Incorporating original fieldwork carried out over a period of more than ten years, combined with innovative theoretical argument, *Globalization, Culture and Society in Laos* presents one of the first sociological investigations into modern Laos. Boike Rehbein gives a fascinating overview of contemporary Lao culture and society, whilst linking local and national phenomena to tendencies of globalization and the history of the region. The book introduces a new theoretical approach based on the sociology of Pierre Bourdieu, applying this sociology to the interpretation of Lao history. It also examines various aspects of Lao culture and society, including economics, politics, language, higher education, music, and religion. Rehbein concludes by attempting to synthesize these cultural elements with the impact of globalization to give a synopsis of contemporary Lao society. Written by an expert in Lao history and culture, familiar with the language and the people, this book will be of huge interest to students and scholars of Laos, Southeast Asia, social theory and globalization.

Miami narcotics detective Leah Daniel never expected to become the sacrificial victim in an ancient Mayan blood ritual intended to bring a demon from the underworld, or to be rescued by Jaguar Strike, a handsome warrior-priest king, who claims that he has recognized her from his visions, in the first volume in a new paranormal romance series.

The 2016 U.S. presidential election revealed a nation deeply divided and in flux. This volume provides urgently needed insights into American politics and culture during this period of uncertainty. The contributions answer the election's key mysteries, such as how contemporary Christian evangelicals identified in the unrepentant candidate Trump a hero to their cause, and how working class and economically struggling Americans saw in the rich and ostentatious candidate a champion of their plight. The chapters explain how irrationality is creeping into political participation, and demonstrate how media developments enabled a phenomenon like "fake news" to influence the election. At this polarized and contentious moment, this volume satisfies the urgent need for works that carefully analyze the forces and tensions tearing at the American social fabric.

Simultaneously intellectual and accessible, this volume is designed to illuminate the 2016 U.S. presidential election and its aftermath for academics and students of politics alike.

'Ageing in Society brings forth exciting new questions, fresh perspectives, and a necessary critical approach to key issues - this is indeed an authoritative introduction. The authors not only have made significant contributions to gerontology, but offer the reader considerations for what could be, not just what is, the design of old age in society. The book will inform students in ways that so many texts in the area, satisfied with comfortable bromides, do not' - Jaber Gubrium, Editor of Journal of Aging Studies, University of Missouri-Columbia  
'This completely revised Third Edition of Ageing in Society presents one of the most comprehensive pictures of ageing today. Emphasising the dual processes of ageing societies and the experience of ageing, the book offers the reader - student or researcher alike - cogent discussions of the most up to date perspectives and evidence available. The contributors are all leading experts in their fields - comprising a range of important disciplines as they apply to ageing. Ageing in Society is a cutting edge text on one of the most important subjects facing the modern world - a must for all students of ageing' - Mike Bury, Emeritus Professor of Sociology, University of London  
'The Third Edition of the comprehensive textbook Ageing in Society extends its scope to include continental Europe, allowing broader as well as deeper insights into recent trends in gerontology. Gerontologists and practitioners are urged not to stop reading before they have reached the insightful last chapter "Ageing into the future!" - Professor Dorly Deeg, Editor-in-Chief European Journal of Ageing  
The Third Edition of this popular and widely-used text provides a comprehensive introduction to the study of ageing, exploring the key theories, concepts and methods which the behavioural and social sciences contribute to the subject. Thoroughly revised and updated, Ageing in Society reflects new trends in gerontology, incorporating recent developments in theory and research as well as major international and interdisciplinary perspectives. A new chapter on cognitive ageing has been added and key themes, such as social protection, retirement, health and illness, and cultural images of old age are also critically examined. Ageing in Society was developed by the British Society of Gerontology to fulfil the need for an authoritative introduction to social gerontology. As such, it is an ideal resource for students and lecturers in the social and behavioural sciences, as well as for students and practitioners in health and social care.

