

Nordkraft

Biography of Aida Komkaite, currently medarbejder at Cafe KUL Nordkraft, previously Guide for Camp Carnival at Aalborg University and Artist at Transformator, Aalborg Teater.

Two young men from very different backgrounds. Christian is the son of Danish ex-pats; Marcus works as a house boy for a Swedish family, hoping they will eventually take him back to Europe with them. Their friendship defines a divided continent. When they decide to go into business together--a teenage dream of playing at discos--they unwittingly set a collision course. But will it be love or money that tears the two apart? Spanning a decade from the dawn of the 1980s, the story of Marcus and Christian's dissolving friendship plays out amid a vast cast of characters, all fighting to make their way in a country defined by corruption. As the Tanzanian authorities and European aid agencies compete to line their own pockets, the rise of 'the disease' threatens to lay waste to an already stricken continent.

Revolution is a collection of eleven short stories that act as a vital bridge between the novels Exile and Liberty. But it is also so much more than that. Ejersbo had a remarkable and unaffected talent for getting inside the heads of his characters: Moses, a worker in a Tanzanite mine who lives in hope of striking it rich; Sofie, a Greenlander who joins a French conman on his trip around the world; Rachel, who tries to make a life for herself in a city where everyone sees her as a whore in waiting. You feel that Ejerbo could have written from the heart of every person living in Tanzania; and that you could go on reading them forever.

At the urban scale the harbour is a grandiose meeting between the town and the fjord landscape, representing an interesting interface between the local life and the big world. Here we still have a great variety of old and new architectural typologies. This scenery calls for quality. The waterfront is a common gift for all citizens and it has been the gateway for hopes for a better life and a meeting place between "tradition" and "the new". In 2005 the "Harbourscape Aalborg" workshop and conference took place at Aalborg University with the participation of 45 architects, engineers and planners from Denmark, Norway, the Netherlands and the United Kingdom. The aim was to develop visionary strategies and design proposals emphasising the concepts of the development and regeneration of the waterfront in Aalborg. This book provides a comprehensive presentation of the different methodological approaches and the resulting design concepts. The aim has been to investigate a full-scale dialogue on concepts and architectural quality in the waterfront development among stakeholders in this process, and to illustrate how different design-based methods can serve as tools in the said process. Harbourscape does not provide architectural solutions to well defined problems and projects. It is an eye-opener towards new concepts in waterfront development and the use of design-based methods in regeneration

projects -- provided by young architects as well as more experienced designers and academics.

Pa hvilken made kan man tale om et classesamfund i Danmark i dag? Og betyder klasse overhovedet noget i det nuværende samfund? Hovedpointen i bogen Det skjulte classesamfund er, at skarpe sociale skel fortsat eksisterer - de er blot mindre åbenlyse end tidligere. Inspireret af Pierre Bourdieus ideer om social differentiering og med byen Ålborg som empirisk holdepunkt undersøger forfatterne, hvordan classesamfundet og klasseidentitet har betydning i danskernes hverdag - og hvordan den enkelte iscenesætter og kommunikerer sit klassebærelse tilhørsforhold via symbolske grænseindringer og gennem de mange valg, der samlet set definerer ens livsstil, forbrug, smag, kulturelle præferencer samt moralske og politiske holdninger. Samtidig illustreres det, hvordan klasse også viser sig som en erfaring, vi hver især bærer i kroppen. Bogen vil være af interesse for alle, der beskæftiger sig med eller interesserer sig for klasser og social ulighed.

Nordkraft er en roman om en gruppe unge, der lever på begge sider af grænsen. Nordkraft foregår i Aalborg, i første halvdel af halvfemserne, blandt misbrugere og pushere, drømmere, kynikere og fortabte forældre, som alle sammen kun lige akkurat kan holde skindet på næsen, hvis de lader være med at se sig tilbage. Anmelderne skrev: "Det smukkeste og mest forførende vidnesbyrd, der endnu er skrevet på dansk om generationen, der skulle være blevet voksen i løbet af 1990'erne. Seks stjerner (ud af seks)." Berlingske Tidende "Den kan komme til at stå som 2000-årenes Hærværk." Politiken

