Land consolidation is a highly effective land management instrument that allows for the improvement of the structure of agricultural holdings and farms in a country, which increases their economic and social efficiency and brings benefits both to right holders as well as to society in general. Since land consolidation gives mobility to land ownership and other land rights, it may also facilitate the allocation of new areas with specific purposes other than agriculture, such as for public infrastructure or nature protection and restoration. Land consolidation instruments necessitate a thoroughly elaborated legal regulation that is integrated into the national legal framework. This legal guide provides detailed guidance on legislative issues regarding land

consolidation in ways that align with Voluntary Guidelines on Responsible Governance of Tenure of Land, Fisheries and Forests in the Context of National Food Security and international human rights law. It focuses on land consolidation in rural areas and is based on regional good land consolidation legislative practices in Europe, primarily on analysis of the regulatory practices in Denmark, Finland, Germany, Lithuania, the Netherlands, Serbia, Spain (Galicia) and Turkey. It also uses land consolidation regulatory practices in other European countries as a source of information. This legal guide is published in collaboration with the FAO Regional Office for Europe and Central Asia.

Employment Law Concentrate is written and designed to help you succeed. Accurate and reliable, Concentrate guides go above and beyond, not only consolidating your learning but focusing your revision and maximising your potential.

This book explores the extent to which women have been initiators, mobilizers, and driving forces of social transformation in China. The book considers how conceptions of women's roles have changed as China has moved from state socialism to engagement with capitalist globalization, examines the growth of women's gender and sexual consciousness and social movements for women's rights, including for marginalized social and sex/gender groups, and discusses women's roles in society-state interactions, including many forms of social activism, cultural events, educational innovations, and more. Overall, the book demonstrates that women have not simply been passive receivers of the consequences of the forces of global capitalism, but that they have had a profound, active impact on social transformation in China.

Family Law Concentrate is written and designed to help you succeed. Accurate and reliable, Concentrate guides help consolidate your learning, focus your revision, and maximise your exam performance. Each guide includes revision tips, advice on how to achieve extra marks, and a thorough and focused breakdown of the key topics and cases.

Intellectual Property Concentrate Law Revision and Study Guide

Concentrate Q&A Criminal Law is part of the Concentrate Q&A series, the result of a collaboration involving hundreds of law students and lecturers from universities across the UK. Each book in this series offers you better support and a greater chance to succeed on your law course than any of the competitors.

This eBook is designed to provide the reader with accurate analyses of the AML/CTF Financial and Legal Intelligence, law and practice in the nations of the world with the most current references and resources. The eBook is organized around five main themes: 1. Money Laundering Risk and Compliance; 2. The Law of Anti-Money Laundering and Compliance; 3. Criminal and Civil Forfeiture; 4. Compliance and 5. International Cooperation. Each chapter is made up of five parts. Part I, "Introduction," begins with the analysis of money laundering risks and compliance with the recommendations of the Financial Action Task Force (FATF), and then concludes with the country's rating based on the International Narcotics Control Strategy Report (INCSR) of the U.S. State Department. Part II, "Anti-Money Laundering and Combating Terrorist Financing (AML/CTF)" and Part III, "Criminal and Civil Forfeiture," evaluate the judicial and legislative structures of the country. Given the increasing global dimension of AML/CTF activities, these sections give special attention to how a country has created statutes, decisions, policies and the judicial enforcement procedures needed to

combat money laundering and terrorist financing. Part IV, "Compliance," examines the most critical processes for the prevention and detection of money laundering and terrorist financing. This section reflects on the practical elements that should be in place so that financial institutions can comply with AML/CTF requirements; these are categorized into the development and implementation of internal controls, policies and procedures. Part V, "International Cooperation," reviews the compilation of international laws and treaties between countries working together to combat money laundering and terrorist financing. As these unlawful activities can occur in any given country, it is important to identify the international participants who are cooperating to develop methods to obstruct these criminal activities.

This comprehensive Research Handbook explores the rights of employers and employees with regard to intellectual property (IP) created within the framework of the employment relationship. Investigating the development of employee IP from a comparative perspective, it contextualises issues in the light of theoretical approaches in both IP law and labour law.

