A strikingly original exploration of what it might mean to be authentically human in the age of artificial intelligence, from the author of the critically-acclaimed *Interior States*. "Meghan O'Gieblyn is a brilliant and humble philosopher, and her book is an explosively thought-provoking, candidly personal ride I wished never to end ... This book is such an original synthesis of ideas and disclosures. It introduces what will soon be called the O'Gieblyn genre of essay writing." —Heidi Julavits, author of *The Folded Clock* For most of human history the world was a magical and enchanted place ruled by forces beyond our understanding. The rise of science and Descartes's division of mind from world made materialism our ruling paradigm, in the process asking whether our own consciousness—i.e., souls—might be illusions. Now the inexorable rise of technology, with artificial intelligences that surpass our comprehension and control, and the spread of digital metaphors for self-understanding, the core questions of existence—identity, knowledge, the very nature and purpose of life itself—urgently require rethinking. Meghan O'Gieblyn tackles this challenge with philosophical rigor, intellectual reach, essayistic verve, refreshing originality, and an ironic sense of contradiction. She draws deeply and sometimes

In the present book, *How to Win Friends and Influence People*, Dale Carnegie says, "You can make someone want to do what you want them to do by seeing the situation from the other person's point of view and arousing in the other person an eager want." You learn how to make people like you, win people over to your way of thinking, and change people without causing offense or arousing resentment. For instance, "let the other person feel that the idea is his or hers" and "talk about your own mistakes before criticizing the other person." This book is all about building relationships.

With good relationships, personal and business successes are easy and swift to achieve. *Twelve Ways to Win People to Your Way of Thinking*

intimate in its scope, recasting the most infamous female figure from the Odyssey as a hero in her own right" (Alexandra Alter, The New York Times). In the house of Helios, god of the sun and mightiest of the Titans, a daughter is born. But Circe is a strange child -- not powerful, like her father, nor viciously alluring like her mother. Turning to the world of mortals for companionship, she discovers that she does possess power -- the power of witchcraft, which can transform rivals into monsters and menace the gods themselves. Threatened, Zeus banishes her to a deserted island, where she hones her occult craft, tames wild beasts and crosses paths with many of the most famous figures in all of mythology, including the Minotaur, Daedalus and his doomed son Icarus, the murderous Medea, and, of course, wily Odysseus. But there is danger, too, for a woman who stands alone, and Circe unwittingly draws the wrath of both men and gods, ultimately finding herself pitted against one of the most terrifying and vengeful of the Olympians. To protect what she loves most, Circe must summon all her strength and choose, once and for all, whether she belongs with the gods she is born from, or the mortals she has come to love. With unforgettably vivid characters, mesmerizing language, and page-turning suspense, Circe is a triumph of storytelling, an intoxicating epic of family rivalry, palace intrigue, love and loss, as well as a celebration of indomitable female strength in a man's world. #1 New York Times Bestseller -- named one of the Best Books of the Year by NPR, the Washington Post, People, Time, Amazon, Entertainment Weekly, Bustle, Newsweek, the

Human unconsciousness, which is identification with thought activity, human emotions, and the thinking mind, is the only source of ALL the evil on planet Earth. All evil is the result of humanity living in darkness, not knowing who they are in their essence, beyond their earthly names and physical forms, which causes them to identify with the world of materiality. The only solution to the darkness of humanity is the light of consciousness, which is disidentification from egoic mind structures, going with the flow of life instead of fighting against it, acceptance of what is, and surrendered action. As we continue to transform individually, the entire world is transformed, because in essence, we are all ONE. Each ONE affects the whole, causing World Transformation through the concept of ONENESS by way of the ONE spiritual energetic force that moves through ALL beings. All organized religions were created by men to condition the masses to think in a certain way, or to point beyond religious belief structures to the Infinite, the formless consciousness we call God. Accepting organized religion as the absolute truth instead of relative truth is the foundation for division and the destruction of the planet. Without the transformation of human consciousness, humans will destroy themselves, each other, and the

planet, and are already doing so. If humanity continues to blindly believe the media, organized religion, and all the conditioning tools of the powerful ruling Elite who run the world, without doing their own research, they will be destroyed through lack of knowledge. World Transformation: A Guide To Personal Growth And Consciousness is a transformative book that discusses over 110 life-changing topics to help spiritual seekers in their journeys in consciousness. Learn to be the awareness that is aware of and doesn't become all that you observe. World Transformation begins one person at a time. As you change, the whole world changes, because you are a part of the ONE Consciousness. Gandhi said, "be the change you want to see in the world." As you follow his advice, you become a positive force in the world. "One of the most important books of this generation!" "One of the most profound spiritual books ever written!!" Humanity will destroy themselves if they continue to blindly believe and follow the media, politicians, and organized religion, which are all used by the ruling Elite to control the masses. Most humans don't know what's going on because they allow entertainment, the media, and other brainwashing tools to control their thinking. Mark Twain said, "in religion and politics, people's beliefs and convictions are in almost every case gotten at second-hand, and without examination, from authorities who have not themselves examined the questions at issue, but have taken them at second-hand from other non-examiners, whose opinions about them were not worth a brass farthing." Social, religious, and other forms of conditioning control the minds of humanity

