even fifteen minutes a day will help reshape your body and put you on a path to weight-loss success. Like a good friend and trusted mentor, Tosca will show you how to believe in yourself again, forgive yourself, and imagine a life of joy you thought was out of reach. Her Start Here “essentials”—shopping and cooking tips, meal plans, and thirty delicious recipes—will help you learn to eat to nourish your body, not just to feed it. As Tosca says, The Start Here Diet is all about cherishing you—and you are wonderful!

Based on the latest research into the how and why of the obesity crisis, The Boring Diet shares a practical plan, accidentally discovered by the author, to lose excess weight, preserve lean body mass, and get control over your hunger. In this exciting and groundbreaking book you'll learn: Why most diet plans work - for a while - but then stall out. Why low carb and keto are "half right" and why our body's particular pleasure response to food, not insulin particularly, is the more effective cause of obesity. How a groundbreaking approach to alcohol and drug therapy can be applied to the problem of addictive food. The biochemistry of food addiction, written in easy-to-understand language. How two studies involving a mystery "goop" and rats eating supermarket food provide clues to the causes of obesity. Why hunger is a relative concept, and how your body uses it to trick you into eating junk food. How to attack hunger from two directions by making your food environment less interesting - boring! - and providing healthy alternatives. The foods you absolutely must eliminate from your environment if you are to have any hope of success. Why low carb diets work, if followed, but also why they almost always eventually fail. How Hollywood stars routinely gain and lose weight for movie roles. The "BCAT" method for silencing your nagging hunger. What a drug with a miraculous ability to cure alcoholism - if the right procedure is followed - can teach us about combatting food addiction. A simple sample meal plan that applies all of the principles of the book. Why The Boring Diet is a simple, but not easy, way to retrain your brain's relationship to food. Why you should weigh yourself daily. How following The Boring Diet imperfectly can still produce great results. The purpose of exercise and why it's important for physical and mental health but has almost no impact on weight loss. Why the "Valley of Fat Loss" makes it so difficult to stick with a weight loss

effort to achieve true fitness. Why people who are already at a healthy weight need to implement the principles of The Boring Diet to ensure continued fitness in our "obesogenic" society. The Boring Diet should be read by everyone who struggles with excess weight. Utilizing the latest concepts in biochemistry, neuroscience, addiction science, and how these were applied in the author's personal journey to maintain weight loss over more than a decade, The Boring Diet is a short, concise, easy-to-read solution. In the author's words: "I don't recommend taking my advice blindly, but testing it for yourself. I'm not a doctor, just an independent, analytical thinker. I have had some success in business, which helps me sort through complex information amid uncertainty to develop practical plans of action. The doctors don't seem to have the answers either, given the obesity epidemic. I hope what I say makes sense and is useful to you, but test it for yourself, take what's useful, and discard the rest."

By applying the principles of clean eating to a realistic lifestyle, top journalist and working mom Dari Alexander shows how you can achieve your best body and keep that promise to yourself: to finally look like that gorgeous person you know exists. Most

importantly, it promotes life-long good health. The Quick & Clean Diet is all about whole grains, lean proteins, and good fats. It shuns pre-packaged, heavily processed, refined, and fast foods. It's not about eating only low-carb, nor about going fat free. It's about good fats. Expect to eat plenty of chicken, turkey, and fish. You will also get an endless choice of vegetables, and a plethora of spices. Your food will never taste boring, nor will you feel deprived; in fact, expect to eat a lot. Three levels form the basis of the diet—for each of which the book provides delicious recipes. The High Motivation segment is the rapid weight loss phase, a time designed to whip you into shape, kill your cravings, and shrink your stomach. Within about three days, you will feel unstoppable. The Grounding segment is where you continue to lose weight while reintroducing a wider variety of foods. And finally the Stability segment will become your roadmap for eating well for the rest of your life.

From chef and creator of the popular food blog Domesticate-Me.com, 125 outrageously delicious yet deceptively healthy recipes for dudes (and the people who love them), accompanied by beautiful full-color photography. Dudes. So well intentioned when it comes to healthy eating, even as they fail epically in execution—inhaling a "salad" topped with fried chicken fingers or ordering their Italian hero on a whole wheat wrap (that makes it healthy, right?). There are several issues with men going on diets. First, they seem to be misinformed about basic nutrition. They are also, generally, not excited about eating "health food." You can lead a dude to the salad bar, but you can't make him choose lettuce. Enter Serena Wolf—chef, food blogger, and caretaker of a dude with some less than ideal eating habits. As a labor of love, Serena began creating healthier versions of her boyfriend's favorite foods and posting them on her blog, where she received an overwhelming response from men and women alike. Now, in *The Dude Diet*, Serena shares more than 125 droolworthy recipes that prove that meals made with nutrient-dense whole foods can elicit the same excitement and satisfaction associated with pizza or Chinese take-out. *The Dude Diet* also demystifies the basics of nutrition, empowering men to make better decisions whether they're eating out or cooking at home. Better still, each recipe is 100% idiot-proof and requires only easily accessible ingredients and tools. With categories like Game Day Eats, On the Grill, Serious Salads, and Take Out Favorites, *The Dude Diet* will arm dudes and those who love them with the knowledge they need to lead healthier, happier lives—with flattened beer bellies and fewer meat sweats. *The Dude Diet* includes 102 full-color photographs.