The recognition of customary tenure systems and responsible land-based investments that safeguard legitimate tenure rights and right holders are the interconnected main themes for mainstreaming the Voluntary Guidelines on the Responsible Governance of Tenure of Land, Fisheries and Forests in the Context of National Food Security (VGGT) in Cambodia, Lao People's Democratic Republic, Myanmar and Viet Nam. This study aims at providing an assessment of the legal frameworks in the four countries to analyse whether safeguards for legitimate tenure rights and tenure right holders can be identified in legal provisions applicable to decisions related to land-based investments in agriculture. The assessment also aims at informing and supporting ongoing processes of policy and legal reform in the four countries, as well as the work of organizations that provide support to these processes.

The Concentrate Q&A series is the result of a collaboration involving hundreds of law students and lecturers from universities across the UK. Each book in this series offers you better support and a greater chance to succeed on your law course than any of the competitors. 'A sure-fire way to get a 1st class result' (Naomi M, Coventry University) 'My grades have dramatically improved since I started using the OUP Q&A guides' (Glen Sylvester, Bournemouth University) 'These first class answers will transform you into a first class student' (Ali Mohamed, University of Hertfordshire) 'I can't think of better revision support for my study' (Quynh Anh Thi Le, University of Warwick) 'I would strongly recommend Q&A guides. They have vastly improved my structuring of exam answers and helped me identify key components of a high quality answer' (Hayden Roach, Bournemouth University) '100% would recommend. Makes you feel like you will pass with flying colours' (Elysia Marie Vaughan, University of Hertfordshire) 'My fellow students rave about this book' (Octavia Knapper, Lancaster University) 'The best Q&A books that I've read; the content is exceptional' (Wendy Chinenye Akaigwe, London Metropolitan University) 'I would not hesitate to recommend this book to a friend' (Blessing Denhere, Coventry University)

This note provides guidance on use of third-party indicators (TPIs) in Fund reports, in line with the policy endorsed by the Board in November 2017.

Accurate and accessible, this guide to family law includes revision tips and advice for extra marks, alongside a thorough and focused breakdown of the key topics and cases.

A considered balance of depth, detail, context, and critique, Land Law Directions books

offer the most student-friendly guide to the subject; empowering students to evaluate the law, understand its practical application, and approach assessments with confidence.

Intellectual property law and practice in China has changed dramatically since the first edition of this influential book published in 2005. Today, judicial and administrative application of law plays a major role, and accordingly this entirely rewritten new edition draws on an abundance of court and administrative decisions clarifying how the law is applied. In a thorough and systematic manner, the authors clearly demonstrate the sophisticated level of legal certainty available for domestic and foreign entities doing business in China, including the adaptation of the legal framework to new technologies, broadened scope of protected subject matter, improved quality of filings, and significant enhancement of enforcement not only with regard to remedies but also to procedural aspects. Providing comprehensive coverage of all aspects of intellectual property protection in China – including analysis of IP-related provisions of China’s new Civil Code – the book emphasizes issues of concern to foreign traders and investors such as the following: copyright law and software protection; protection of trademarks, including Chinese character and Roman script trademarks, well-known marks and bad faith applications; technology transfer; enforcement of trade secret and patent protection; criminal liability for infringement; unfair competition and antitrust law; role of the binding interpretations of the Supreme People’s Court; administrative regulations that supplement the laws; co-operation with administrative authorities; protection of geographical indications; protection of trade names; domain name dispute resolution; special patent-related laws protecting such areas as plant varieties, integrated circuit layout designs,; and relevant provisions of the distinct laws of Hong Kong and Macao. Full descriptions of the competencies of China’s IP-related institutions are included with detailed attention to procedural matters. Brief historical notes in each chapter feature the most significant changes in each amendment of law and regulation. Because in China the laws are supplemented and interpreted by numerous guidelines and circulars issued by ministries or courts, the up-to-date knowledge and awareness provided in this new edition is essential for all companies investing in China or considering such investment, as well as for practitioners counselling their clients on strategies. In addition, officials and policymakers involved in trade or other relations with China will benefit from a comprehensive update of what the current law is and a critical view of what the challenges are.

This book is the first to provide a detailed and critical account of the emergence, development, and implementation of plant variety protection laws in Asian countries. Each chapter undertakes a critical socio-legal analysis of one or more legal frameworks to understand, evaluate, and explore the concerns of diverse national stakeholders, the histories and dynamics of law-making, and the ways in which plant variety protection and seed certification laws interact with local agricultural systems. The book also assesses how Asian countries can capitalise on the ‘unused policy space’ in international agreements such as the Agreement on Trade-Related Aspects of Intellectual Property Rights and the International Convention for the Protection of New Varieties of Plants, as well as international obligations beyond these, such as those contained in the Convention on Biological Diversity and the Plant Treaty. It also highlights the many ways in which Asian experiences can offer new insights into the

relationship between intellectual property and plants, and how relevant laws might be re-imagined in other regions, including Africa, Europe, and the Americas. By adding an important new perspective to the ongoing debate on intellectual property and plants, this book will appeal to academics, practitioners, and policy-makers engaged in work surrounding intellectual property laws, agricultural biodiversity, and plant breeding. Intellectual Property Concentrate is written and designed to help you succeed. Accurate and reliable, Concentrate guides help focus your revision and maximise your exam performance. Each guide includes revision tips, advice on how to achieve extra marks, and a thorough and focused breakdown of the key topics and cases.

