A wide-ranging collection of essays by one of America's most perceptive critics of popular and literary culture From one of America's most insightful and independent-minded critics comes a remarkable new collection of essays, her first in more than fifteen years. Daphne Merkin brings her signature combination of wit, candor, and penetrating intelligence to a wide array of subjects that touch on every aspect of contemporary culture, from the high calling of the literary life to the poignant underside of celebrity to our collective fixation on fame. "Sometimes it seems to me that the private life no longer suffices for many of us," she writes, "that if we are not observed by others doing glamorous things, we might as well not exist." Merkin's elegant, widely admired profiles go beneath the glossy façades of neon-lit personalities to consider their vulnerabilities and demons, as well as their enduring hold on us. As her title essay explains, she writes in order "to save myself through saving wounded icons . . . Famous people . . . who required my intervention on their behalf because only I understood the desolation that drove them." Here one will encounter a gallery of complex, unforgettable women—Marilyn Monroe, Courtney Love, Diane Keaton, and Cate Blanchett, among others—as well as such intriguing male figures as Michael Jackson, Mike Tyson, Truman Capote, and Richard Burton. Merkin reflects with empathy and discernment on what makes them run—and what makes them stumble. Drawing upon her many years as a book critic, Merkin also offers reflections on writers as varied as Jean Rhys, W. G. Sebald, John Updike, and Alice Munro. She considers the vexed legacy of feminism after Betty Friedan, Bruno Bettelheim's tarnished reputation as a healer,

and the reenvisioning of Freud by the elusive Adam Phillips. Most of all, though, Merkin is a writer who is not afraid to implicate herself as a participant in our consumerist and overstimulated culture. Whether ruminating upon the subtext of lip gloss, detailing the vicissitudes of a pre–Yom Kippur pedicure, or arguing against our obsession with household pets, Merkin helps makes sense of our collective impulses. From a brazenly honest and deeply empathic observer, The Fame Lunches shines a light on truths we often prefer to keep veiled—and in doing so opens up the conversation for all of us.

In this book I give you my honest views on the good and dark sides of Windows 11. There are more features, issues, hacks and tricks hiding in Windows 11 than most people will ever know. I unveiled some of them in this book. I've been a Windows user for over 20 years, and after further exploring two early builds of Windows 11, at first I had to admit that it looks rather nice, and is better than Windows 10. But I soon discovered there's a lot more than meets the eye. So I strongly advise you read this book first to help you decide if you should install or upgrade your OS to Windows 11. These are some of what you'll learn in this book: The new features and major changes since the Windows 11 insider preview was released. Why Microsoft's system health-check application, and the hardware constraints they plan to include in Windows 11 are shameful, and how they can affect your system and you. Why I suspect the rollout of Windows 11 will be relatively slow, and why it will take quite a long time before lots of people start using it. Apps experiencing troubles with Windows 11 and why Microsoft is unable to find a fix. 8 Windows 11 troubles Microsoft is currently investigating The Microsoft's policy and how it will affect Windows 11 users when Windows 10 support ends on October 14th, 2025. How to quickly and reliably check if your system can run Windows 11. Two methods to install Windows 11 step by step (for Windows and Linux-based systems with backup and restore options for programs and files). A work around to install Windows 11 on non-supported hardware. How to dual boot your PC with Windows 11 and 10 step by step. And so much more...