Concussions happen at all levels of sport, from the earliest levels through the professional ranks. Potentially catastrophic if not detected early, concussions have ended the careers of many notable professional players--and it's estimated that in high school football alone, about 1 in 5 players suffers a concussion. The Heads-Up on Sport Concussion is a concise introductory book on sport concussion for professionals who work with athletes. It provides a comprehensive review of current literature on sport concussion, and it guides professionals in communicating with athletes, parents, and coaches regarding assessment, treatment, and other issues surrounding sport concussion. In The Heads-Up on Sport Concussion, the authors detail -what happens when the brain is injured; -appropriate assessment and evaluation tools; -sport-specific issues; -how medical organizations are addressing the issue of sport concussion; -medical and nonmedical treatment and rehabilitation strategies; -recent research on a variety of topics in sport concussion; and -essential information for coaches, athletes, and parents. This book is focused and authoritative in its treatment of a poorly understood medical problem. Providing clear clinical management strategies for sport concussion injuries, the text compiles the best available information from different resources and synthesizes the information with summaries and conclusions for easy comprehension. The material is enhanced further with photos and illustrations depicting MRI scans and brain images showing chemical reactions in the brain after an injury. In addition, the text identifies particular sports and sport activities that have the greatest incidence of sport-related

concussions, and it reports on and critiques those strategies that are currently in place to combat sport concussion across different sport groups. In *The Heads-Up on Sport Concussion*, professionals in sports medicine, neurology, neurosurgery, and neuropsychology offer strategies for recognizing and treating sport concussion. The text provides appropriate research resources without getting bogged down by lengthy research critiques. Many chapters include a Research Digest section that identifies critical research data used in developing recommendations and conclusions. Additionally, an educational poster is available for download via the Internet for trainers, physicians, coaches, and sports medicine professionals to use to educate athletes and their families about the signs, symptoms, and treatment of concussion. The poster is available at [HumanKinetics.com](http://HumanKinetics.com). *The Heads-Up on Sport Concussion* provides a current understanding of terminology, assessment, treatment, and criteria for return to play for a range of readers. Researchers, medical professionals, and health care specialists will have a more thorough grasp of the various aspects of sport concussion and thus be able to provide better care and education to athletes who sustain concussions. Its complete treatment of a critical topic makes this a must-read for anyone involved in the care and training of athletes.

John M. O'Shea explores this question by employing modern archaeological theory and analysis as well as mortuary theory to build a model of an Early Bronze Age society in the eastern Carpathian Basin. He focuses on the Maros communities and utilizes the densely encoded social information from their cemeteries to draw a picture of the Maros' social systems.

Inequality remains one of the most intensely discussed topics on a global level. As well as figuring prominently in economics, it is possibly the most central topic of sociology. Despite this, there has been no book until now that unites approaches from economics and sociology. Organized thematically, this volume brings international scholars together to offer students and researchers a cutting-edge overview of the core topics of inequality research. Chapters cover: the theoretical traditions in economics and sociology; the global and national structures of inequality in the contemporary world; the main dimensions of inequality (including gender, race, caste, migration, education and poverty); and research methodology. In presenting this overview, *Inequality in Economics and Sociology* seeks to build a bridge between the disciplines and the approaches. This book offers an encompassing understanding of an increasingly fragmented and highly specialized field of research. It will be invaluable for students and researchers seeking a single repository on the current state of knowledge, current debates and relevant literature in this key area.

\*\*\*FINALIST, USA Best Books 2010 Awards – Spirituality & Self-Help: Relationships The quest for lasting love is one of life's essential pursuits, in some ways the most essential. But it's also a quest that's impossible to separate from spiritual and sexual needs. In *Eros Ascending*, author John Maxwell Taylor offers a wide-ranging study of sexual dysfunction in society and explains how healthy sexuality can be an entryway to universal love and higher consciousness. Based on Taylor's twenty-three-year experience with Taoist practices, the book presents an engaging analysis of love, relationships, and sexuality from spiritual, romantic, and sexual perspectives. Taylor melds essential ideas by Jung, Gurdjieff, and Taoist Master Mantak Chia with science, biology, spiritual tradition, and current popular culture to shed new light on this eternal yet misunderstood subject. Not just for couples, the book is equally useful for single people who want to understand the methods for "learning to love yourself" in preparation for a fulfilling, long-term relationship. Taylor draws on his eclectic background as a successful playwright, composer, actor, and musician in this persuasive plan for converting ordinary sexual energy into food for the soul.

