David Osage is a dangerous man with a dangerous past, but these days he's just trying to keep his head down, driving big rigs. One night he saddles himself with a hitchhiker, a nuisance who's more than she seems. And that's when everything changes. No one was ready for an alien invasion. Death is raining from the sky and the only question left is do you run, fight, or submit. For David Osage and his family, answering is as easy as giving the alien invaders the finger.

The world didn't end with a bang, and it didn't go out in a ball of fire. But in some strange way, freezing destroyed the world as we knew it. When I suddenly find myself surrounded by frozen people who were full of life only moments before, I realize the aliens who came to Earth are nowhere near as benevolent as they claimed. Fleeing the horror they've unleashed, I'm almost captured when Cade intervenes to save me. Once best friends, it's been years since we had any real interaction, but to survive the hideous monsters hunting us, we'll have to rely on each other again. As our situation becomes more perilous, I find myself struggling to come to terms with my past, my terrifying new reality, and my growing love for Cade as we fight to evade the aliens that want more than our lives... they also want our blood. Can a girl who risks her life for books and an alien who loves pop music work together to save humanity? A beautiful and thrilling debut novel for fans of Marie Lu and Veronica Roth. Two years ago, a misunderstanding between the leaders of Earth and the invading Ilori resulted in the deaths of one-third of the world's population. Today, seventeen-year-old Ellie Baker survives in an Ilori-controlled center in New York City. With humans deemed dangerously volatile because of their initial reaction to the invasion, emotional expression can be grounds for execution. Music, art and books are illegal, but Ellie still keeps a secret library. When young Ilori commander M0Rr1S finds Ellie's library, he's duty-bound to deliver her for execution. The trouble is, he finds himself drawn to human music and in desperate need of more. Humanity's fate rests in the hands of an alien Ellie should fear, but M0Rr1S has a potential solution—thousands of miles away. The two embark on a wild and dangerous journey with a bag of books and their favorite albums, all the while creating a story and a song of their own that just might save them both.

I won't be forced into alien servitude. I've spent my life mucking out the houses of the rich and famous. I know what they're really like. They think they can take whatever they want. I learned that the hard way. Royalty? They have got to be worse. I'm not interested in any of them, not even an alien prince. I was supposed to be heading to another planet for a one-year housekeeping contract. Instead he bought me out. Does he think he can own me? I don't want him. I won't submit to him. So why is he so ... nice? Niall is unlike any rich guy I've ever known, but I still can't trust him. Not even when he treats me well. He calls me his fated mate! But he's an alien prince and I'm a housekeeper. We don't belong together. So why do I want to kiss him more than I want my next breath? Hop on to the space ship for Maid for an Alien Prince where a smart and tough human housekeeper meets her fated mate in the form of an alien prince!

Hell Squad soldier Gabe Jackson has lost everything that mattered, including his twin brother. Now he just wants to kill the invading aliens anyway he knows how...and he knows a lot of ways. Previously part of a secret Army super-soldier project, he's faster, stronger, deadlier...but on the inside, he's a mass of rage, and pain, and grief—all waiting for a chance to drag him under. Until he finds her. Dr. Emerson Green had her life planned: thrive in the high-stress environment of the ER, build her career, have a great life. Then the raptor alien invasion happened. Now she's the head of the medical team for the secret base sheltering human survivors outside of Sydney. She's also in charge of patching up the soldiers who get too close to raptor claws. She'd never planned for this...and she'd never planned for sexy, brooding Gabe Jackson. As Emerson uncovers clues to the aliens' secret plans for the human race, she and Gabe collide in a storm of volatile passion. But the brooding soldier is as stubborn as he is silent, and Emerson knows she must convince him to reach out to her...because Gabe is a ticking time bomb about to go off. A devastating raid on a drug cartel by the Colombian Army sets events in motion that could end in catastrophe. The criminal 252 Syndicate's search for an alternate supplier to broker cocaine to two mysterious customers ends in a botched deal with a vicious Honduran cartel. The 252s will mount an attack to seize the technology for themselves in five days, and the alien presence on Earth must be hidden to avoid a worldwide panic. The newly upgraded Coast Guard cutter Kauai is the only U.S. asset in position with a chance of covertly extracting the boat, its alien passengers, and their embedded technology in time. But the odds against success are very long. And the consequences of failure are disastrous for the world and horrifying for Kauai's crew.

