This book focuses on the role that the Oxford classical curriculum has had in shaping Oscar Wilde's aestheticism. It positions Wilde as a classically trained intellectual and outlines the path he took to gain recognition as a writer and promoter of the aesthetic movement. This narrative is conveyed through a broad range of literary sources, including Wilde's travel poetry, American lectures, and canonical works like 'The Critic as Artist', The Soul of Man, The Picture of Dorian Gray and De Profundis. This study proposes that Wilde approached aestheticism as a personalised, self-directed learning experience – a mode of self-culture – which could be used to maintain an intellectual life outside of the university. It also explores Wilde's thoughts on education and considers the significance of male friendship at Oxford, and in Wilde's life and literature.

"Russell's new high fantasy series launch is well written with a definite steampunk vibe and sword-and-sorcery appeal." —Library Journal
A world consumed by war. An ancient evil resurrected. A millennia-old bargain comes due . . . When two blades clash, the third will fall, and the fate of all will be jeopardized. To save Lozaria, the failures of the past must be atoned for by a new generation of heroes. The time has come for mortals to cast off sight and, in doing so, truly come to see . . . Victory is never absolute. Seven centuries ago, the forces of order won the Illyriite War on the plains of Har'muth. Darmatus and Rabban Aurelian slew their elder brother, Sarcon, the despotic architect of the conflict, then sacrificed themselves to banish the cataclysmic vortex opened with his dying breath. The first advent of the Oblivion Well was thwarted. Even without their vanished gods, the seven races of Lozaria proved themselves capable of safeguarding their world. Or so the story goes. The year is now 697 A.B.H. (After the Battle of Har'muth). Though war itself remains much the same, the weapons with which it is waged have evolved. Airships bearing powerful cannons ply the skies, reducing the influence of mages and their spells. Long-range communication has brought far-flung regions of Lozaria closer than ever before. At the center of this technological revolution are the three Terran states of Darmatia, Rabban, and Sarconia, who have fought a near ceaseless campaign of seven hundred years in an attempt to best each other. The roots of their enmity lie buried beneath the wasteland of Har'muth, a place all three nations consider best forgotten. However, an ancient power sealed within Har'muth has not forgotten them, and the descendants of those who fought on that field must now take a stand to rectify the mistakes of the past . . .

Being a descendant of Charles Darwin might not make William Pryor a celebrity, but his memoir ought to. *Survival of the Coolest* is a deep read about a man with a legacy for greatness who instead dives into drug addiction and comes up to tell about it. Do yourself a favour, put down the celeb bios and read this real life account of a real cool life.

Greg wakes up in a remote war zone, sole survivor of an air crash caused by a suicide bomber. Aman faces the disappearance of his wife and children in a family blood feud. Samira is forced to cope with the complexities of life as an asylum-seeker in the UK. Nuala must deal with the news that her husband is missing, presumed dead, victim of a terrorist atrocity. *Divinity Road*, Martin Pevsner's first novel, traces the lives of four individuals and the unexpected links that bind them together. From violent conflict in Africa to the suburban streets of Oxford, it evokes a world of alienation and separation, fanaticism and cruelty, but ultimately celebrates the power of human solidarity and resilience.

The integrative theme of this collection of essays is change and transformation explored in the context of diverse expressions within the context of Anglican Church history. It addresses some central themes--notably the sacraments, liturgy, biblical interpretation, theological education, the relationship of church and state, governance and authority, and Christian education. The volume traces Anglican Church history chronologically. It includes a comparative study of penance in the thought of John Wyclif and Thomas Cranmer. The book also treats the dispersal of authority evident in the development of the Book of Common Prayer and the King James Bible, consensus in eucharistic theology in the seventeenth century, and developments in biblical interpretation in the early eighteenth century. This book also discusses a vision for the Christian education of children, change in theological education in the 1830s, the metanarrative of continuity developed by High Church historians in the late nineteenth century, increasing self-government in the Church at the outset of the twentieth century, and models of governance at the outset of the twenty-first. While this collection highlights aspects of change and transformation as an integrative theme, it is not its premise that change was normative or pervasive, perpetual or constant, within Anglicanism. Nevertheless, these essays raise some new lines of inquiry, make some suggestive interpretations, or propose revision of accepted views.