In this book, French author Philippe Breton looks at the Internet and the culture surrounding it through the lens of its cultural background. Central in his insightful analysis of "the Internet as cult" are Teilhard de Chardin and the New Age, but he looks also at the fears, passions and pathologies of Alan Turing and Norbert Wiener, the imagined worlds of Isaac Asimov, William Gibson, J.G. Ballard and Timothy Leary, the prognostications and confessions of Bill Gates, Nicolas Negroponte and Bill Joy, and the philosophies of Saint-Simon, McLuhan and Pierre Levy. Dreams of a transparent and unmediated world, a world in which neither time nor space are relevant, a world without violence, without law, without a distinction between the public and the private, Breton contrasts with the reality of propaganda, computer viruses and surveillance, the world in which "sociality in the sense of mutuality disappears in favor of interactivity," where "experience with another and with the world in general is replaced by brief reactionary relations that hardly engage us at all." This English language translation is by David Bade."

This six-time Eisner Award-winning comic book series blending fantasy and humor features the adventures of paranormal pets investigating the horrors of their suburban community. This volume collects the comic-book series *Beasts of Burden* issues #1-4, the short stories from the *Dark Horse Book of Hauntings*, the *Dark Horse Book of Witchcraft*, the *Dark Horse Book of the Dead*, and the *Dark Horse Book of Monsters*, "Stray," "Unfamiliar," "Let Sleeping Dogs Lie," and "A Dog and His Boy," published by Dark Horse Comics. Black magic, demonic frogs, and

zombie roadkill are just a few of the problems plaguing this seemingly sleepy little town. Beneath the quiet streets a rat cabal plots vengeance, while in the local cemetery the dead leave their graves. With the human residents unaware of the supernatural danger, it's up to a determined crew of dogs (and one cat) to keep their community safe. Lives will be lost, and bonds forged as the beasts of Burden Hill battle against an unknown evil rooted within their town. Award-winning comics creators Evan Dorkin (Milk & Cheese) and Jill Thompson (Scary Godmother) come together to share the lives of some unlikely heroes. "For pet lovers and enthusiasts of supernatural mysteries, the series is an absolute must. . . The surprise factor within this series is not the suspense or horror, but rather the emotional resonance that the writing and illustrations create. . . Beasts of Burden is one of the comic book highlights of 2009."--USA Today

One bad corpse can ruin your whole day. Rhiannon Murphy left behind the flash and sass of Miami for the no-nonsense groove of New York City, eager for a clean slate and a fresh start. A bartender by trade, a loud mouth by choice, and a necromancer by chance; she managed to keep her nifty talent hidden from those around her -- until now. The deliciously good-looking vampire, Disco, knows her secret. When he strolls into her bar to solicit help investigating the mysterious disappearances of his kind from the city, Rhiannon discovers he's not the kind of person that appreciates the significance of the word no. But in a world where vampires peddle their blood as the latest and greatest drug of choice, it's only a matter of time before the next big thing hits the market. Someone or something is killing vampires to steal their hearts, and unlike Rhiannon, this isn't their first stroll around the undead block. \*\*Warning. Contains coarse language, violence, sexual situations, violence. For mature audiences only.\*\*

