"Parnassus on Wheels" (1917) was Christopher Morley's first published novel. It tells the story of Roger Mifflin, who sells his travelling book business to 39-year-old Helen McGill. The latter is tired of taking care of her ailing older brother Andrew, a businessman, farmer, and author. The novel is told from the perspective of Mrs McGill and was in part inspired by David Grayson's novel "The Friendly Road." Morley wrote a sequel to this story called "The Haunted Bookshop." Christopher Morley (1890–1957) was an American author, poet and journalist from Pennsylvania. His father was a mathematics professor and his mother a violinist. The family moved to Baltimore, Maryland, in 1900 and he later studied modern history at Oxford. After getting his degree, he moved back to America and married Helen Booth Fairchild, with whom he had four children. Morley was a prolific writer and is remembered for novels such as "Parnassus on Wheels" (1917), "The Haunted Bookshop" (1918), "Thunder on the Left" (1925), and "Kitty Foyle" (1939).

The majestic high-wheel bicycle, with its spider wheels and rubber tires, emerged in the mid-1870s as the standard bicycle. A common misconception is that, bound by Victorian dress and decorum, women were unable to ride it, only taking up cycling in the 1880s with the advent of the chain-driven safety bicycle. On the contrary, women had been riding and even racing some form of the bicycle since the first vélocipèdes appeared in Europe early in the nineteenth century. Challenging the understanding that bicycling was a purely masculine sport, *Muscle on Wheels* tells the story of women's high-wheel racing in North America in the 1880s and early 1890s, with a focus on a particular cyclist: Louise Armaindo (1857–1900). Among Canada's first women professional athletes and the first woman who was truly successful as a high-wheel racer, Armaindo began her career as a strongwoman and trapeze artist in Chicago in the 1870s before discovering high-wheel bicycle racing. Initially she competed against men, but as more women took up the sport, she raced them too. Although Armaindo is the star of *Muscle on Wheels*, the book is also about other women cyclists and the many men – racers, managers, trainers, agents, bookmakers, sport administrators, and editors of influential cycling magazines – who controlled the sport, especially in the United States. The story of working-class Victorian women who earned a living through their athletic talent, *Muscle on Wheels* showcases an exciting moment in women's and athletic history that is often forgotten or misconstrued.

Come along for the ride as *Wheel & Deal Carts on Wheels* tours the broad range of mobile establishments roaming the worlds roads, parks, and greenways. Five chapters divide the traveling outfits based on how they are propelled, whether entirely human-powered, bicycle-driven, carried in cars, hauled by trucks, or ferried to and fro by public transportation. Projects featured include solar-powered ice cream carts, easily transportable folding homes for the homeless, the irreverent pedal-powered Popemobile, Chicago CTAs Art on Track public transportation turned art gallery, and San Franciscos much-loved Curry Up Now food truck. Readers will also find pop-up fashion shops, tiny self-contained offices, and an amazing variety of kitchens on wheels.

Paul Wheeler is no ordinary chauffeur. He spends his days, and often his nights, driving some of the richest people in Britain around in their limos to anything from

five-star restaurants and fundamentalist churches to shoe shops and sex parties. These men - they are almost all men - are driven in more ways than one, and they are only as happy as their last business deal. After a good day, they'll tip the chauffeur generously, but after a bad one, he could find himself told to take the bus home and not come back. This true-life account lifts the lid on the lives of the billionaires.

Experience the thrilling world of Japanese cycling and the keirin, which has evolved from post-war oddity to one of Japan's most popular and lucrative sporting events—and a must-see for the upcoming Olympics in Tokyo. The Keirin, which means "war on wheels," is now a high profile Olympic sport and attracts millions of spectators. But its origins are humble, even strange. Like the Tour de France was originally conceived to sell newspapers, the keirin was invented in post-war Japan as a way to raise taxes on gambling. Now, over \$12 billion a year is wagered on it, and its stars are primed to millions. Unlike a traditional race, a pacemaker leads eight riders up to speeds of 70kph on huge concrete velodromes, then they fight to cross the line first, with riders pushing, shoving, and crashing in the final stretch. Long associated with the working class, even the notorious yakuza crime syndicates, riders today live in blacked-out dorms, with no access to technology, to prevent bet-rigging. Their lives are ruled by ritual and competition, from their rookie days at the Mt. Fuji training camp to elite competitions that are the Japanese equivalent of the Grand National. Foreign riders sometimes compete, but rarely prosper in this intense environment, and the Olympic version is a mere child's play to the fierce environs of the velodromes in Tokyo. and Osaka, where a spectre of danger still looms. *The War on Wheels* explores a side of Japan we rarely see and it's uniquely fascinating sporting culture.