Digital computers have been used more and more to control different industrial processes during the last decade. As of today, many systems are designed to include a process control computer as a vital part. The use of computers has created a need for sophisticated methods for the operation and supervision of complex industrial processes. To summarize the state of the art from the practical as well as from the theoretical point of view, the 4th IFAC/IFIP International Conference on "Digital Computer Applications to Process Control" will be held at Zurich from March 19 to 22, 1974. The first two volumes of the proceedings contain the accepted papers submitted to the conference mentioned above. The papers are arranged according to the topics of the conference. A third volume will include the six following survey papers: 1. Digital Control Algorithms Prof. A. P. Sage, Dallas Texas / USA 2. Interface Problems for Process Control Prof. T. J. Williams, Lafayette Indiana / USA 3. Software for Process Computers Dr. J. Gertler, Budapest / Hungary Dr. J. Sedlak, Prague / CSSR 4. Digital Computer Applications in Metallurgical Processes Mr. W. E. Miller, Salem / USA Mr. W. G. Wright, Schenectady / USA 5. Digital Computer Applications in Power Systems Mr. D. Ernst, Erlangen / FRG 6. Digital Computer Applications in Chemical and Oil Industries Dr. H. Amrehn, Marl / FRG We hope, that the publication of these papers from specialists.

Deals with the occurrence and development of unreliable first-person narration in twentieth century Western literature. p>Für die 3. Auflage des DuMont Reise-Handbuches war Autor Hans Klüche wieder intensiv vor Ort unterwegs. So fehlen das neue Nationalaquarium „Danmarks Akvarium – Den Blå Planet“ in Kopenhagen ebenso wenig wie das erst im Herbst 2013 eröffnete, architektonisch einzigartige M/S Museet for Søfart, das nationale Seefahrtsmuseum im Kulturhafen von Helsingør. br />Von der Nordseeküste bis Nordseeland, Bornholm und Kopenhagen werden alle sehenswerten Regionen und Städte beschrieben. Zu jedem Kapitel präsentiert eine Doppelseite »Auf einen Blick« die

Highlights, die schönsten Routen, aktive Naturerlebnisse und besondere Tipps des Autors. Ort für Ort hat Hans Klüche ausgesuchte Unterkünfte, Restaurants oder Einkaufsadressen zusammengestellt, die in den Cityplänen eingezeichnet sind. Viel Wert legt er darauf, die Dynamik der neuen nordischen Küche einzufangen. Wanderungen und Paddeltouren erschließen die schönsten Landschaften, etwa die faszinierenden Kreideklippen auf Møn oder das Seeland mit der Suså, unter Dänen längst populär, von deutschen Urlaubern aber bisher kaum entdeckt. Viel Wissenswertes über Dänemark, über seine Geschichte und Gegenwart oder den Alltag der Menschen, lässt sich in der einführenden Landeskunde wie in den eingestreuten Themenseiten nachlesen. Für eine rasche Orientierung sorgen die detaillierte Extra-Reisekarte im Maßstab 1:450.000, eine Übersichtskarte mit den Highlights sowie 26 Citypläne, Wander- und Routenkarten. /p>

Ecology and Contemporary Nordic Cinemas uses a range of analytical approaches to interrogate how the traditional socio-political rhetoric of national cinema can be rethought through ecosystemic concerns, by exploring a range of Nordic films as national and transnational, regional and local texts--all with significant global implications. By synergizing

transnational theories with ecological approaches, the study considers the planetary implications of nation-based cultural production.

In this new edition of *Renewable Energy Systems*, globally recognized renewable energy researcher and professor, Henrik Lund, sets forth a straightforward, comprehensive methodology for comparing different energy systems' abilities to integrate fluctuating and intermittent renewable energy sources. The book does this by presenting an energy system analysis methodology. The book provides the results of more than fifteen comprehensive energy system analysis studies, examines the large-scale integration of renewable energy into the present system, and presents concrete design examples derived from a dozen renewable energy systems around the globe. *Renewable Energy Systems, Second Edition* also undertakes the socio-political realities governing the implementation of renewable energy systems by introducing a theoretical framework approach aimed at understanding how major technological changes, such as renewable energy, can be implemented at both the national and international levels. Provides an introduction to the technical design of renewable energy systems Demonstrates how to analyze the feasibility and efficiency of large-scale systems to help implementers avoid costly trial and error Addresses the socio-political challenge of implementing the shift to renewables Features a dozen extensive case studies from around the globe that provide real-world templates for new installations