Improve your most important relationships—starting today. At the end of the day in this all-too-short life, what matters most is relationships. Spouse, parent, child, friend—whoever your closest loved ones are, they warrant more than a passing glance; they deserve an intentional and meaningful relationship with you. The One Month to Love thirty-day challenge is the greatest adventure you'll ever take, helping you deepen the important relationships in your life. Authors Kerry and Chris Shook use timeless, biblical wisdom to walk through three stages of relationships: First Glance, Second Look, and Lasting Love. Many of us have launched into the exciting First Glance phase. When we then tiptoe into the Second Look, reality sets in, and often friendships weaken, families suffer, marriages crack. Now learn how to experience the deep, satisfying lifelong relationships of lasting love. All it takes is one chapter a day. If your marriage is broken, restoration is possible. If your friendship is frail, a fresh start is possible. Even if you've made mistakes in all your relationships, lasting love is still possible. "With God all things are possible" (Matthew 19:26). Includes a weekly focus and daily readings to guide you through the process. Updated annually, this PDR reference covers the most commonly used drugs for which no prescription is required, providing FDA-approved information on analgesics, cough and cold preparations, fever reducers, allergy medications and more.

Since its publication in the early 90s, Brenda Boardman's Fuel Poverty has been the reference text for those wishing to learn about this complex subject. In this, its successor, she turns a critical eye to the new millennium and finds that the situation, while now more widely recognised, is far from having improved. The book begins by discussing the political awakening to the issue and exploring just who constitutes the fuel poor. It examines the factors that contribute to fuel poverty - low incomes, high fuel prices and poor quality housing - and looks at and evaluates the policies that have been employed to help reduce the problem. The latter part presents a detailed set of proposals based around long-term improvements in the housing stock that must be employed if we are to avoid a dire situation continuing to get worse. Based on detailed analysis of the situation in the UK, the growth of fuel poverty (sometimes called energy poverty) in other countries and the new focus in European policy makes the book timely and provides important lessons for those who now have to produce policies to tackle the issues.

Challenging the assumption that the capitalist transformation includes a radical break with the past, this edited volume traces how historically older forms of social inequality are transformed but persist in the present to shape the social structure of contemporary societies in the global South. Each social collective comprises an interpretation of itself – including the meaning of life, the concept of a human person, and the notion of a collective. This volume studies the interpretation that various social collectives have of themselves. This interpretation is referred to as social ontology. All chapters of the edited volume focus on the relation between social ontology and structures of inequality. They argue that each society comprises several historical layers of social ontology that correspond to layers of inequality, which are referred to as sociocultures. Thereby, the volume explains why and how structures of inequality differ between contemporary collectives in the global South, even though all of them seem to have similar structures, institutions, and economies. The volume is aimed at academics, students and the interested public looking for a novel theorization of social inequality pertaining to social collectives in the global South.

Quin: Finder, healer, student, teacher, lover, pirate— BlackWing "My life in Gungl began a moon-turn later, when I was finally able to pull myself out of bed without crushing grief slamming into me and causing me to collapse. The following day, my plan for revenge against Vardil Cayetes, the man responsible for Siriaa's destruction, began." \* \* \* Siriaa has been destroyed at the command of an enraged criminal. The poison infecting that planet has been flung into the universe, landing upon hapless worlds in its path. The Orb has dropped Quin onto another world five years in the future, where she is compelled to seek revenge against Vardil Cayetes, the one responsible for Siriaa's destruction. From a crumbling, lawless world to one held in the tight fists of a criminal alliance, a disguised Quin searches for her enemy, whose only concern is keeping his life, no matter the cost to others. Quin and another innocent become targets when the enemy learns of the danger they represent. Will Cayetes succeed in his assassination attempts? Not even the gods can predict the outcome.

Although the idea of class is again becoming politically and culturally charged, the relationship between media and class remains understudied. This diverse collection draws together prominent and emerging media scholars to offer readers a much-needed orientation within the wider categories of media, class, and politics in Britain, America, and beyond. Case studies address media representations and media participation in a variety of platforms, with attention to contemporary culture: from celestoids to selfies, Downton Abbey to Duck Dynasty, and royals to reality TV. These scholarly but accessible accounts draw on both theory and empirical research to demonstrate how different media navigate and negotiate, caricature and essentialize, or

contain and regulate class.

