

Financial Accounting And Reporting 15th Edition

Engaging and lively, clear and practical, this is the most applied accounting for non-specialists book whose fully integrated case study emphasises the relevance of accounting to the world of business. Sam Smart is the budding entrepreneur who forms the basis of the case study at the heart of this book. We follow Sam as he goes from starting a small business, printing sports kits for local teams, to managing a global sports business. Throughout the course of the book he assesses the success of his business, finances day to day activities, makes pricing decisions, opens new branches, looks at cash flow, and facilitates planning, control, and investment. Featured at the start of every chapter to highlight to students the implications and applications of the topic they are about to study, Sam and his business provide consistency and connection. As we follow the case study, all the topics central to accounting are covered with clarity, imagination, and relevance, giving students the support they need to complete their course and exams with confidence. The wealth of additional examples and self-test exercises available alongside the case study enable students not only to develop an appreciation of how accounting information allows a manager to make key business decisions, but also to acquire the skills necessary to enable them to converse with accountants, and challenge their assumptions and methodologies.

Accounting and Finance for Managers is specifically designed for the needs of MBA, EMBA and MA Business and Management students. It includes worked examples throughout the chapters, as well as real-world scenarios and full exercises at the end of each chapter. The book also includes 'Expert view' notes, which encourage students to think more broadly and present them with further issues to consider. For lecturers, the book begins with an indication of how the course material throughout the book might be divided over different time periods. Providing coverage of basic bookkeeping, readers will learn how to interpret financial statements and grasp underlying theory, interpret a cash budget and identify potential problems, identify appropriate pricing strategies to fit different markets and products/services and incorporate financial evaluation into operational decision making and problem solving. Online supporting resources for this book include bonus chapters covering topics such as cash flow, investment decisions and business planning, and lecture slides for each chapter.

These working papers provide students with a starting point for completing end-of-chapter assignments from the textbook.

Financial Accounting and Reporting is the most up to date text on the market. Now fully updated in its fourteenth edition, it includes extensive coverage of International Accounting Standards (IAS) and International Financial Reporting Standards (IFRS). This market-leading text offers students a clear, well-structured and comprehensive treatment of the subject. Supported by illustrations and exercises, the book provides a strong balance of theoretical and conceptual coverage. Students using this book will gain the knowledge and skills to help them apply current standards, and critically appraise the underlying concepts and financial reporting methods.

With the recent global economic crisis, attitudes and practices in relation to intellectual property valuation are changing as exemplified by the dichotomy explained in this book, which makes it unique. While there has been a move towards global harmonisation in terms of valuation of both tangible and intangible assets that are based on innovation, there is also a tendency against global harmonisation because of cultural attitudes and practices of different countries. This can be seen most acutely in relation to intellectual property valuation in Asia, especially East Asia, which often differs from the West's perception of valuation. The book is written by experts in intellectual property, valuation and innovation who are mainly practitioners covering innovators, marketers, accountants, social innovators and business and management academics. The breadth and practitioner background of most of the contributors make the material relevant to those involved in valuation, economics, business, management, accounting and finance, law and maritime insurance.

This book takes an interdisciplinary approach that cross-cuts all the above-mentioned disciplines and takes the understanding of intellectual property valuation to a new level.

Close the gap between homework and exam performance with Warren/Reeve/Duchac's CORPORATE FINANCIAL ACCOUNTING 13E! Market-leading CORPORATE FINANCIAL ACCOUNTING has been on the forefront of innovation and change based on the needs of today's teaching and learning environment. Business examples and a new chapter schema provide context for readers, demonstrating how each chapter's content fits into the big picture, connecting fundamental concepts with real businesses. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

The world economy in which we are living poses challenges that lead to a realization that 'more of the same' will be difficult to sustain. This provides an illustration that, in order to create new or modified knowledge practices, strengthen customer relationships and thus positively influence customer satisfaction, organizations must be flexible in configuring (combining) knowledge and knowledge structures in a way that is appropriate for delivering value to the customer. It must simultaneously develop effective strategies for updating the knowledge of its staff members necessary for underpinning the creation and delivery of appropriate knowledge services. Thus, unlearning (forgetting) becomes a critical means for organizational success. The ECKM community of scholars has already initiated dialogue that links its particular strengths to innovation issues. This conference aims to further that dialogue by attracting leading edge work that leverages the ECKM community's in-depth understanding of learning and unlearning to better understand knowledge management. Our aim is to stimulate breakthrough research streams linking learning, unlearning and knowledge management. How can organizations tailor, use, and extend techniques and tools from knowledge management for improving their business practices and processes? Building upon existing work on knowledge management (KM) and organizational learning, the conference will promote interdisciplinary approaches from computer science and information systems, business, management and organization science as well as cognitive science. Emphasis will be put on systematic learning from experience, KM tools and KM success factors. A special interest belongs to knowledge management initiatives which are lightweight (i.e., do not place considerable additional burden on users and KM experts), allow an incremental adoption (i.e., do not require large up-front investment before any return of investment is at least visible), and are flexible regarding frequent changes in experts and topics. Continuing the success of the ECKM conference series since 2000, the 2015 conference will provide an international communication forum bringing together academia and industry for discussing the progress made and addressing the challenges faced by continuous learning in knowledge-intensive organizations.

Exposes two fundamental theoretical errors responsible for the bankruptcy of modern economic policy. Toxic economic theory originates from its misconceived division into separate micro- and macro- compartments. It is responsible for fraudulent accounting standards, a dysfunctional system of taxation, and totally bankrupt macroeconomic policy.

