This book focuses on the inter-relationship between reading, writing and speaking and listening. Psychologists and educationalists, influenced by the work of Vygotsky, have emphasised the importance of social interaction in learning, and the National Writing, Oracy and LINC Projects highlighted the need for quality interactive pupil discourse and effective teacher-pupil interaction. However, although the DfEE claims that the successful teaching of literacy is characterised by good quality oral work, speaking and listening is not included in the National Literacy Strategy Framework and the Literacy Training Pack does not address the issue. *Literacy and Learning through Talk* blends theory, research and practice to show how an integrated programme of work can be developed to ensure that literacy is taught in a vibrant and stimulating way. Strategies for developing successful group work and whole class, interactive discourse are examined and effective teaching roles and questioning techniques are explored. Transcripts of group discussions and examples of children's work illustrate various points and work plans and practical classroom activities are described.

Our American Government textbook adheres to the scope and sequence of introductory American government courses nationwide. We have endeavored to make the workings of American Government interesting and accessible to students while maintaining the conceptual coverage and rigor inherent in the subject at the college level. With this objective in mind, the content of this textbook has been developed and arranged to provide a logical progression from the fundamental principles of institutional design at the founding, to avenues of political participation, to thorough coverage of the political structures that constitute American government. The book builds upon what students have already learned and emphasizes connections between topics as well as between theory and applications. The goal of each section is to enable students not just to recognize concepts, but to work with them in ways that will be useful in later courses, future careers, and as engaged citizens. The organization and pedagogical features were developed and vetted with feedback from American government instructors dedicated to the project.

The magnificent Pulitzer Prize-winning novel of a stranger in his native land "Both a masterpiece about the universal human condition and a masterpiece of Native American literature. . . . A book everyone should read for the joy and emotion of the language it contains." – The Paris Review A young Native American, Abel has come home from war to find himself caught between two worlds. The first is the world of his father's, wedding him to the rhythm of the seasons, the harsh beauty of the land, and the ancient rites and traditions of his people. But the other world—modern, industrial America—pulls at Abel, demanding his loyalty, trying to claim his soul, and goading him into a destructive, compulsive cycle of depravity and disgust.

Guided reading is a staple of elementary literacy instruction, yet planning and conducting reading groups can be time consuming and challenging. This hands-on book presents an innovative approach to guided reading that is manageable even for teachers who are new to small-group, differentiated reading instruction. Numerous classroom examples illustrate how to organize groups and select suitably challenging materials, structure group sessions, provide scaffolding and cues while listening to students read, and balance small-group with whole-class instruction. Special features include scheduling aids and lists of common cues for beginning and older readers, as well as suggestions for further reading at the end of each chapter.

This book offers essential guidance to preservice and inservice teachers seeking to create, revise, or add new strategies to the teaching of the language arts block. The focus is on how to implement effective strategies in the context of a well-planned classroom and a smoothly choreographed daily schedule. In a series of vivid case studies, Lesley Mandel Morrow brings to life the methods used by exemplary teachers to create rich, student-friendly learning environments for children in grades K-4. No component of organizing the language arts block is omitted, including setting up and running classroom learning centers, assessing different instructional needs, conducting whole-class and small group meetings, and linking language arts to content area instruction. Enhancing the practical utility of the book are sample daily schedules and classroom management tips for each grade level, along with dozens of reproducible learning activities, lesson plans, and assessment and record-keeping tools.