Japan in World History ranges from Japan's prehistoric interactions with Korea and China, to the Western challenge of the late 1500s, the partial isolation under the Tokugawa family (1600-1868), and the tumultuous interactions of more recent times, when Japan modernized ferociously, turned imperialist, lost a world war, then became the world's second largest economy--and its greatest foreign aid donor. Writing in a lively fashion, Huffman makes rich use of primary sources, illustrating events with comments by the people who lived through them: tellers of ancient myths, court women who dominated the early literary world, cynical priests who damned medieval materialism, travelers who marveled at "indecent" Western ballroom dancers in the mid-1800s, and the emperor who justified Pearl Harbor. Without ignoring standard political and military events, the book illuminates economic, social, and cultural factors; it also examines issues of gender as well as the roles of commoners, samurai, business leaders, novelists, and priests.

An expert on management thinking, Adair helps managers and leaders of all levels ensure that the best decisions are taken, that problems are solved in the optimum way, and that creative ideas and innovations are encouraged in order to help businesses succeed. 144.

A free open access ebook is available upon publication. Learn more at [www.luminosoa.org](http://www.luminosoa.org) This sweeping book details the extent to which the legal revolution emanating from the US has transformed legal hierarchies of power across the globe, while also analyzing the conjoined global histories of law and social change from the Middle Ages to today. It examines the global proliferation of large corporate law firms—a US invention—along with US legal education approaches geared toward those corporate law firms. This neoliberal-inspired revolution attacks complacent legal oligarchies in the name of America-inspired modernism. Drawing on the combined histories of the legal profession, imperial transformations, and the enduring and conservative role of cosmopolitan elites at the top of legal hierarchies, the book details case studies in India, Hong Kong, South Korea, Japan, and China to explain how interconnected legal histories are stories of both revolution and reproduction. Theoretically and methodologically ambitious, it offers a wholly new approach to studying interrelated fields across time and geographies.

“Fascinating profiles” of remarkable nuns, from an eighty-three-year-old Ironman champion to a crusader against human trafficking (Daily News [New York]). “In an age of villainy, war and inequality, it makes sense that we need superheroes,” writes Nicholas Kristof of The New York Times. “And after trying Superman, Batman and Spider-Man, we may have found the best superheroes yet: Nuns.” In *If Nuns Ruled the World*, veteran reporter Jo Piazza overthrows the popular perception of nuns as killjoy schoolmarms, instead revealing them as the most vigorous catalysts of change in an otherwise repressive society. Meet Sister Simone Campbell, who traversed the United States challenging a Congressional budget that threatened to severely undermine the well-being of poor Americans; Sister Megan Rice, who is willing to spend the rest of her life in prison if it helps eliminate nuclear weapons; and the inimitable Sister Jeannine Gramick, who is fighting for acceptance of gays and lesbians in the Catholic Church. During a time when American nuns are often under attack from the very institution to which they devote their lives—and the values of the institution itself are hotly debated—these sisters offer thought-provoking and inspiring stories. As the Daily Beast put it, “Anybody looking to argue there is a place for Catholicism in the modern world should just stand on a street corner handing out Piazza’s book.”

This book features Ranking Task exercises - an innovative type of conceptual exercise that challenges readers to make comparative judgments about a set of variations on a particular physical situation. Two-hundred-and-eighteen exercises encourage readers to formulate their own ideas about the behavior of a physical system, correct any misconceptions they may have, and build a better conceptual foundation of physics. Covering as many topic domains in physics as possible, the book contains Kinematics Ranking Tasks, Force Ranking Tasks, Projectile and Other Two-Dimensional Motion Ranking Tasks, Work-Energy Ranking Tasks, Impulse-Momentum Ranking Tasks, Rotation Ranking Tasks, SHM and Properties of Matter Ranking Tasks, Heat and Thermodynamics Ranking Tasks, Electrostatics Ranking Tasks, DC Circuit Ranking Tasks, Magnetism and Electromagnetism Ranking Tasks, and Wave and Optics Ranking Tasks. For anyone who wants a better conceptual understanding of the many areas of physics.

