Tritiya-Prakriti: People of the Third Sex is a collection of years of research into a topic seldom discussed or easily found within the Hindu/Vedic scriptural canon. Based entirely upon authentic Sanskrit references and modern concurring facts, the book guides us through the original Hindu concept of a "third sex" (defined as homosexuals, transgenders and the intersexed), how such people were constructively incorporated into ancient Indian society, and how foreign influences eventually eroded away that noble system. It discusses how this concept can be practically applied in today's modern world, the importance of all-inclusiveness in human society, and the spiritual principle of learning to transcend material designations altogether. Tritiya-Prakriti: People of the Third Sex will be a valuable source of reference for anyone interested in Hindu/LGBTI studies whether they are newcomers to the field or seasoned veterans of Vedic knowledge. It offers a veritable treasure trove of fresh information and ideas that will likely challenge the reader to rediscover and rethink Hinduism's traditional understanding and treatment of gay, lesbian, and other gender-variant people within its culture. "The recognition of a third sex in ancient India and Hinduism is highly relevant in many ways. Our own modern-day society has only recently begun to understand sexual orientation, transgender identity, and intersex conditions, and our legal and social systems are just beginning to catch up with and accommodate such people in a fair and realistic way . . . yet ancient India had already addressed and previously resolved this issue many thousands of years ago in the course of its own civilization's development. Indeed, there is much we can learn from ancient India's knowledge regarding the recognition and accommodation of a 'third sex' within society." -Amara Das Wilhelm "In India there is a system where such people (the third sex) have their own society, and whenever there is some good occasion like marriage or childbirth, they go there and pray to God that this child may be very long living." -A.C. Bhaktivedanta Swami Prabhupada "Gay and lesbian people have always been a part of society from Vedic times to our postmodern times. They should be accepted for what they are in terms of their sexual orientation and encouraged like everyone else to pursue spiritual life." -B.V. Tripurari Swami "Initially, I did not really allow myself to go deep in trying to understand the third sex. I figured that this was necessary only for those who are insensitive, arrogant and fundamentalist . . . who think that they are compassionate and tolerant while basically being superficial and even

condescending. It is quite amazing how most of us can be so prejudiced about so many things and not even know it . . . .I thank you and several others for your compassion and for your tolerance in making efforts to educate your Godfamily, so that we can be more authentic servants of the servant." -H.H. Bhakti Tirtha Swami

One warm rainy summer, Freya Dane, a PhD candidate in archaeology, arrives on the ancient Scottish island of Findnar. Estranged as a child from her recently dead father, himself an archaeologist, Freya yearns to understand more about the man, his work on the island, and why he left her mother so many years ago. It seems Michael Dane uncovered much of Findnar's Viking and Christian past through his search for an elusive tomb, and Freya continues with his work. The discoveries she is destined to make, far greater than her father's, will teach her the true meaning of love and of loss. AD 800, and a wandering comet, an omen of evil, shines down on Findnar. The fears of the locals are justified. In a Viking raid, Signy, a Pictish girl, loses her entire family. Taken in by survivors of the island's Christian community, she falls in love with an injured Viking youth left behind by the raiders and is cast out. Confused and bereft, eventually she becomes a nun, a decision that will unleash tragedy as she is plunged into the heart of a war between three religions. Forced to choose between her ancestors' Animist beliefs, her adopted faith, and the man she loves, Signy will call out to Freya across the centuries. Ancient wrongs must be laid to rest in the present and the mystery at the heart of Findnar's violent past exposed.