She's everything I shouldn't want. I capture her anyway. What humans hail an invasion we call Garrison Earth: a mission to save our species from extinction. But while my warriors will soon have the stomachs of their new mates swell with daughters, I know this planet holds nothing for me. Until a fierce, red-haired female points her gun with her eyes blazing fire, and I know I have found my mate. A bullet and a tranquilizer pad later, I carry her in my arms. Against my better judgment. But who argues fate? With a mission at the brink of failure, I have no time to wait around until Eden is willing to bond. I took her freedom. Might have taken her family. Taking her body is my obligation. I am a male without conscience. Incapable of love. No one has ever pierced my cold heart. No one ever will. Not even her. Captured is the first book in this interconnected romance series, following the Vetusian invasion and how it changes Earth over the course of two decades. If you enjoy strong women, devoted aliens, fated mates, and hard-earned happily ever after's with no cliffhangers, you'll love Garrison Earth. Author Note: The entire Garrison Earth series touches on subjects such as captivity, drug abuse, forced prostitution, loss of loved ones, human trafficking, rough handling, and violence. Until a mysterious woman emerges from the ruins of destroyed Sydney and saves him from a pack of rampaging aliens. Santha Kade has one goal: revenge. The raptors who have devastated the Earth have taken everything from her: her team, her home, her beloved sister. Santha—a former police officer—has spent a year alone in the ruined city, waging her own guerrilla war. Sure, she might get lonely sometimes, but she doesn't have room for anything but vengeance. Not even for a sexy soldier with liquid brown eyes, a bone-melting accent, and a face designed to drive a woman wild. But as Cruz and Santha join forces to rescue human hostages from the aliens, their explosive attraction is impossible to resist. Can these two warriors survive long enough to find something worth living for?

The classic postapocalyptic thriller with “all the reality of a vividly realized nightmare” (The Times, London). Triffids are odd, interesting little plants that grow in everyone's garden. Triffids are no more than mere curiosities—until an event occurs that alters human life forever. What seems to be a spectacular meteor shower turns into a bizarre, green inferno that blinds everyone and renders humankind helpless. What follows is even stranger: spores from the inferno cause the triffids to suddenly take on a life of their own. They become large, crawling vegetation, with the ability to uproot and roam about the country, attacking humans and inflicting pain and agony. William Masen somehow managed to escape being blinded in the inferno, and now after leaving the hospital, he is one of the few survivors who can see. And he may be the only one who can save his species from chaos and eventual extinction . . . With more than a million copies sold, *The Day of the Triffids* is a landmark of speculative fiction, and “an outstanding and entertaining novel” (Library Journal). “A thoroughly English apocalypse, it rivals H. G. Wells in conveying how the everyday invaded by the alien would feel. No wonder Stephen King admires Wyndham so much.” —Ramsey Campbell “One of my all-time favorite novels. It's absolutely convincing, full of little telling details, and that sweet, warm sensation of horror and mystery.” —Joe R. Lansdale

"If China Miéville, Neil Gaiman and Hunter S. Thompson had a ménage à trois, Dead Boys would be the lovechild. A cracking book." —Jay Kristoff, author of Stormdancer  
A decade dead, Jacob Campbell is a preservationist, providing a kind of taxidermy to keep his clients looking lifelike for as long as the forces of entropy will allow. But in the Land of the Dead, where the currency is time itself and there is little for corpses to do but drink, thief, and gamble eternity away, Jacob abandons his home and his fortune for an opportunity to meet the man who cheated the rules of life and death entirely. According to legend, the Living Man is the only adventurer to ever cross into the underworld without dying first. It's rumored he met his end somewhere in the labyrinth of pubs beneath Dead City's streets, disappearing without a trace. Now Jacob's vow to find the Living Man and follow him back to the land of the living sends him on a perilous journey through an underworld where the only certainty is decay. Accompanying him are the boy Remington, an innocent with mysterious powers over the bones of the dead, and the hanged man Leopold l'Eclair, a flamboyant rogue whose criminal ambitions spark the undesired attention of the shadowy ruler known as the Magnate. An ambitious debut that mingles the fantastic with the philosophical, Dead Boys twists the well-worn epic quest into a compelling, one-of-a-kind

work of weird fiction that transcends genre, recalling the novels of China Miéville and Neil Gaiman.