Property enhances autonomy for most people, but not for all. Because it both empowers and disables, property requires constant vigilance. A Liberal Theory of Property addresses key questions: how can property be justified? What core values should property law advance, and how do those values interrelate? How is a liberal state obligated to act when shaping property law? In a liberal polity, the primary commitment to individual autonomy dominates the justification of property, founding it on three pillars: carefully delineated private authority, structural (but not value) pluralism, and relational justice. A genuinely liberal property law meets the legitimacy challenge confronting property by expanding people's opportunities for individual and collective self-determination while carefully restricting their options of interpersonal domination. The book shows how the three pillars of liberal property account for core features of existing property systems, provide a normative vocabulary for evaluating central doctrines, and offer directions for urgent reforms.

The Land Law Concentrate is written and designed to help you succeed. Written by experts and covering all key topics, Concentrate guides help focus your revision and maximise your exam performance. Each guide includes revision tips, advice on how to achieve extra marks, and a thorough and focused breakdown of the key topics and cases. Revision guides you can rely on: trusted by lecturers, loved by students... "I have always used OUP revision and Q&A books and genuinely believe they have helped me get better grades"- Anthony Poole, law student, Swansea University "The detail in this revision textbook is phenomenal and is just what is needed to push your exam preparation to the next level." - Stephanie Lomas, law student, University of Central Lancashire "It is a little more in-depth than other revision guides, and also has clear diagrams and teaches ways to obtain extra marks. These features make it unique" - Godwin Tan, law student, University College London "The concentrate revision guides stand out against other revision guides" - Renae Haynes Williams, law student, Bangor University "The exam style questions are brilliant and the series is very detailed, prepares you well" - Frances Easton, law student, University of Birmingham "The accompanying website for Concentrate is the most impressive I've come across" - Alice Munnely, law student, Kings College London "- it is a fantastic book. It covers absolutely all topics you need for the course." - Emma McGeorge, law student, Strathclyde University

The Concentrate Q&As are a result of a collaboration involving hundreds of law students and lecturers from universities across the UK. The series offers you better support and a greater chance to succeed on your law course than any of the competitors. 'A sure-fire way to get a 1st class result' (Naomi M, Coventry University) 'My grades have dramatically improved since I started using the OUP

Q&A guides' (Glen Sylvester, Bournemouth University) 'These first class answers will transform you into a first class student' (Ali Mohamed, University of Hertfordshire) 'I can't think of better revision support for my study' (Quynh Anh Thi Le, University of Warwick) 'I would strongly recommend Q&A guides. They have vastly improved my structuring of exam answers and helped me identify key components of a high quality answer' (Hayden Roach, Bournemouth University) '100% would recommend. The production, marketing and exportation of food is particularly important to the Irish economy. The sector continues to grow and has played a very significant role in Ireland's financial recovery. This important new book provides a much needed overview of the field. It traces the history and development of the fledgling system of food law as it was in Ireland during colonial times and the Irish Free State, through to an examination of the current dynamic relationship between International, European Union and domestic laws on matters such as food safety, food labelling and advertising, protected food names, hygiene and food contamination. The book also contains detailed assessments of the ways in which the law is used to address current health concerns, such as those related to nutrition, obesity and alcohol abuse, as well as such issues as food fraud, animal welfare, organics and the use of technologies like genetic modification, cloning and nanotechnology in food production.

Accurate and accessible, Concentrate guides enable you to take exams with confidence. Including revision tips and advice for extra marks, alongside a thorough and focussed breakdown of the key topics and cases, this guide will help you to get the most out of your revision and to maximise your performance in exams.

The short guide to town and country planning provides a short, introductory overview of the practice of planning for those with little or no prior knowledge. The book considers who planners are and what they do, presenting a historical narrative of the emergence of planning as an organised action of the state. The book discusses planning implementation and delivery with a consideration of planning decision making, and the process of development. It further explores ideas of governance and of government and society and their interactions through the planning system. This book looks at current and future pressures, dynamics, and challenges, encouraging the reader to adopt a reflective and inquisitive outlook.

