

Mrcs Part A Past Papers

The Oxford Handbook for the Foundation Programme returns in a new edition to keep junior doctors, as well as their supervisors and senior medical students, up-to-date and give them the information and confidence they need to excel during and beyond the Foundation Programme. This new edition has been fully revised to take in the latest guidelines, the new junior doctors' contract, and the most recent Foundation Programme curriculum. It has new sections to demystify the NHS structure and explore key changes in social care and the interface with the NHS, and revised key information on the medical certificate of the cause of death, the role of the medical examiner, and changes to interactions with the coroner, as well as a new standalone chapter on Psychiatry. The junior doctor's pocket mentor, this handbook distils the knowledge of four authors across multiple NHS environments in an easy access format, covering everything from practical guidance at the patient's bedside to aspects of adapting to day-to-day life as a junior doctor that are rarely covered in medical school. With this indispensable survival guide to the Foundation Programme, you need never be alone on the wards again.

Single best answer (SBA) questions have been introduced into the Final FRCR Part A examination of the Royal College of Radiologists in the UK for the first time. This book of 600 SBA questions and explanatory answers has been written to aid students preparing for the exam by current trainees in clinical radiology, coordinated through The Society of Radiologists in Training (SRT). Questions are grouped by topic and each topic is split into three papers of 70 questions, with explanations separated into chapters to enable readers to either attempt a whole mock exam paper or to browse question by question. The book is a bridge between a pure revision aid and a reference text, including a bibliography of useful references for further information. Candidates for other professional exams in Radiology will find the text useful, as will and those from other specialties wishing to explore the radiological aspects of their syllabus in greater depth. This is a companion volume to Final FRCR Part A Modules 4-6 Single Best Answer MCQs by the same team.

This comprehensive, completely up-to-date collection of test questions covers the whole MRCS syllabus tested in the intercollegiate MRCS Part A examination. Written by recent successful candidates, the revision guide has been designed in accordance with the 2012 Royal College of Surgeons of England guidance to match the exact format of the MRCS Part A with 5 single best answer (SBA) papers and 5 extended matching question (EMQ) papers. Completing the papers to time provides excellent practice in exam technique and the concise, clear answers and explanations are ideal for evaluation and revision. Intercollegiate MRCS Part A: SBAs and EMQs is ideal for all MRCS Part A candidates.

Undergraduate medical students preparing for their surgical finals will also find the guide invaluable for testing their SBA

and EMQ technique. 'Students preparing for the Intercollegiate MRCS Part A examination will be well advised to practise for this type of examination, and this is just the book to help them...As someone who, for many years, has helped trainees prepare for the exam and also acted as an examiner, I would recommend anyone preparing for MRCS Part A to work their way through these mock papers.' From the Foreword by (Emeritus) Professor John Morris

Provides the most up-to-date material, matching the MRCS syllabus, to aid preparation for the MRCS A examinations. The book covers every major subject in the MRCS syllabus; works systematically through every general surgical topic likely to appear in the exam; highlights important principles of Surgery; contains important lists and vital points; is clearly laid out with illustrations to aid understanding.

Helps candidates pass the MRCS Part A exam. This book includes four practice papers, featuring over 120 Best of Five questions, mirroring the format of the exam.

The four Surgical Royal Colleges have recently received approval from the GMC to make changes to the MRCS Part A Examination. The second edition of this popular book, SBAs and EMQs for the MRCS Part A is an invaluable guide to sitting and passing the new MRCS examination. There is an increased emphasis on Anatomy and Basic Sciences, which now account for 60% of the exam. College-approved, systematic and coherent questions for all the main systems are included, providing comprehensive coverage of the curriculum. The Question and Answer format, including many more Single Best Answers aids revision. Expanded to reflect the new 2017 curriculum

Applied Sciences and Pathology OSCEs for the MRCS Part B Exam focuses on pure practise cases for the applied science and pathology domains of the MRCS Part B OSCE. Featuring images, practical tips, data interpretation and realistic clinical cases as they are examined for the MRCS Part B. Applied Sciences and Pathology OSCEs for the MRCS Part B Exam is the ultimate revision aid for testing your surgical pathology and applied science knowledge. Test your interpretation of clinical findings together with your knowledge of follow up questions that are asked by examiners. Each station is based on realistic cases that are tested at the MRCS Part B examination and feature microbiology, physiology, critical care and surgical pathology questions and comprehensive answers and insider tips. Applied Sciences and Pathology OSCEs for the MRCS Part B Exam is designed to be realistic and questions become progressively harder to differentiate the best candidates. Questions and answers can be practised individually or in groups to aid revision.

