Donald Trump outlines how a crippled America could be restored to greatness. The book explores Trump's view on key issues including the economy, big CEO salaries and taxes, healthcare, education, national security, and social issues. Of particular interest is his vision for complete immigration reform, beginning with securing the borders and putting American workers first

The pathos of the 2008 Great Recession had a fairly wide sweep, from minimum-wage busboys to newspaper heiresses like Veronica Hearst to Federal Reserve chair, Ben Bernanke, whose childhood home was lost as a result of a relative not making timely mortgage payments wherein all mentioned experienced some type of economic pain, or at least embarrassment, related to the Great Recession. These episodes are captured in this book as a way to bring a slight degree of levity to this economic catastrophe but to also underscore a serious juncture in American social and political theory as well. Author D. Sidney Potter, once a prolific real estate investor in the early to late part of the real estate boom that led to the bust, puts a spotlight on the real estate finance mortgage industry as once a lucrative insider to now as a disenfranchised member and erstwhile benefactor. The irony of having to make his living as a mortgage operations professional, who now examines the very mortgage financings that once bore his name, does not go past him. His unabashed and sometimes crude essays examine the usual suspects from banker CEOs, nascent political movements, and professional legislators to the analytics of mortgage products that resulted in the self-inflicted implosion. Mr. Potter's collection of essays acts as a self-entombed time capsule that should be taken as a testimony of fact, not fiction.

In *Team Trump and the Evangelical White House*, the author paints perhaps a different picture of Donald J. Trump than you will find in the mainstream media. With so many Trump-Thumping articles, opinion pieces, and news stories doing the rounds today, it is refreshing, therefore, to get a glimpse into a different side of the Trump White House. Surprisingly, the author shows a faith-friendly president, whose relationship with evangelicals goes back nearly two decades. As the author proposes throughout--Trump's Team has energized evangelical Christians--in a way, not seen for a long time. Some even hark back in their comparisons of the current White House to the Reagan-era. This was when the well-known Moral Majority backed a former-Hollywood actor launching Ronald Reagan into the fortieth presidency. The book begins by exploring why picking V P Pence made sense in bringing evangelicals on board with the Trump agenda. You'll also see how the White House welcome mat is once again out for evangelicals as the front door is always open to people of faith. *Prayer Force One* will give you a glimpse; perhaps of a side of Donald Trump, you may not have seen as he prays with faith leaders. These fifteen chapters will look at how the White House was won, and may yet be won again with

evangelical support in 2020.

Donald Trump is nothing short of remarkable. He has redefined politics for a generation and completely upended the image of a politician. Lies, a history of making unwanted sexual advances, complete lack of integrity and intelligence Đ

these are traits that would immediately disqualify anyone else from working in a factory. Yet for Donald Trump, these seemingly negative qualities did not only disqualify him, they became his greatest strengths—strengths that helped propel him into the highest office in the world. Donald Trump, the 45th President of the United States, will be forever recorded in our history books. *He Made America Great Again: The Complete Case for Donald Trump's Presidency* is our small contribution to that history. Read on as we break down, in great detail, all the "reasons" Trump has made America great again and "deserves" to be President of the United States.

'Part of the beauty of me is that I'm very rich' But that's just part of it. His fingers, too, are 'long and beautiful'. Improbably coiffed, perma-tanned and bronze-tongued, the Donald has increasingly impinged on the world's consciousness through a string of startling pronouncements. From his preference for war heroes who have not been captured, to his references to his sleeping around in the 1980s as his 'personal Vietnam' or this - 'My grandparents didn't come to America all the way from Germany to see it get taken over by immigrants' - Trump's utterances are nothing if not intriguing. As he once said, and to date this has been hard to dispute, he 'could stand in the middle of Fifth Avenue and shoot somebody, and [he] wouldn't lose any voters.' Here, in his own words, is the businessman, the dealmaker, TV personality, author and one-time Democrat, now Republican who would be president of the United States.

For years, Donald Trump was a real-estate magnate known for his overblown, opulent lifestyle. His brash but entertaining antics made him a best-selling author and host of the long-running television reality shows *The Apprentice* and *Celebrity Apprentice*. But the stakes grew higher in 2016 when he shocked many by beating out a huge field of contenders to secure the Republican Party nomination for president. This compelling biography traces the businessman's privileged childhood through his successes and failures, to the most important race of his life.