Problem-Based Learning is a way of learning that presents a practical problem scenario in the context of which learning is conducted. Normally students are taught law through the transmission of information about legal principles and not

presented with problems until they have accumulated enough information to solve them. In PBL, discussion and analysis of the problem starts the process of learning, rather than acting as an end point. As a curriculum concept, it is becoming increasingly common in law schools as the use of problem scenarios helps to trigger awareness of legal issues and to engage interest by highlighting the real-world ramifications. This new textbook creates a fresh approach to learning land law through the use of scenarios found in real-life which bring what is often perceived to be a dry and difficult subject to life. This helps both to engage the student and make the subject more accessible as well as demonstrating to students how land law actually operates in the real world. Land Law is often seen as an esoteric subject with lots of technicalities and complex vocabulary and students often forget the context in which it operates. With Land Law: A Problem-Based Approach, context is placed at the heart of learning. Students are learning through application rather than via an abstract set of rules and can therefore gain a deeper understanding of how land law works, not just what it is. Unlike other textbooks, Land Law: A Problem-Based Approach integrates a thorough exposition of the law with practice, facilitating a more active learning approach and helping students to engage directly with the key cases and statutes to develop key skills of analysis, problem-solving and application. Written in a clear and concise style but without sacrificing detail or analysis, the book guides the reader towards a deeper understanding of the land law curriculum. Key features include:

- An introductory chapter outlining the problem-based learning approach and how to use the book.
- Content overviews at the start of each chapter which provide a useful outline of the chapter's content and the key principles
- PBL scenarios at the start of each chapter which provide the real-life context to each topic and help to familiarise readers with the legal language and style they will encounter. Together with the relevant supporting documents, these scenarios are referenced and integrated throughout the chapter
- 'let's put this into context' boxes which require students to apply the law that they have learnt back to the problem scenario and offer opportunities to reflect and consolidate on the content covered
- Essential Cases and Essential Statutes boxes reinforce the essential role of cases and legislation in the development and application of land law and help students identify key cases and legislation for revision purposes
- Understanding Terminology boxes and an online glossary help students to get to grips with the technical terms and vocabulary unique to land law
- Tables and diagrams explain difficult concepts and rules, ideal for visual learners
- Tips and notes highlight key issues and make links between different aspects of the law without interrupting the flow of the text.
- Specimen exam-style questions are ideal for revision and help to provide opportunities to apply learning and practice exam technique

The book describes how intellectual property law is framed by theories about incentives, trade, health, development, and human rights.

Contract Law Concentrate is written and designed to help you succeed. Accurate

Packed with essential information, key cases, revision tips, exam Q&As, and more, Intellectual Property Law Concentrate is also supported by extensive online resources to take your learning further ([www.oup.com/lawrevision/](http://www.oup.com/lawrevision/)): - Pinpoint which areas you need to concentrate on with the diagnostic test - Test your knowledge with the multiple-choice questions and receive feedback on your answers - Improve your essay skills using the outline answers for guidance on what to include and how to structure your answer - Revise the facts and principles of key cases using the interactive flashcards - Check that you have covered the main points of a topic using the key facts checklists - Achieve better marks following the advice on revision and exam technique by experienced examiner Nigel Foster

The history of patent harmonization is a story of dynamic actors, whose interactions with established structures shaped the patent regime. From the

inception of the trade regime to include intellectual property (IP) rights to the present, this book documents the role of different sets of actors – states, transnational business corporations, or civil society groups – and their influence on the structures – such as national and international agreements, organizations, and private entities – that have caused changes to healthcare and access to medication. Presenting the debates over patents, trade, and the Agreement on Trade-Related Aspects of Intellectual Property Rights (TRIPS Agreement), as it galvanized non-state and nonbusiness actors, the book highlights how an alternative framing and understanding of pharmaceutical patent rights emerged: as a public issue, instead of a trade or IP issue. The book thus offers an important analysis of the legal and political dynamics through which the contest for access to lifesaving medication has been, and will continue to be, fought. In addition to academics working in the areas of international law, development, and public health, this book will also be of interest to policy makers, state actors, and others with relevant concerns working in nongovernmental and international organizations.

Contract Law Concentrate is written and designed to help you succeed. Accurate and reliable, Concentrate guides go above and beyond, not only consolidating your learning but focusing your revision and maximising your potential.