Fifteenth report of Session 2009-10 : Documents considered by the Committee on 17 March 2010, including the following recommendations for debate, EU policies until 2020, report, together with formal Minutes

Essential procedures for the measurement and reporting of fair value in Financial statements Trusted specialists Michael Mard, James Hitchner, and Steven Hyden present reliable and thorough guidelines, case studies, implementation aids, and sample reports for managers, auditors, and valuers who must comply with the Financial Accounting Standards Board Statement of Financial Accounting Standards Nos. 141, Business Combinations; 142, Goodwill and Other Intangible Assets; 144, Accounting for the Impairment or Disposal of Long-Lived Assets; and the new 157, Fair Value Measurements. This important guide: * Explains the new valuation aspects now required by SFAS No. 157 * Presents the new definition of fair value and certain empirical research * Distinguishes fair value from fair market value * Provides a case study that measures the fair values of intangible assets and goodwill under SFAS Nos. 141 and 157 * Includes a detailed case study that tests the impairment of goodwill and long-lived assets and measures the financial impact of such impairment under SFAS Nos. 142 and 144 * Cross-references and reconciles the valuation industry's reporting standards among all of the valuation organizations * Includes two sample valuation reports, one of which is a new USPAP-compliant PowerPoint presentation format * Includes implementation aids for controlling the gathering of data necessary for analyses and for guiding the valuation work program

Issues in Financial Accounting addresses the controversial issues in financial accounting that have been debated by the preparers, users, auditors and regulators of financial statements. Henderson provides the best balance of technical and theoretical coverage in any Financial Accounting text on the market today, with its presentation of real-world examples, current debates and the underlying rationale for the accounting concepts demonstrated. Throughout the text, academic studies and professional accounting research are referenced to also provide a critical understanding of historical debates in financial accounting. The new 15th edition covers significant recent developments to the accounting standards in Australia and is based on the AASB standards and interpretations that have been issued up to the end of 2012. This includes the Australian Accounting Standard Board's (AASB) program of changes to make accounting standards equivalent to International Financial Reporting Standards.

Wahlen/Jones/Pagach's INTERMEDIATE ACCOUNTING provides the context students need to understand accounting's unique value to an organization. Wahlen's approachable writing style infuses this context through the use a well-known company in a running thread case, and by using other recognizable companies like Coca Cola, Louis Vuitton, and Nestle in discussions. Recognizing that the world of accounting is changing rapidly, Wahlen provides currency and flexibility in its discussions of IFRS, Codification, and pending FASB changes, while also providing concrete ways for students to apply these concepts. Wahlen offers the breadth and depth of coverage you need while making Intermediate Accounting accessible to your students. With the fifteenth edition of Financial and Managerial Accounting: The Basis for Business Decisions, the Williams author team continues to be a solid foundation for students who are learning basic accounting concepts. In this revision, the authors have added to and refined the coverage of International Financial Reporting Standards (IFRS), particularly in Chapter 15 ("Global Business and Accounting"). Hallmarks of the text--including the solid Accounting Cycle Presentation, relevant pedagogy, and high quality, end-of-chapter material--have been updated throughout the book.

Following the first edition's global success, Accounting: A Smart Approach has refined its fresh approach to accounting for non-specialists. The case study at its heart helps

students understand the relevance of accounting within their wider studies. Engaging and lively, clear and practical, it brings accounting to life for lecturers and students. Using real-world examples to thoroughly involves readers with financial statements, Financial Reporting and Analysis, 9e builds skills in analyzing real financial reports through statements, exhibits, and cases of actual companies. Emphasis is placed on the analysis and interpretation of the end result of financial reporting – financial statements. Close the gap between homework and exam performance with Warren/Reeve/Duchac's FINANCIAL ACCOUNTING 14E! Market-leading FINANCIAL ACCOUNTING has been on the forefront of innovation and change based on the needs of today's teaching and learning environment. Warren/Reeve/Duchac's FINANCIAL ACCOUNTING 14e helps elevate student thinking with content that addresses each stage of the learning process from motivation to mastery. It motivates students to learn, provides practice opportunities to better prepare for exams, and helps students achieve mastery with tools to help them make connections and see the big picture. The Complete Learning System in FINANCIAL ACCOUNTING is built around the way students use textbooks to learn, study and complete homework, allowing them to achieve ultimate success in this course. The most significant changes for this edition involve the inclusion of the new revenue recognition standard. The end goal of Warren/Reeve/Duchac's FINANCIAL ACCOUNTING learning system is to elevate thinking and create more empowered and prepared students--ready to take on the rest of their educational and career goals. This book employs a narrative analytical approach to explore all aspects of the debate surrounding auditor reporting on going concern uncertainty worldwide. In-depth analysis of significant academic studies and of regulatory perspectives is combined with an illuminating empirical study in the Italian context. The book opens by discussing the assessment of going concern for accounting and auditing purposes. It is examined how going concern is considered in the FASB and IASB accounting standards and how auditors in the PCAOB and IAASB environments should verify its presence in financial statements and report on it in the audit report. Accounting and auditing in relation to going concern in other jurisdictions are also addressed. Research into the determinants, accuracy, and consequences of going concern opinions (GCO) is then thoroughly reviewed, with separate examination of studies and trends in the United States, Europe, and the rest of the world. In the third part of the book, interesting evidence from the Italian Stock Market, including investor reactions to GCOs during the period 2008–2014, is presented and evaluated. The book will be of interest to academics, regulators, and practitioners alike.