and will destroy them if they continue to accept ideals without analyzation. It is a fact that none of the major religious figures of organized religion actually existed. Their historicity is an unverifiable opinion. Daniel Patrick Moynihan said, "everyone is entitled to their own opinion, but not their own facts." The existence of all the Saviour Gods are questionable. Humanity only believes in them because of religious conditioning. Humanity as a whole has lost their identity in the world of materiality, also known as the world of form, or the world of things. To identify with something means to mistake a person, place, or thing for who you are, the I AM before I AM a (teacher, lawyer, doctor, student, etc.) Humans have confused millions of forms for their identity. Your invisible indestructible eternal divine essence is consciousness. Common false identities humans mistake for who they are in essence are their jobs, cars, degrees, attractive spouse, belief systems, relationships, knowledge, physical appearance, education, clothes, jewelry, family history, brand names, social status, special ability, thoughts, residence, awards and achievements, race, religious or political affiliations, sports, music, and MILLIONS of other things in the external world. Detailed summary and analysis of The Power of Habit. An essential exploration of why and how women's sexuality works—based on groundbreaking research and brain science—that will radically transform your sex life into one filled with confidence and joy. Researchers have spent the last decade trying to develop a “pink pill” for women to function like Viagra does for men. So where is

it? Well, for reasons this book makes crystal clear, that pill will never be the answer—but as a result of the research that's gone into it, scientists in the last few years have learned more about how women's sexuality works than we ever thought possible, and *Come as You Are* explains it all. The first lesson in this essential, transformative book by Dr. Emily Nagoski is that every woman has her own unique sexuality, like a fingerprint, and that women vary more than men in our anatomy, our sexual response mechanisms, and the way our bodies respond to the sexual world. So we never need to judge ourselves based on others' experiences. Because women vary, and that's normal. Second lesson: sex happens in a context. And all the complications of everyday life influence the context surrounding a woman's arousal, desire, and orgasm. Cutting-edge research across multiple disciplines tells us that the most important factor for women in creating and sustaining a fulfilling sex life, is not what you do in bed or how you do it, but how you feel about it. Which means that stress, mood, trust, and body image are not peripheral factors in a woman's sexual wellbeing; they are central to it. Once you understand these factors, and how to influence them, you can create for yourself better sex and more profound pleasure than you ever thought possible. And Emily Nagoski can prove it.

The Challenge Built to Last, the defining management study of the nineties, showed how great companies triumph over time and how long-term sustained performance can be engineered into the DNA of an enterprise from the very beginning. But what about the company that is not born with great DNA? How can good

companies, mediocre companies, even bad companies achieve enduring greatness? The Study For years, this question preyed on the mind of Jim Collins. Are there companies that defy gravity and convert long-term mediocrity or worse into long-term superiority? And if so, what are the universal distinguishing characteristics that cause a company to go from good to great? The Standards Using tough benchmarks, Collins and his research team identified a set of elite companies that made the leap to great results and sustained those results for at least fifteen years. How great? After the leap, the good-to-great companies generated cumulative stock returns that beat the general stock market by an average of seven times in fifteen years, better than twice the results delivered by a composite index of the world's greatest companies, including Coca-Cola, Intel, General Electric, and Merck. The Comparisons The research team contrasted the good-to-great companies with a carefully selected set of comparison companies that failed to make the leap from good to great. What was different? Why did one set of companies become truly great performers while the other set remained only good? Over five years, the team analyzed the histories of all twenty-eight companies in the study. After sifting through mountains of data and thousands of pages of interviews, Collins and his crew discovered the key determinants of greatness -- why some companies make the leap and others don't. The Findings The findings of the Good to Great study will surprise many readers and shed light on virtually every area of management strategy and practice. The findings include: Level 5

Leaders: The research team was shocked to discover the type of leadership required to achieve greatness. The Hedgehog Concept (Simplicity within the Three Circles): To go from good to great requires transcending the curse of competence. A Culture of Discipline: When you combine a culture of discipline with an ethic of entrepreneurship, you get the magical alchemy of great results. Technology Accelerators: Good-to-great companies think differently about the role of technology. The Flywheel and the Doom Loop: Those who launch radical change programs and wrenching restructurings will almost certainly fail to make the leap. "Some of the key concepts discerned in the study," comments Jim Collins, "fly in the face of our modern business culture and will, quite frankly, upset some people." Perhaps, but who can afford to ignore these findings?

From the acclaimed author of *Unfinished Business*, a story of crisis and change that can help us find renewed honesty and purpose in our personal and political lives Like much of the world, America is deeply divided over identity, equality, and history. *Renewal* is Anne-Marie Slaughter's candid and deeply personal account of how her own odyssey opened the door to an important new understanding of how we as individuals, organizations, and nations can move backward and forward at the same time, facing the past and embracing a new future. Weaving together personal stories and reflections with insights from the latest research in the social sciences, Slaughter recounts a difficult time of self-examination and growth in the wake of a crisis that changed the way she lives, leads, and learns. She connects her experience to our national crisis of identity and values as the country looks into a four-hundred-year-old mirror and tries to confront and accept its full reflection. The promise of the Declaration of Independence has been hollow for so many for so long. That reckoning is the necessary first step toward renewal. The lessons here are not just for America. Slaughter shows how renewal is possible for anyone who is willing to see themselves with new eyes and embrace radical honesty, risk, resilience, interdependence, grace, and vision. Part personal journey, part manifesto, *Renewal* offers hope tempered by honesty and is essential reading for citizens,

Wholly black, it reached up and up until it loomed over her, blocking out the sun. Somehow, she knew, it was Death coming for her. Pre-med student Coral is on vacation in Idaho when something terrible happens. The black cloud is followed by a wildfire and searing heat that lasts for days. She survives deep in a cave but emerges days later to find the world transformed, with blackened trees, an ash-filled sky, and no living creatures stirring--except for her. So begins her desperate journey: to find water, and food, and other survivors...and the answer to the mystery of what happened. Gray I is the first novel in a series.
