But as this budding missionary comes of age, and comes to terms with her unorthodox sexuality, the peculiar balance of her God-fearing household dissolves. Jeanette's insistence on listening to truths of her own heart and mind—and on reporting them with wit and passion—makes for an unforgettable chronicle of an eccentric, moving passage into adulthood. “If Flannery O'Connor and Rita Mae Brown had collaborated on the coming-out story of a young British girl in the 1960s, maybe they would have approached the quirky and subtle hilarity of Jeanette Winterson's autobiographical first novel. . . . The hilarious, heartwarming Sunday Times bestseller is back!

In this 'vital book for these times' (Kirkus Reviews), Don Lemon brings his vast audience and experience as a reporter and a Black man to today's most urgent question: How can we end racism in America in our lifetimes? The host of CNN Tonight with Don Lemon is more popular than ever. As America's only Black prime-time anchor, Lemon and his daily monologues on racism and antiracism, on the failures of the Trump administration and of so many of our leaders, and on America's systemic flaws speak for his millions of fans. Now, in an urgent, deeply personal, riveting plea, he shows us all how deep our problems lie, and what we can do to begin to fix them. Beginning with a letter to one of his Black nephews, he proceeds with reporting and reflections on his slave ancestors, his upbringing in the shadows of segregation, and his adult confrontations with politicians, activists, and scholars. In doing so, Lemon offers a searing and poetic ultimatum to America. He visits the slave port where a direct ancestor was shackled and shipped to America. He recalls a slave uprising in Louisiana, just a few miles from his birthplace. And he takes us to the heart of the 2020 protests in New York City. As he writes to his young nephew: We must resist racism every single day. We must resist it with love.

Called “powerful and provocative” by Dr. Ibram X. Kendi, author of the New York Times bestselling *How to be an Antiracist*, this explosive book of history and cultural criticism reveals how white feminism has been used as a weapon of white supremacy and patriarchy deployed against Black and Indigenous women, and women of color. Taking us from the slave era, when white women fought in court to keep “ownership” of their slaves, through the centuries of colonialism, when they offered a soft face for brutal tactics, to the modern workplace, *White Tears/Brown Scars* tells a charged story of white women’s active participation in campaigns of oppression. It offers a long overdue validation of the experiences of women of color.

Discussing subjects as varied as *The Hunger Games*, Alexandria Ocasio–Cortez, the viral BBQ Becky video, and 19th century lynchings of Mexicans in the American Southwest, Ruby Hamad undertakes a new investigation of gender and race. She shows how the division between innocent white women and racialized, sexualized women of color was created, and why this division is crucial to confront. Along the way, there are revelatory responses to questions like: Why are white men not troubled by sexual assault on women? (See Christine Blasey Ford.) With rigor and precision, Hamad builds a powerful argument about the legacy of white superiority that we are socialized within, a reality that we must apprehend in order to fight. “A stunning and thorough look at White womanhood that should be required reading for anyone who claims to be an intersectional feminist. Hamad’s controlled urgency makes the book an illuminating and poignant read. Hamad is a purveyor of such bold thinking, the only question is, are we ready to listen?” —Rosa Boshier, *The Washington Post*

discrimination and international sportsmanship; of fortunes won and lost; of triumphs and defeats on and off the field. It is a perfect mirror for the social and political history of black America in the first half of the twentieth century. But most of all, the story of the Negro Leagues is about hundreds of unsung heroes who overcame segregation, hatred, terrible conditions, and low pay to do the one thing they loved more than anything else in the world: play ball. Using an “Everyman” player as his narrator, Kadir Nelson tells the story of Negro League baseball from its beginnings in the 1920s through its decline after Jackie Robinson crossed over to the majors in 1947. The voice is so authentic, you will feel as if you are sitting on dusty bleachers listening intently to the memories of a man who has known the great ballplayers of that time and shared their experiences. But what makes this book so outstanding are the dozens of full-page and double-page oil paintings—breathtaking in their perspectives, rich in emotion, and created with understanding and affection for these lost heroes of our national game. *We Are the Ship* is a tour de force for baseball lovers of all ages.

Winner of the Pulitzer Prize for Drama and winner of the New York Drama Critics Circle Award for Best Play, this modern American classic is about family, and the legacy of slavery in America. August Wilson has already given the American theater such spell-binding plays about the black experience in 20th-century America as *Ma Rainey's Black Bottom*, *Joe Turner's Come and Gone*, and the Pulitzer Prize-winning *Fences*. In his second Pulitzer Prize-winner, *The Piano Lesson*, Wilson has fashioned perhaps his most haunting and dramatic work. At the heart of the play stands the ornately carved upright piano which, as the Charles family's prized, hard-won possession, has been gathering dust in the parlor of Berniece Charles's Pittsburgh home. When Boy Willie, Berniece's exuberant brother, bursts into her life with his dream of buying the same Mississippi land that his family had worked as slaves, he plans to sell their antique piano for the hard cash he needs to stake his future. But Berniece refuses to sell, clinging to the piano as a reminder of the history that is their family legacy. This dilemma is the real "piano lesson," reminding us that blacks are often deprived both of the symbols of their past and of opportunity in the

Master Bayesian Inference through Practical Examples and Computation—Without Advanced Mathematical Analysis Bayesian methods of inference are deeply natural and extremely powerful. However, most discussions of Bayesian inference rely on intensely complex mathematical analyses and artificial examples, making it inaccessible to anyone without a strong mathematical background. Now, though, Cameron Davidson-Pilon introduces Bayesian inference from a computational perspective, bridging theory to practice—freeing you to get results using computing power. Bayesian Methods for Hackers illuminates Bayesian inference through probabilistic programming with the powerful PyMC language and the closely related Python tools NumPy, SciPy, and Matplotlib. Using this approach, you can reach effective solutions in small

increments, without extensive mathematical intervention. Davidson-Pilon begins by introducing the concepts underlying Bayesian inference, comparing it with other techniques and guiding you through building and training your first Bayesian model. Next, he introduces PyMC through a series of detailed examples and intuitive explanations that have been refined after extensive user feedback. You'll learn how to use the Markov Chain Monte Carlo algorithm, choose appropriate sample sizes and priors, work with loss functions, and apply Bayesian inference in domains ranging from finance to marketing. Once you've mastered these techniques, you'll constantly turn to this guide for the working PyMC code you need to jumpstart future projects. Coverage includes

- Learning the Bayesian “state of mind” and its practical implications
- Understanding how computers perform Bayesian inference
- Using the PyMC Python library to program Bayesian analyses
- Building and debugging models with PyMC
- Testing your model’s “goodness of fit”
- Opening the “black box” of the Markov Chain Monte Carlo algorithm to see how and why it works
