The phenomenon returns! Originally published in 1987, *The Book of Questions*, a New York Times bestseller, has been completely revised and updated to incorporate the myriad cultural shifts and hot-button issues of the past twenty-five years, making it current and even more appealing. This is a book for personal growth, a tool for deepening relationships, a lively conversation starter for the family dinner table, a fun way to pass the time in the car. It poses over 300 questions that invite people to explore the most fascinating of subjects: themselves and how they really feel about the world. The revised edition includes more than 100 all-new questions that delve into such topics as the disappearing border between man and machine—How would you react if you learned that a sad and beautiful poem that touched you deeply had been written by a computer? The challenges of being a parent—Would you completely rewrite your child's college-application essays if it would help him get into a better school? The never-endingly interesting topic of sex—Would you be willing to give up sex for a year if you knew it would give you a much deeper sense of peace than you now have? And of course the meaning of it all—If you were handed an envelope with the date of your death inside, and you knew you could do nothing to alter your fate, would you look? *The Book of Questions* may be the only publication that challenges—and even changes—the way you view the world, without offering a single opinion of its own.

. . . go with what “seems logical” or what “feels fair”? . . . keep to a schedule or keep your options open? How you answer these questions is the very beginning of understanding who you are and how you relate to those around you, by using a new and exciting method called Typewatching. Otto Kroeger and Janet M. Thuesen have developed Typewatching from the Myers-Briggs Type Indicator, which was derived from the work of C. G. Jung. Now they have put together the first and only popular guide to the MBTI in Type Talk. Here is a one-of-a-kind guide that describes this scientifically validated approach to “name-calling,” a method that has been used for more than forty years by individuals, families, corporations, and governments who want to communicate better. Typewatching as explained in Type Talk is easy to learn and natural to use. With even moderate practice it can help teachers teach and students learn, workers work and bosses boss. It can help lovers love, parents parent, and everyone accept themselves and others more easily. Best of all, Typewatching is fun. Type Talk examines the four pairs of preferences that are fundamental to every personality type: Extraversion/Introversion, Sensing/Intuition, Thinking/Feeling, and Judging/Perceiving. Kroeger and Thuesen provide a self-evaluation that can be used to determine which of each of these preferences best describes you. They delineate every combination of preferences—there are 16 different personality types, so you are sure to find yourself—and they go on to demonstrate how to analyze and evaluate other people as well. Once armed with this knowledge, you will learn how to thrive in a world of so

How do you get the right resources? How should work be implemented? What data should you measure? For the first time, these questions are answered in a single book that covers the end-to-end execution of digital transformation – from leadership-level strategy, to on-the-ground team implementation. With the biggest revelation of all, Herbert argues, being that true digital transformation only needs to happen once because, at its core, it means becoming more adaptive to change itself. Featuring the 'how to' of digital transformation devised from successes across every sector, Herbert distills it into five actionable stages. These stages act as a repeatable framework for continual innovation, allowing you to produce results immediately and grow change incrementally across your organization. In *Digital Transformation*, Herbert draws on her own experiences in leading change and innovation programmes globally, as well as featuring insights from experts and leaders from organizations as diverse as the World Wildlife Fund, Morgan Stanley, Royal Caribbean Cruises, the United Nations High Commission for Refugees, the Rijksmuseum, the American Cancer Society, The Guardian, Harvard University, and many others.