Features Realistic Surgical Exam Questions: As asked by examiners at the MRCS Part B examination 40 Unique OSCE Station Briefs: Physiology, pathology, critical care, imaging and microbiology questions Comprehensive Explanations: Example answers, insider tips and summaries Revise Alone Or In Pairs: The question and answer format allows you to prepare in groups or alone Revise Alone Or In Pairs: The question and answer format simulates the viva-style exam with

candidate briefs and answers analysed.

This best-seller has been completely revised and updated to provide the definitive guide to revision for all candidates preparing for the MRCS Core Modules examination. It gives a unique presentation of the key elements of all subjects covered in the Core Modules syllabus. Vital facts are presented in a clear concise format with diagrams and user-friendly summaries of the essential facts. Designed to make learning easier, no candidate should be without this excellent book. Surgical Examination and Skills OSCEs utilises interactive cases and images to help prepare and test you ahead of postgraduate surgical examinations. Surgical Examination and Skills OSCEs for the MRCS Part B Exam is the ultimate revision aid for testing and practising your surgical examination and practical skills. Follow step-by-step instructions and questions designed to simulate examination and practical skills. All commonly tested OSCE areas are included from joint examination to hernia examination and ENT tests. Practical skills include suturing, knot tying and more. Surgical Examination and Skills OSCEs for the MRCS Part B Exam is designed to be realistic and questions become progressively harder to differentiate the best candidates. Questions and answers can be practised individually or in groups to aid revision. Features Realistic Surgical Exam Scenarios: As asked by examiners at the MRCS Part B examination 40 Unique OSCE Station Briefs: Walkthroughs and follow on questions for all surgical specialty examinations and practical skills Comprehensive Explanations: Example answers, insider tips and summaries Revise Alone Or In Pairs: The question and answer format simulates the viva-style exam with candidate briefs and answers analysed. Providing everything you need to pass the FRCR Part 2A, this book provides a thorough assessment of a candidate's radiological knowledge. The book is divided into six chapters, with 75 questions in each chapter, mirroring the modules and exam papers laid out by the Royal College of Radiologists. This makes you as familiar as possible with its style, content and structure and facilitates directed learning. All questions have been formulated to reflect the current best practice and evidenced-base, ensuring candidates' knowledge of their field is up-to-date. A detailed explanation is provided for each question, including references to review publications or widely-used textbooks, which allow detailed follow-up on the issues discussed.

Cracking the MRCS Viva is an outstanding guide to the MRCS Viva examination. Its unique approach recreates the structure and content of each individual viva, allowing the reader to self-test, or two students to recreate mock viva sessions for themselves. Divided into six sections to mirror the exam - applied surgical anatomy, operative surgery, applied surgical pathology, principles of surgery, applied surgical physiology, and critical care - each section covers a range of topics, listed alphabetically, and contains all the information required to pass the exam using concise, bullet-point text, helpful tables and easy to reproduce diagrams. Written by registrars who have all recently passed the MRCS, plus an MRCS examiner, this comprehensive and user-friendly revision guide also contains considerable input from other senior specialists.

Gives candidates a means of practising some common questions that they will be asked in their viva examinations.

Specifically written for those preparing for examinations and practitioners in travel medicine, MCQs in Travel Medicine contains over 600 multiple choice questions with detailed explanations which both teach and challenge the reader. Questions are group by

topic which is ideal for revision, enabling you to focus on specific areas including adventure travel, travellers' diarrhoea, malaria, sexually transmitted disease, and drugs used in travel medicine. The style and format of the questions mirror the format of the exam questions, and the book includes a self-test to aid revision. This easy-to-read comprehensive book is ideally suited for those in busy day-to-day practices and those preparing for examinations in travel medicine including the Certificate Exam of the International Society of Travel Medicine.

Presented in a question-answer format, this is the most concise and accurate anatomy aid for the new Intercollegiate MRCS examination.

MRCS Part A: 550 SBAs and EMQs, Second Edition continues the tradition of the best-selling first edition by offering a wealth of practice questions covering applied basic sciences and principles of surgery for candidates preparing for the MRCS Part A written exam. With 40% new content, including the addition of trauma and orthopaedic questions to provide complete coverage of surgical specialties, this book remains an essential revision tool designed to maximise chances of exam success. Key points 550 SBAs and theme-based EMQs test knowledge of applied basic sciences and general surgical principles, respectively, reflecting the formats encountered in the exam Chapters organised by anatomy, physiology, pathology, principles of surgery and general surgery, to help you focus on areas of weakness Provides in-depth answers, with illustrations, to help consolidate knowledge and understand key concepts Gives practical advice on how to approach revision and useful tips to improve exam technique This is the only guide trainee surgeons will need to help them pass the MRCS Part B OSCE exam. It includes comprehensive revision notes on all the areas covered in the exam, practice scenarios and model answers laid out as in the exam, and essential exam techniques.

