The Financial Accounting and Reporting Volume of the Wiley CPA Examination Study Guides arms readers with detailed outlines and study guidelines, plus skill-building problems and solutions, that help the CPA candidates identify, focus on, and master the specific topics that need the most work. Many of the practice questions are taken from previous exams, and care was taken to ensure that they cover all the information candidates need to master in order to pass the new computerized Uniform CPA Examination Uses market research and analysis to provide values for vintage or collectible instruments, including information on more than eighteen hundred brands accompanied by eleven hundred photographs.

This volume is the most comprehensive reference work to date on Lexical Functional Grammar. The authors provide detailed and extensive coverage of the analysis of syntax, semantics, morphology, prosody, and information structure, and how these aspects of linguistic structure interact in the nontransformational framework of LFG. The book is divided into three parts. The first part examines the syntactic theory and formal architecture of LFG, with detailed explanations and comprehensive illustration, providing an unparalleled introduction to the fundamentals of the theory. Part two explores non-syntactic levels of linguistic structure, including the syntax-semantics interface and semantic representation, argument structure, information structure, prosodic structure, and morphological structure, and how these are related in the projection architecture of LFG.

Chapters in the third part illustrate the theory more explicitly by presenting explorations of the syntax and semantics of a range of representative linguistic phenomena: modification, anaphora, control, coordination, and long-distance dependencies. The final chapter discusses LFG-based work not covered elsewhere in the book, as well as new developments in the theory. The volume will be an invaluable reference for graduate and advanced undergraduate students and researchers in a wide range of linguistic sub-fields, including syntax, morphology, semantics, information structure, and prosody, as well as those working in language documentation and description.

A collection of fantasy, science fiction, and horror films in various languages listed in title order referencing the crew for each production. For the purpose of this work, fantastic films are defined as those motion pictures depicting or strongly implying significant exceptions to man's conception of natural reality.

This book uses an interdisciplinary approach to explain the origin of and possible solutions to many different occlusal problems. Dr. Peter E. Dawson guides the reader along the way providing balanced explanations of theory and technique. He also debunks many popular misconceptions through practical discussion of their origins and the deficiencies of the arguments behind them. Different sides of many philosophies are presented while guiding the reader to the most functional and esthetic solution to various occlusal situations. Hundreds of full-color photographs, illustrations, and diagrams show aspects of the masticatory system, the epidemiology of occlusal problems, and procedures for finding the ideal occlusion. Whether the reader is a general dentist or a specialist, they will find this book applicable to their treatment methods and philosophies. OUTSTANDING FEATURES Special atlas sections break down complex information accompanied by descriptive diagrams and photographs to further explain sources of occlusal disorders and related pain. Hundreds of full-color photographs and illustrations show problems and procedures. Procedure boxes offer step-by-step explanations of specific procedures. Important Considerations boxes in the Treatment chapters outline treatment plans and describe what is to be accomplished. Programmed treatment planning, a specific process that guides a clinician through every step for solving even the most complex restorative or esthetic challenge. The role of TMJs and occlusion in "everyday" dentistry. The role of occlusion in orofacial pain and TMD, and in anterior esthetics. Simplified occlusal equilibration and how to explain this process to patients. The functional matrix concept for exceptional, foolproof smile design. The five options for occlusal correction and how to apply them to practice. Use and abuse of occlusal splints. Coordinating occlusal treatment with specialists for a fully interdisciplinary approach. Specific criteria for success and how to test for each.

This book analyzes the structure of our constitutional system of government, providing an overview of the constitutional history of American federalism as it has been developed in decisions of the United States Supreme Court. • Provides historical information in a clear, chronological order • Enables law students and lawyers to improve their understanding of the legal doctrines that underlie today's conflicts. • Documents the relationships among different doctrines across particular time periods

No descriptive material is available for this title.

