Key Benefits Written by master teachers and edited by the team who oversaw the creation of the National Standards and Grade-Level Outcomes, Lesson Planning for Elementary Physical Education is endorsed by SHAPE America. The text has the following features: • 65 lessons that foster the achievement of physical literacy for children in grades K-5 • Numerous learning experiences that engage students in the psychomotor, cognitive, and affective domains • Curriculum design based on student growth • Sequential lessons leading to mature patterns of motor performance • An introductory chapter on the key points for the grade span, putting the lessons in context and providing a road map for planning curriculum, units, and lessons • Instruction on creating high-quality lessons that reach the desired objectives Flexible Lessons Teachers can use the lessons as presented or modify them to meet local needs. The lessons provide a structure for teachers to follow in developing their own learning experiences and curricula. Web Resource Lesson Planning for Elementary Physical Education is supported by a web resource that contains digital versions of all the lesson plans in the book. Teachers can access the lesson plans through a mobile device, and they can download the plans to use later or to print.