Designed to help medical students through their exams. Built around the successful 'Essential Revision Notes for MRCP', this title focuses on what is essential learning for medical undergraduates and gives readers an 'all round' knowledge of medicine at this level.

This fully updated landmark revision guide is a must-have for all surgical trainees working towards the MRCS Part B OSCE.

Success in any exam requires careful preparation, background reading and, importantly, prior self-assessment. Containing 1000 Single Best Answer (SBA) questions for the MRCS Part A, this book offers surgical trainees a wealth of exam practice, written and edited by expert authors with recent experience of the MRCS syllabus. Get Through MRCS Part A:

The Viva Voce is a particularly difficult element of the MRCS exam since candidates will be tested across a broad range of topics in surgery, pathology, critical care and basic science, and also as candidates are unsure what to expect, or how to prepare for such an exam. Questions for the MRCS Viva is an essential guide to sitting and passing the Vi

FRCOphth Part 1: 400 SBAs and CRQs offers a wealth of practice questions for candidates preparing to sit the FRCOphth Part 1 exam. With so few revision resources available, this book will be an invaluable tool for candidates requiring comprehensive practice material for successful exam preparation. Organised into 3 complete exam papers, all the questions feature corresponding answers that reinforce key concepts and enable candidates to gain a thorough understanding of the subject. Topics in exam papers 1 and 2 are arranged in line with the FRCOphth syllabus, while exam paper 3 is presented as an unstructured mock exam to replicate the experience of sitting the exam. Covering

the full breadth of the syllabus, FRCOphth Part 1 400 SBAs and CRQs provides the definitive revision guide to maximise chances of exam success. 360 SBAs and 40 CRQs (Constructed Response Questions) arranged as three exam papers, providing a large number of questions for exam revision Chapters 1 and 2 are exam papers, structured according to the FRCOphth syllabus to allow organised, progressive revision Chapter 3 is structured as a standard mock exam allowing candidates to practice under exam conditions Answers feature detailed explanations to consolidate knowledge

With over 1000 questions, MCQs and EMQs in Surgery is the ideal self-assessment companion guide to Bailey & Love's Short Practice in Surgery. The book assists readers in their preparation for examinations and to test their knowledge of the principles and practice of surgery as outlined within Bailey & Love. Sub-divided into 13 subject-s

This book is a concise revision guide to the core basic sciences - anatomy, physiology and pathology - which comprise the essential knowledge required by the trainee entering the specialty of surgery. It has been written in a style to facilitate easy learning of the essential facts, with indications of both their clinical relevance and importance. This book concentrates on those topics which tend to be recurring examination themes for initial surgical training. It will be an invaluable resource for the basic surgical trainee studying for the Intercollegiate MRCS examination, as well as proving useful for those in higher surgical training and for the surgically inclined, well-motivated student. The book covers in one volume all the essentials of the basic sciences - anatomy, physiology and pathology - to aid the candidate for the MRCS examination. In covering the applied basic science the books explains the application and clinical relevance of the three sciences The text is written in an appropriate 'bullet-point' style to allow easy reading and rapid exam preparation The contents concentrate on the recurring common themes of the examination, thus helping direct appropriate learning and focussing on the specific impoartnta areas of knowledge The book is illustrated with line drawings which are clearly annotated to aid learning. In this Second Edition, chapters have been updated and sections expanded to cover topics which are particularly relevant to examinations. The microbiology chapter has been rewritten, and the section on skin healing has also been extensively rewritten to include a section on burns, skin grafting and the anatomy of flaps. Each chapter has new OSCE scenario questions added to bring together the basic science and its clinical application in OSCE examinations.

Helps candidates pass the new MRCS Part A exam. This book contains 4 complete practice papers, each featuring over 120 best of five questions, mirroring the format of the exam. It features questions which reflect the balance of topics covered in the actual exam. It includes explanations to every question to aid revision within the MRCS syllabus.

