Based on the premise that students can learn a great deal by reading and writing a newspaper, this book was created by preservice instructors to teach upper elementary students (grades 3-5) newspaper concepts, journalism, and how to write newspaper articles. It shows how to use newspaper concepts to help students integrate knowledge from multiple disciplines as they write about current events and the lives of others in an unbiased and accurate way. Based on the Newspaper in Education program--a cooperative venture between newspaper publishers and schools that offers newspaper activities to teach reading and content skills and strategies--the book takes the concept further and incorporates a focus on writing. The result of these lessons is an actual newspaper that students can publish for their classroom or school. Following an Introduction, the book's seven chapters are as follows: (1) Background Information for Teachers; (2) Teaching Journalism Basics; (3) Interviewing, Writing Quotes, and Using Figurative Language; (4) Elements and Organizational Structure of News Stories; (5) Writing Different Types of Newspaper Stories; (6) The Final Steps: Revision, Editing,

The Advocate is a lesbian, gay, bisexual, transgender (LGBT) monthly newsmagazine. Established in 1967, it is the oldest continuing LGBT publication in the United States.

Inspired by his blog of the same name (which is inspired by what the author considers to be one of the great all-time "Simpsons" quotes), *So, Do You Like ... Stuff?* is a collection of Mike Kenny's funniest material. Follow the author as he questions whether or not he picked up the correct child from daycare. Watch and learn as he interprets nonsensical hit songs. Feel for him as he attempts to accomplish the mundane tasks assigned to him by his father-in-law. Hide in fear with him as he passively fights off grizzly bears by hoping they go away. *So, Do You Like ... Stuff?* is a compilation of newly improved, reedited columns and blog posts, as well as original, previously unreleased material. "Stuff" may cover a wide range of topics, but the themes here are common to everyone—family, work, health, ... cat condominiums. The usual. Just, unusually funny.

Exploring poetry scrapbooks, old-time radio show recordings, advertising verse, corporate archives, and Hallmark greeting cards, among other unconventional sources, Mike Chasar casts American poetry as an everyday phenomenon consumed and created by a vast range of readers. He shows how American poetry in the first half of the twentieth century and its reception helped set the stage for the dynamics of popular culture and mass media today.

Poetry was then part and parcel of American popular culture, spreading rapidly as the consumer economy expanded and companies exploited its profit-making potential. Poetry also offered ordinary Americans creative, emotional, political, and intellectual modes of expression, whether through scrapbooking, participation in radio programs, or poetry contests.

Reenvisioning the uses of twentieth-century poetry, Chasar provides a richer understanding of the innovations of modernist and avant-garde poets and the American reading public's sophisticated powers of feeling and perception.

This book argues that journalism should treat itself as an academic discipline on a par with history, geography and sociology, and as an art form in its own right. Time, space, social relations and imagination are intrinsic to journalism. Chris Nash takes the major flaws attributed to journalism by its critics—a crude empiricism driven by an un-reflexive ‘news sense’; a narrow focus on a de-contextualised, transient present; and a too intimate familiarity with powerful sources—and treats them as methodological challenges. Drawing on the conceptual frameworks of Pierre Bourdieu, David Harvey, Henri Lefebvre, Michel-Rolph Trouillot and Gaye Tuchman, he explores the ways in which rigorous journalism practice can be theorised to meet these challenges. The argument proceeds through detailed case studies of work by two leading iconoclasts—the artist Hans Haacke and the 20th century journalist I.F. Stone. This deeply provocative and original study concludes that the academic understanding

of journalism is fifty years behind its practice, and that it is long past time for scholars and practitioners to think about journalism as a disciplinary research practice. Drawing on an award-winning professional career and over three decades teaching journalism practice and theory, Chris Nash makes these ideas accessible to a broad readership among scholars, graduate students and thoughtful journalists looking for ways to expand the intellectual range of their work.

The Encyclopedia of American Journalism explores the distinctions found in print media, radio, television, and the internet. This work seeks to document the role of these different forms of journalism in the formation of America's understanding and reaction to political campaigns, war, peace, protest, slavery, consumer rights, civil rights, immigration, unionism, feminism, environmentalism, globalization, and more. This work also explores the intersections between journalism and other phenomena in American Society, such as law, crime, business, and consumption. The evolution of journalism's ethical standards is discussed, as well as the important libel and defamation trials that have influenced journalistic practice, its legal protection, and legal responsibilities. Topics covered include: Associations and Organizations; Historical Overview and Practice; Individuals; Journalism in American History; Laws, Acts, and Legislation; Print, Broadcast, Newsgroups, and Corporations; Technologies.