Writing on Crete, the fourth and last book of the Freewheeling series, opens on Emery, having departed Spain alone, making his way to Grez-sur-Loing, France, where he learns the George Sand Bookshop proprietor Walt Lowen has something he wants his vagabond friend to do for him. It involves Emery's traveling to Crete on Lowen's behalf and, at his expense, writing back to him up close about certain vague, intriguing things apparently going on there, in which Lowen, even from his distance, has somehow got himself entangled. "Old Lowen got Emery a flight out of Paris on a 1-300 B4 plane seating 315 people. The plane was soon twelve meters up, flying 870 kilometers an hour, passing over the snow covered Austrian Alps, next flying over Yugoslavia, then Albania, and on to Athens where luminous, delicious oranges were being sold on bleak, ashen streets. The grim city was surrounded on three sides by rough mountains – Mount Parnitha, Mount Penteli, and Mount Hymettos. At the core of the congested city was Plaka. In Plaka there were cheap flop houses with communal bedding for half a dollar, where local wines cost seven cents a glass. "In the morning, Emery took a bus to Piraeus on the Saronic Gulf, hidden by clouds. He enjoyed early morning coffee at a harbor front cafe. Black-haired, brown-eyed sailors in green uniforms stood idly about. Emery had evening tickets for Heraklion, and so had time to kill. He'd be on the ferry traveling overnight to Heraklion. He walked to the town center. He ate bread and Feta cheese. It was very cloudy, very chilly. Back at the docks in the evening, he boarded the ferry, the Knossos.

During the 1930s, in the build up to the Second World War, the Nazis established a band of specialists, the SS-Ahnenerbe, under the command of Heinrich Himmler and Hermann Wirth. Their aim was nothing less than to prove the superiority of the Aryan race, and with it the unique right of the German people to rule Europe. The occult figured as a key feature in many of these increasingly desperate quack research efforts. Part science, part espionage, and part fantasy. Archaeological expeditions were sent to Iceland, Tibet, Kafiristan, North Africa, Russia, the Far East, Egypt, and even South America and the Arctic. The Nazi Ancestral Heritage Societys chief administrator was Dr Wolfram Sievers, who cruelly conducted medical experiments on prisoners in concentration camps, and was responsible for the looting of historic artefacts considered Germanic for return to Germany. He rewarded those academics that took part with high military office, whilst those academics who contradicted or criticized the SS-Anenerbe were carted off to concentration camps where they faced certain death. This book tells the true history of the real life villains behind the Indiana Jones movies. Sometimes truth really is stranger than fiction!

Fighting the Bombers is an unrivaled look at the Allied bombing campaign from the point of view of the Luftwaffe establishment and command. The contributing authors were involved in all aspects of German attempts to stem the unrelenting bombardment from the RAF and USAAF; from tactics in the sky and development of the planes themselves, to long term strategy and planning on the ground, and the implementation of sophisticated radio and radar equipment. These reports were written immediately after the war, in 1945 and 1946 when most of the authors were prisoners of war, and for the most part were prepared without the aid of official documentation and records. As such they represent a view not coloured by reflection or by 'party lines' that became established in the post-war years, and clearly show the development of the Luftwaffe—particularly the tactics and equipment used for night flying—as the war

progressed and give a clear history of attempts to defend the Reich from aerial attack. The book also benefits from having been written specifically for an audience well-versed in military aviation affairs, the allied aviation and intelligence services. The detail contained in the reports is unique and allows the reader a fresh perspective on this famous campaign. Hi, my name is Dustin. My name means "Thor's stone" in the Viking language. I live in Scandinavia around AD 800-900. I also have a sister, Ragna. Her name means "giving advice," and boy, does she love to give advice. Our way of life is very different from yours. We had to become tough, strong, and flexible. We were Norwegians, Swedes, and Danes. Our families were farmers, traders, blacksmiths, and craftsman. Most of us lived on farms, even those who lived in towns had gardens and animals in their yards. Everything we needed and used had to be harvested or made by hand. Children had to plant and tend the crops. Also, in the cold winter months when no one really wanted to go outside, except when absolutely necessary, we kept our animals at one end of the long house with us. It did get smelly. Another job for children was cleaning out the poop and pee from the animals each day they were in the house. I have to say our houses

were a bit stinky in the winter. Our house is a long house or what you would call a rectangular prism with a fireplace area in the middle and rugs/animal skins hanging to divide the rooms. Ragna and I had to comb our hair every morning, and we had to take a bath every Saturday. You may be wondering if we just walked around in animal skins all day or whether we actually had clothing that looks like it was made of cloth, read to find out. We Vikings are known for our ships. Did you know there are actually two kinds of Viking ships? They were called the longships and knarrs. Come along with me and learn about our lives.