This book has been composed for and targeted at surgical trainees preparing for the MRCS examination. The authors' aim was to provide a book that offers a comprehensive collection of questions that have been compiled whilst bearing in mind the changes in the new intercollegiate examination system. The book is exhaustive with 1,200 EMQs (extended matching questions) based on 279 themes covering the whole of general surgery. The text layout helps the trainee practise the questions systematically and the section on exam techniques allows the trainee to gain an insight into the exxential finer points of preparation that are crucial inpassing the MrCS exams. It has been written by four authors who have all taken the exam in the past 2 years, and thus are bext placed to provide an excellent representative sample of questions. Composed for and targeted at surgical trainees preparing for the MRCS examination, this book offers a

comprehensive collection of questions that have been compiled whilst bearing in mind the changes in the intercollegiate examination system. It is exhaustive with 1,200 EMQs based on 279 themes covering the whole of general surgery.

MRCS Part A: 550 SBAs and EMQs Second Edition JP Medical Ltd

Presented in a structured question-and-answer format, the second book in this comprehensive reference addresses the revised syllabus of the Membership of the Royal College Surgeons' (MRCS) Objective Structured Clinical Examination (OSCE). Beneficial to MRCS OSCE candidates as well as to surgeons, doctors, and medical practitioners, this didactic guide presents approved, structured clinical-examination protocols supplemented with a clinical-examination DVD. Chapters on communication skills, ethics, and history-taking skills are also included.

Fully revised and updated in light of the changes to the format of the MRCS examination, this second edition of *Get Through MRCS: Anatomy* provides candidates with the knowledge and practice necessary for excelling at the challenging MRCS part B OSCE examination. The updated new edition of the highly-praised *Get Through MRCS: Anatomy Vivas* Fully revised in accordance with the changes to be focussed on the OSCE format Detailed model answers and full explanations to ensure thorough understanding of how to get the best results Plentiful illustrations and high-quality photographs in full colour throughout Written by the experienced author of the highly successful first edition, Simon Overstall has extensive knowledge of the exam, both in teaching offline courses and authoring MRCS revision texts. *Get Through MRCS: Anatomy* is essential reading for MRCS candidates wanting to achieve expert anatomical knowledge and to ultimately earn high results within their postgraduate examinations.

This revision book is specifically designed to help candidates revise the MRCS syllabus, as defined by the Intercollegiate Surgical Curriculum Project (ISCP). The book features 250 questions divided into 96 themes.

MRCS PART B OSCE: ANATOMY is unique in focussing solely on providing the knowledge necessary to pass one of the toughest exam components facing surgical trainees. Offering the most up-to-date coverage of anatomy practice questions and presented in a clear layout, chapters are mapped to the syllabus to deliver structured revision in all the key topics. Featuring a wealth of questions and fully descriptive answers, this book provides the essential revision text to maximise chances of exam success. 150 scenario-based anatomy questions, model answers and enhanced with concise revision notes Highly illustrated with diagrams and tables to improve understanding of complicated anatomy Includes practical advice on how to approach the exam and useful tips to achieve the highest marks Familiarizes candidates with the full range of presentations: surface anatomy, prosections and radiological imaging Edited by highly experienced anatomist, Professor Vishy Mahadevan Highly Commended at the BMA Medical Book Awards 2013

Revised and expanded for the second edition, *ENT OSCEs* is an established full-colour revision guide covering all

aspects of the DO-HNS and MRCS (ENT) OSCE. Written by a team of ENT specialty registrars, this accessible text follows a step-by-step approach with each test OSCE station based on the style of past questions. This new edition features more written stations, clinical examination walk-throughs and communication skills stations. With over 100 colour images, ENT OSCES remains unrivalled as a tool with which to prepare for ENT exams. It is essential reading for candidates of the DO-HNS/MRCS (ENT) and will also aid trainees in preparation for specialty registrar national selection interviews. It is highly recommended for GPs wishing to refresh their knowledge of how to assess common ENT problems and will also be an ideal reference for any junior doctor learning to take histories and examinations in their first ENT post. Finally, it is an invaluable resource for medical students undertaking their ENT attachment and in preparation for final examinations.

Specifically designed to help candidates revise for the MRCS exam, this book features 350 Single Best Answer multiple choice questions, covering the whole syllabus. Containing everything candidates need to pass the MRCS Part A SBA section of the exam, it focuses intensively on the application of basic sciences (applied surgical anatomy, physiology, and pathology) to the management of surgical patients. The high level of detail included within the questions and their explanations allows effective self-assessment of knowledge and quick identification of key areas requiring further attention. Varying approaches to Single Best Answer multiple choice questions are used, giving effective exam practice and guidance through revision and exam technique. This includes clinical case questions, 'positively-worded' questions, requiring selection of the most appropriate of relatively correct answers; 'two-step' or 'double-jump' questions, requiring several cognitive steps to arrive at the correct answer; as well as 'factual recall' questions, prompting basic recall of facts. Featuring a wealth of practice questions, MRCS Part A: 500 SBAs and EMQs allows trainees to test themselves on everything they need to know to pass the MRCS Part A exam.