From bunnies and bears to Russian dolls and robots, discover a unique range of over 20 adorable little knitted characters, each packed with personality and individual charm. The softly colored characters are a joy to knit, and their fun size is perfect for gift giving or as a quirky home accent. The projects combine simple knits with cute fabric appliqué accents to add that extra element not always found in traditional toy knitting titles. Clear instructions, fun narrative text and sweet photography speak to all knitters, regardless of level.

Part 2B of the FRCR examination for trainee radiologists involves six 'long cases', which can contain images of any body system and any imaging modality: plain film, CT, MRI, ultrasound, nuclear medicine and contrast studies. *FRCR 2B: A Guide to the Long Cases* contains 60 highly illustrated long cases and answers, organised into 10 sets of 6 cases. The cases are based on the format of the exam and the answers are at the level of detail the candidate would be expected to provide in the time allocated. An introductory section explains the College's marking scheme and advises on the best approach to the long cases and how to structure an answer. A succinct topic review is provided with each case. Jointly edited by a successful FRCR fellow and an experienced consultant radiologist, *FRCR 2B: A Guide to the Long Cases* is essential reading for all exam candidates.

The State of the Art in High-Power Laser Technology Filled with full-color images, *High-Power Laser Handbook* offers comprehensive details on the latest advances in high-power laser development and applications. Performance parameters for each major class of lasers are described. The book covers high-power gas, chemical, and free-electron lasers and then discusses semiconductor diode lasers, along with the associated technologies of packaging, reliability, and beam shaping and delivery. Current research and development in solid-state lasers is described as well as scaling approaches for high CW powers, high pulse energies, and high peak powers. This authoritative work also addresses the emergence of fiber lasers and concludes by reviewing various methods for beam combining. Coverage Includes: Carbon dioxide lasers Excimer lasers Chemical lasers High-power free-electron lasers Semiconductor laser diodes High-power diode laser arrays Introduction to high-power solid-state lasers Zig-zag slab lasers ThinZag high-power laser development Thin disk lasers Heat capacity lasers Ultrafast solid-state lasers Ultrafast lasers in the thin disk geometry The National Ignition Facility laser Optical fiber lasers Pulsed fiber lasers High-power ultrafast fiber laser systems High-power fiber lasers for industry and defense Beam combining

Essays in this volume explore the popular cultural effects of rock culture on high literary production in Spain in the 1990s.

*Capitalism and Inequality* rejects the popular view that attributes the recent surge in inequality to a failure of market institutions. Bringing together new and original research from established scholars, it

analyzes the inequality inherent in a free market from an economic and historical perspective. In the process, the question of whether the recent increase in inequality is the result of crony capitalism and government intervention is explored in depth. The book features sections on theoretical perspectives on inequality, the political economy of inequality, and the measurement of inequality. Chapters explore several key questions such as the difference between the effects of market-driven inequality and the inequality caused by government intervention; how the inequality created by regulation affects those who are less well-off; and whether the economic growth that accompanies market-driven inequality always benefits an elite minority while leaving the vast majority behind. The main policy conclusions that emerge from this analysis depart from those that are currently popular. The authors in this book argue that increasing the role of markets and reducing the extent of regulation is the best way to lower inequality while ensuring greater material well-being for all sections of society. This key text makes an invaluable contribution to the literature on inequality and markets and is essential reading for students, scholars, and policymakers.

This volume examines diverse meanings and practices of risk management ranging from austerity to climate change to housing and debt. The authors investigate the relationship between shifts in contemporary capitalism and the ways in which neoliberal forms of risk management have emerged, been reproduced and normalized, and, transformed historically.