In the wake of Pearl Harbor, President Roosevelt called for the largest arms buildup in our nation's history. A shortage of steel, however, quickly slowed the program's momentum, and arms production fell dangerously behind schedule. The country needed scrap metal. Henry Doorly, publisher of the Omaha World-Herald, had the solution. *Prairie Forge* tells the story of the great Nebraska scrap drive of 1942—a campaign that swept the nation and yielded five million tons of scrap metal, literally salvaging the war effort itself. James J. Kimble chronicles Doorly's conception of a fierce competition pitting county against county, business against business, and, in schools across the state, class against class—inspiring Nebraskans to gather 67,000 tons of scrap metal in only three weeks. This astounding feat provided the template for a national drive. A tale of plowshares turned into arms, *Prairie Forge* gives the first full account of how home became home front for so many civilians.

A case-centred study of Phantom Hitch-Hikers & Phantom Jaywalkers in Folklore and Fact. Tales of Phantom Hitch-Hikers are found the world over. But is there anything more to them than the staple of contemporary folklore they appear to be? Cases like Blue Bell Hill suggest there is. Here, and in numerous other modern cases, witnesses report vivid and terrifying encounters with solid-looking figures that step into the paths of their vehicles. These events show an affinity with the legendary Phantom Hitch-Hiker, suggesting that far from being mere vestiges of a superstitious folk tradition, they may reflect a genuine but complex phenomenon that continues to manifest in modern times and settings, and challenges our very notions of reality. This book traces Blue Bell Hill's ghost from its roots in folklore to compelling fact, with nearly 50 witness accounts attesting to it as an important modern example of haunting on record, and arguably the foremost case of its kind in the world today.

Preparing students to be active, informed, literate citizens is one of the primary functions of public schools. But how can students become engaged citizens if they can't read, let alone understand, their social studies texts? What can educators--and social studies teachers in particular--do to help students develop the knowledge, skills, and motivation to become engaged in civic life? Building Literacy in Social Studies addresses this question by presenting both the underlying concepts and the research-based techniques that teachers can use to engage students and build the skills they need to become successful readers,

critical thinkers, and active citizens. The authors provide targeted strategies--including teaching models, graphic organizers, and step-by-step instructions--for activities such as \* Building vocabulary, \* Developing textbook literacy skills, \* Interpreting primary and secondary sources, \* Applying critical thinking skills to newspapers and magazines, and \* Evaluating Internet sources. Readers will also learn how to organize classrooms into models of democracy by creating learning communities that support literacy instruction, distribute authority, encourage cooperation, and increase accountability among students. Realistic scenarios depict a typical social studies teacher's experience before and after implementing the strategies in the classroom, showing their potential to make a significant difference in how students respond to instruction. By making literacy strategies a vital part of content-area instruction, teachers not only help students better understand their schoolwork but also open students' eyes to the power that informed and engaged people have to change the world.

This “extraordinary history” of the influential black newspaper is “deeply researched, elegantly written [and] a towering achievement” (Brent Staples, *New York Times Book Review*). In 1905, Robert S. Abbott started printing *The Chicago Defender*, a newspaper dedicated to condemning Jim Crow and encouraging African Americans living in the South to join the Great Migration. Smuggling hundreds of thousands of copies into the most isolated communities in the segregated South, Abbott gave voice to the voiceless, galvanized the electoral power of black America, and became one of the first black millionaires in the process. His successor wielded the newspaper's clout to elect mayors and

presidents, including Harry S. Truman and John F. Kennedy, who would have lost in 1960 if not for The Defender's support. Drawing on dozens of interviews and extensive archival research, Ethan Michaeli constructs a revelatory narrative of journalism and race in America, bringing to life the reporters who braved lynch mobs and policemen's clubs to do their jobs, from the age of Teddy Roosevelt to the age of Barack Obama. "[This] epic, meticulously detailed account not only reminds its readers that newspapers matter, but so do black lives, past and present." —USA Today

It was massive beyond all comprehension, it was incredibly cheap, it had everything in stock—it was Sears, Roebuck & Co. at the turn of the twentieth century. Oh, and it had a few kinks to work out. As one customer reportedly complained: "For heaven's sake, quit sending me sewing machines. Every time I go to the station I find another one there. You have shipped me five already." But the company would gain a handle on its rapid growth and develop a reputation for efficiency and customer satisfaction. The catalog selection exploded to include all sorts of categories, from watches and jewelry to sporting goods, firearms, furniture, shoes, clothes, toiletries, toys, and almost anything else imaginable—including, of course, Dr. Hammonds Nerve and Brain Tablets, billed as the "Great Remedy for Weak Men," for all those neurological disturbances