THE THIRTEENTH EDITION OF THE CLASSIC TEXTBOOK, FIRST PUBLISHED IN 1960 Written by one of the great teachers of anatomy, the thirteenth edition of Clinical Anatomy continues to provide thousands of medical students, postgraduate trainees and junior doctors across the world with essential anatomical information within a clinical setting. It is particularly appropriate for those preparing for the Intercollegiate Membership Examination of the Royal Colleges of Surgeons (I-MRCS). Professor Harold Ellis is again joined by Professor Vishy Mahadevan to provide detailed, easy-to-follow structured text suitable for anatomy students and trainees of all levels. Fully revised and updated with many new illustrations, this new edition features for the first time, several anatomical drawings overlaid on a living anatomy model to provide detailed topographical orientation and accurate surface representation. The companion website at www.ellisclinicalanatomy.co.uk/13edition contains digital flashcards of all the illustrations and photographs contained in the book - ideal for revision and teaching purposes.

Help candidates pass the MRCS Part A exam. This book contains 3 complete practice papers, each featuring 180 extended matching questions, mirroring the format of the exam. It also features questions which reflect the balance of topics covered in the exam to ensure candidates have realistic practice. It offers explanations to every question.

This new revision guide with over 1500 questions, reasoned answers and links to explanatory text gives a comprehensive range of multiple choice questions (MCQs) and extended matching items (EMIs). Complete with sample papers, this book provides everything you need for the written parts of the MRCPsych and comparable hi

It is widely accepted that the machinery of multicultural societies and liberal democratic systems is dependent upon various forms of dialogue - dialogue between political parties, between different social groups, between the ruling and the ruled. But what are the conditions of a democratic dialogue and how does the philosophical dialogic approach apply to practice? Recently, facing challenges from mass protest movements across the globe, liberal democracy has found itself in urgent need of a solution to the problem of translating mass activity into dialogue, as well as that of designing borders of dialogue. Exploring the multifaceted nature of the concepts of dialogue and democracy, and critically examining materializations of dialogue in social life, this book offers a variety of perspectives on the theoretical and empirical interface between democracy and dialogue. Bringing together the latest work from scholars across Europe, *Democracy in Dialogue*, *Dialogue in Democracy* offers fresh theorizations of the role of dialogue in democratic thought and practice and will appeal to scholars of sociology, political science and social and political theory.

Principles and Practice of Surgery is the surgical companion textbook to the international medical bestseller Davidson's *Principles and Practice of Medicine*. It is a comprehensive textbook for both the surgical student and trainee, guiding the reader through key core surgical topics which are encountered throughout an integrated medical curriculum as well as in subsequent clinical practice. Although sharing the same format and style as Davidson's *Principles and Practice of Medicine*, this text is complete in itself, thus enabling the student to appreciate both the medical and surgical implications of diseases encountered in surgical wards. A three-section textbook of surgical principles and regional clinical surgery. The textbook presents a comprehensive account of international surgical practice, taking into account variations in the disease patterns and management approaches throughout the world. Superbly presented with line drawings, high quality radiographic images and colour photographs. Presented in similar form to its sister textbook Davidson's *Principles and Practice of Medicine*. Full online and ebook version available as part of Student Consult. A new chapter on Evidence-based practice and professional development. An expanded chapter on Surgical preparation includes an account of the main issues surrounding day case surgery. A new International Advisory Board based in India, South Africa, South-east Asia and Europe has advised throughout on the structure and content of the book. Consequently the text has been updated to reflect changes in understanding, evidence and practice, and to keep the contents in line with undergraduate and postgraduate surgical curricula. The evidence-based revision boxes that focus on major international guidelines have been thoroughly updated. The text on tropical conditions such as tropical pancreatitis, tuberculosis affecting the various organ systems and filarial lymphoedema has been expanded. Innovations useful in the practice of surgery in resource-poor environments have been included. The text gives a global emphasis on epidemiological and cultural issues such as problems associated with directed transfusion of blood products from first degree relatives, the issues of informed consent and patient autonomy. A comparison of SI and non-SI reference ranges for commonly used laboratory values has been added.

Offers an introduction covering the MRCS exam with particular reference to OSCEs; an overview of clinical skills in history taking and physical examination; chapters covering sections of the exam with popular cases in the OSCE format at the end of each chapter; and, a layout with colour images.