Since the late 1960s, the novels of Sjöwall and Wahlöö's Martin Beck detective series, along with the works of Henning Mankell, Håkan Nesser and Stieg Larsson, have sparked an explosion of Nordic crime fiction—grim police procedurals treating urgent sociopolitical issues affecting the contemporary world. Steeped in noir techniques and viewpoints, many of these novels are reaching international audiences through film and television adaptations. This reference guide introduces the world of Nordic crime fiction to English-speaking readers. Caught between the demands of conscience and societal strictures, the detectives in these stories—like the heroes of Norse mythology—know that they and their world must perish, but fight on regardless of cost. At a time of bleak eventualities, Nordic crime fiction interprets the bitter end as a celebration of the indomitable human spirit.

JAKOB VAR HER er historien om Jakob Ejersbo. En rodløs dreng, der hverken følte sig hjemme i Nordjylland eller Tanzania. En teenager, som desperat ledte efter kærlighed og en vej i livet. En ung mand, der fandt en ny familie i venner og bekendte fra Aalborgs underverden. JAKOB VAR HER er fortællingen om en skribent, som ingen længe troede på. En kompromisløs sjæl, der brændte broer i bestræbelserne på at gøre sine bøger så stærke og rå som muligt. En forfatter, der – på tærsklen til at se sit livsværk fuldbragt – blev stoppet af uhelbredelig sygdom. JAKOB VAR HER handler om børn, der flyttes rundt, til de ikke længere kan slå rødder. Om at tabe sit hjerte for foden af Afrikas højeste

bjerg. Om ikke at kunne elske, før fortiden er skrevet ud af systemet. Om mennesker, der udnytter hinanden. Om virkelighed og fiktion, der smelter sammen, til ingen til sidst kan kende forskel. Om at ville noget i en grad, så kun døden kan komme i vejen.

Nordmeerreich Dänemark Der Baedeker Dänemark begleitet durchs Wikinger-Land, das mit viel Natur und schönen Stränden begeistert. Das Kapitel Hintergrund beschäftigt sich mit Wissenswertem über Dänemark, über Land und Leute, über Wirtschaft und Geschichte, Gesellschaft und Alltagsleben. Was sind die typischen Gerichte und wo kann man sie probieren? Was kann man mit Kindern unternehmen? Antworten auf diese, und viele andere Fragen gibt das Kapitel "Erleben und Genießen". Entdecken Sie Dänemark unterwegs: Vier Baedeker-Tourenvorschläge lotsen sie zu kilometerlangen Stränden, Schlössern und Museen und natürlich in herrliche Wandergebiete. Orte, die man auf keinen Fall verpassen sollte, sind im großen Kapitel Sehenswürdigkeiten von A - Z ausführlich beschrieben. Infografiken erklären bildhaft u.a. Dänemark auf einen Blick, Kult im Kinderzimmer und Energieinseln. Einzigartige 3D-Darstellungen geben lebendige Eindrücke in ausgewählte Bauwerke wie in das Märchen schloss Rosenborg Slot, der Dom von Roskilde und einem wahren Hengst von Wikingerschiff. Die Baedeker-Tipps verraten, wie man Kopenhagen am einfachsten erobert, wo man die Schnapsroute findet und wo man eine Zeitreise ins Mittelalter machen kann.

For the vagabond pack of ex-pat Europeans, Indian Tanzanians and wealthy Africans at Moshi's International School, it's all about getting high, getting drunk and getting laid. Their parents--drug dealers, mercenaries and farmers gone to seed--are too dead inside to give a damn. Outwardly free but empty at heart, privileged but out of place, these kids are lost, trapped in a land without hope. They can try to get out, but something will always drag them back--where can you go when you believe in nothing and belong to nowhere?

Fortælling fra narkomiljøet i Aalborg i første halvdel af halvfemserne, hvor en række skæbner følges på deres vej mod bunden