"Deserves a place alongside George Orwell's 'Politics and the English Language'. . . . one of the most important political books of this perilous summer."—*The Washington Post* "A must-read"—*Salon* "Highly recommended"—Jack Shafer, *Politico* Featured in "The Best New Books to Read This Summer" and "Lit Hub's Most Anticipated Books of 2020"—*Literary Hub* Historic levels of polarization, a disaffected and frustrated electorate, and widespread distrust of government, the news media, and traditional political leadership set the stage in 2016 for an unexpected, unlikely, and unprecedented presidential contest. Donald Trump's campaign speeches and other rhetoric seemed on the surface to be simplistic,

repetitive, and disorganized to many. As Demagogue for President shows, Trump's campaign strategy was anything but simple. Political communication expert Jennifer Mercieca shows how the Trump campaign expertly used the common rhetorical techniques of a demagogue, a word with two contradictory definitions—"a leader who makes use of popular prejudices and false claims and promises in order to gain power" or "a leader championing the cause of the common people in ancient times" (Merriam-Webster, 2019). These strategies, in conjunction with post-rhetorical public relations techniques, were meant to appeal to a segment of an already distrustful electorate. It was an effective tactic. Mercieca analyzes rhetorical strategies such as argument ad hominem, argument ad baculum, argument ad populum, reification, paralipsis, and more to reveal a campaign that was morally repugnant to some but to others a brilliant appeal to American exceptionalism. By all accounts, it fundamentally changed the discourse of the American public sphere.

Global Communication: A Multicultural Perspective, Third Edition is intended to explore, inform, and incite discussions about globalization and global communication. With chapters by some of the foremost global communication scholars, this book covers essential concepts of international communication and contemporary and emerging topics.

Blending critical theory, conjunctural cultural studies, and assemblage theory, *Making Sport Great Again* introduces and develops the concept of uber-sport: the sporting expression of late capitalism's conjoined corporatizing, commercializing, spectacularizing, and celebritizing forces. On different scales and in varying spaces, the uber-sport assemblage is revealed both to surreptitiously reinscribe the neoliberal preoccupation with consumption and to nurture the individualized consumer subject. Andrews further probes how uber-sport normalizes the ideological orientations and associate affective investments of the Trump assemblage's authoritarian populism. Even as it articulates the regressive politicization of sport, *Making Sport Great Again* serves also as a call to action: how might progressives rearticulate uber-sport in emancipatory and actualizing political formations?

In this book (previously published as *Crippled America*), we're going to look at the state of the world right now. It's a terrible mess, and that's putting it mildly. There has never been a more dangerous time. The politicians and special interests in Washington, DC are directly responsible for the mess we are in. So why should we continue listening to them? It's time to bring America back to its rightful owners—the American people. I'm not going to play the same game politicians have been playing for decades—all talk, no action, while special interests and lobbyists dictate our laws. I am shaking up the establishment on both sides of the political aisle because I can't be bought. I want to bring America back, to make it great and prosperous again, and to be sure we are respected by our allies and feared by our adversaries. It's time for action. Americans are fed up with politics as usual. And they should be! In this book, I outline my vision to make America great again, including: how to fix our failing economy; how to reform health care so it is more efficient, cost-effective, and doesn't alienate both doctors and patients; how to rebuild our military and start winning wars—instead of watching our enemies take over—while keeping our promises to our great veterans; how to ensure that our education system offers the resources that allow our students to compete internationally, so tomorrow's jobseekers have the tools they need to succeed; and how to immediately bring jobs back to America by closing our doors to illegal immigrants, and pressuring businesses to produce their goods at home. This book is my blueprint for how to Make America Great Again. It's not hard. We just need someone with the courage to say what needs to be said.

Herb Nutterman, a long-time Trump Organization employee, unexpectedly becomes President Trump's White House chief of staff and finds himself entangled in Russian intrigue and leading the president's reelection campaign.

I'm newborn. My grandparents were German immigrants. My mother was born in Scotland. And my father was a real estate developer. In the future, I wonder what I will be? I am born on June 14, 1946 at the Jamaica Hospital in Queens, New York City. My name is Donald John Trump. Some people just call me Trump. I've been described as an active, self-confident child.