Americans spend \$440 billion eating out at restaurants each year, and as the American culture is increasingly on the go, we let diets fall by the wayside as we fuel up on fast food and convenience foods. Now, with The South Beach Diet Dining Guide, Dr. Arthur Agatston will give dieters a trusted resource to keep them on track wherever they go. The first part of the book features listings of over 75 of the most popular chain and family restaurants in America, including mall and airport listings. For each entry, the book provides an editorial overview and specific menu recommendations and nutritional information. The South Beach Diet Dining Guide focuses on what you can eat, not what you should avoid! The second part of the book covers suggestions on what to eat from different ethnic food categories, such as French, Italian, Mexican, Spanish, Indian, and Japanese. A bonus section for travelers includes an editorial overview and menu suggestions from South Beach-friendly restaurants in 15 of the most well-traveled cities: New York; Los Angeles; San Francisco; Boston; Chicago; Atlanta; Dallas; Cleveland; New Orleans; Kansas City; Minneapolis; Miami; Washington, DC; St. Louis; and Las Vegas.

Although many Civil War reference books exist, Civil War researchers have until now had no single compendium to consult on important details about the combatant states (and territories). This crucial reference work, the sixth in the States at War series, provides vital information on the organization, activities, economies, demographics, and laws of Civil War South Carolina. This volume also includes the Confederate States Chronology. Miller enlists multiple sources, including the statutes, Journals of Congress, departmental reports, general orders from Richmond and state legislatures, and others, to illustrate the rise and fall of the Confederacy. In chronological order, he presents the national laws intended to harness its manpower and resources for war, the harsh realities of foreign diplomacy, the blockade, and the costs of states' rights governance, along with mounting dissent; the effects of massive debt financing, inflation, and loss of credit; and a growing raggedness within the ranks of its army. The chronology provides a factual framework for one of history's greatest ironies: in the end, the war to preserve slavery could not be won while 35 percent of the population was enslaved.

Reference Guide to Short Fiction provides study and commentary on the most instrumental writers of short fiction through the 20th century. International in scope, this single scholarly volume includes 779 entries on 377 authors and 402 short stories.

The Rough Guide to Sri Lanka is the most comprehensive and user-friendly guide to exploring this fascinating island country. Each chapter includes thoroughly researched travel information, hotel and restaurant listings, and thoughtful background on the environment, politics, culture, music and history, and a practical language guide ensures you can interact with locals. Make the most of your time with The Rough Guide to Sri Lanka.

From diving in the Virgin Islands to Trinidad's Carnival celebrations, The Rough Guide to the Caribbean explores all the best to see and do in this exotic region. Discover lively capital cities, colonial towns and remote, unspoiled beaches with the essential travellers' companion. Featuring detailed historical and practical information on the entire region, the guide also has a full-colour introduction with stunning photography, plus over 100 detailed maps covering over 50 islands! There are hundreds of accommodation and restaurant reviews, as well as practical information for countless adventures sports, from scuba-diving off the Cayman Islands to hiking in Trinidad. Make the most of your time with The Rough Guide to the Caribbean.

Provides over 10,000 current prices for soundtrack and original cast recordings. This guide is very comprehensive for US issues, but also includes selected Canadian and overseas releases.

The Rough Guide to India is the essential travel guide to this fascinating country. It covers all the major areas, from Delhi's Paharganj to Havelock Island in the Andamans, with reviews of the best resorts, hotels, restaurants and nightlife for every taste and budget. The guide includes practical advice on exploring all the attractions, like the stunning temples, mosques and museums, and details all you need to know about the country's history, religions, wildlife and predominant language, Hindi. The Rough Guide to India has dozens of easy-to-use maps, covering all the states, major cities and other areas of interest to travellers. Plus, superb photography across sections show India's highlights and a basics section covers essentials such as social and etiquette tips. Make the most of your trip with The Rough Guide to India. Now available in epub format.

A current reference work that reflects the changing times and attitudes of, and towards the indigenous peoples of all the regions of the Americas. --from publisher description.

The East Asian peace is a mystery of the modern age. To many theorists and analysts alike, the post-Cold War calm has been seen as a temporary anomaly, potential military

conflicts dominating predictions for the future. Despite this, two decades have passed in which a relative peace has been sustained and it is time to question existing forecasts. Comparing the Taiwan Strait, the South China Sea and the Korean Nuclear conflict, the author explores the informal processes that can help explain the persistence of peace, leading to hope for a future era of stability.