A New York Times bestseller! For the first time in his own words, President-elect Donald J. Trump explains his plan to make America great again! He wants to “put America's interests first—and that means doing what's right for our economy, our national security, and our public safety.” Throughout the 2016 campaign, Trump conjured images of American strength and culture when small towns boomed with industry, mom and pop shops bustled, and people said, “Merry Christmas!” The media scoffed at Trump's vision and the people who supported him; they were blinded by the Clinton machine. But their eyes were opened after Trump won 62 million votes and the Oval Office. Even Republican House Speaker Paul Ryan said, “Donald Trump heard a voice in this country that no one else heard.” As Trump says in Time to Get Tough, “I've built businesses across the globe. I've dealt with foreign leaders. I've created tens of thousands of American jobs. My whole life has been about executing deals and making real money—massive money. That's what I do for a living: make big things happen...” Trump is about to make the biggest deals of his life, and he's going to make them for America! From reversing lax immigration policies to eliminating regulations that restrict small businesses, Donald Trump understands that America “doesn't need cowardice, it needs courage.” President Elect Trump is about to “Make America Great Again” and Time to Get Tough is his blueprint!

Introduction Donald Trump once said he was troubled by President Obama's high standing among African Americans, suggesting he probably wouldn't get support from Black voters that he believes he deserves. "I have a great relationship with the Blacks. I've always had a great relationship with the Blacks," Trump said on Talk 1300 AM radio in Albany, N.Y. Trump was considering running for President in 2012. He was responding to host Fred Dicker's reference to a recent Quinnipiac Poll showing Obama enjoys strong support from African Americans in New York State. That survey showed 95% of Blacks in New York backing Obama. The Real Estate mogul said the numbers were "frightening." Maybe if Trump runs and win in 2016 he might be a blessing for the Black race. It's understanding why Obama is so popular among Blacks. He is the first person with Negro blood in him to become President. That is the number one reason he is so popular with African Americans. He can't make life better for them because he can't dictate to them on what they must do. Obama only showed them, no matter what your background you can become President of the United States. Life is a hard struggle for most people in the United States the same thing goes for Sports. Fortunate Blacks have the upper hand on other races because of their toughness and endurance it take to play Sports. However, when most Blacks succeed, they forget where they came from and don't look back and help the unfortunate ones except their mother. Because most never had a father there for them. Maybe Donald Trump, if he become President will motivate young Blacks to be productive, obey the Law, be honest and blame no one and achieve their full potential goal in life. Trump is about business and you must contribute to this Society if you want to be successful. The Jury is still out on Trump. I am willing to give him a chance. Our Country is on a downhill decline. Maybe Trump will make America great again. Therlee Gipson

For centuries, evangelical Protestants and Catholics have hurled harsh epithets at each other. But that has changed dramatically in the last forty years. In 1960, many prominent evangelicals opposed John Kennedy for president because he was a Catholic. Today, Catholics and evangelicals work together on many issues of public policy. This book records one important process in this transformation. In 2004, the board of The National Association of Evangelicals (NAE--the largest representative body of evangelicals in the US) unanimously approved For the Health of the Nation as the official public policy document for its public policy efforts representing 30 million evangelicals. When scholars read this new ground-breaking document, they quickly realized there was widespread agreement between the NAE's official public policy document and the official public policy positions of American Catholics. The result was a series of annual meetings held at Georgetown University and Eastern University that brought together prominent Catholic and Evangelical scholars and public policy specialists to explore the extent of the common ground. This book reports on that dialogue--and its contribution to the increasing Catholic-evangelical cooperation. After President Trump's election, BREXIT and the widespread rise of far-Right political parties, much public discussion has intensely focused on populism and authoritarianism. In the middle of the twentieth century, members of the early Frankfurt School prolifically studied and theorized fascism and anti-Semitism in Germany and the United States. In this volume, leading European and American scholars apply insights from the early Frankfurt School to present-day authoritarian populism, including the Trump phenomenon and related developments across the globe. Chapters are arranged into three sections exploring different aspects of the topic: theories, historical foundations, and manifestations via social media. Contributions examine the vital political, psychological and anthropological theories of early Frankfurt School thinkers, and how their insights could be applied now amidst the insecurities and confusions of twenty-first century life. The many theorists considered include Adorno, Fromm, Löwenthal and Marcuse, alongside analysis of Austrian Facebook pages and Trump's tweets and operatic media drama. This book is a major contribution towards deeper understanding of populism's resurgence in the age of digital capitalism.

Conrad Black, bestselling author of Franklin Delano Roosevelt: Champion of Freedom, Richard M. Nixon: A Life in Full, and Flight of the Eagle: America's Rise from Colonial Upstart to the World's Superpower, turns his attention to his friend President Donald J. Trump and provides the most intriguing and significant, but certainly not uncritical, analysis yet of Trump's political rise. Ambitious in intellectual scope, contrarian in many of its opinions, and admirably concise, this is surely set to be one of the most provocative political books you are likely to read this year.
