This book will cover both the evidence for biofilms in many chronic bacterial infections as well as the problems facing these infections such as diagnostics and treatment regimes. A still increasing interest and emphasis on the sessile bacterial lifestyle biofilms has been seen since it was realized that that less than 0.1% of the total microbial biomass lives in the planktonic mode of growth. The term was coined in 1978 by Costerton et al. who defined the term biofilm for the first time. In 1993 the American Society for Microbiology (ASM) recognised that the biofilm mode of growth was relevant to microbiology. Lately many articles have been published on the clinical implications of bacterial biofilms. Both original

extensive body of accumulated knowledge in eight broad chapters which includes: the patient's involvement in disease control and prevention, the clinician's instrumentation for the diagnosis and basic treatment of gingivitis/periodontitis along with pharmacotherapeutics and supportive maintenance therapy to ensure long-term success. Numerous illustrations help to bring the presented ideas and suggestions to life and the succinct nature of the text will allow readers to transfer useful information quickly to their own clinical settings.

Various antiseptic agents, such as chlorhexidine, are used for different applications, e.g. in healthcare, veterinary medicine, animal production and household products, including cosmetics. However, not all antiseptic agents provide significant health benefits, especially in some products used in human medicine (alcohol-based hand rubs, antimicrobial soaps). While some products (antimicrobial soaps, surface disinfectants, instrument disinfectants, wound antiseptics) may contain one or more biocidal agents with a comparable antimicrobial efficacy but large differences in their potential for microbial adaptation and tolerance. An increased bacterial resistance has been described for various antimicrobial agents, sometimes including a cross-resistance to antibiotics. The book is the first comprehensive reference resource on antiseptic

agents, including their efficacy, natural and acquired resistance, adaptation, and cross-resistance. It also discusses their and appropriate use in terms of a balance between their efficacy and the risk of acquired bacterial resistance / tolerance. Focusing on human and veterinary medicine and household products, it helps readers make informed decisions concerning against antiseptic products based on their composition. The book contributes to reduce any unnecessary selection pressure towards emerging pathogens and to keep the powerful antiseptic agents for all those applications that have a clear benefit (e.g. reduction of healthcare-associated infection).

Architecture Itself and Other Postmodernist Myths' brings together an array of building fragments, drawings, models, and primary source documents, to present canonic projects from an unexpected and unfamiliar point of view. The exhibition challenges the typical narrative of the heroic architect by revealing a counter-reading of postmodern procedures. The purpose is simultaneously to deflate the postmodern mythologizing of the architect and inflate the importance of empirically describable architectural activity. In so doing, the exhibition will make original contributions both to a counter-historiography of the postmodern and to contemporary curatorial method. A broad selection of material evidence -- gathered from building sites, libraries, and archives -- supports accounts of architects' and architecture's entanglements with bureaucracy, the art market, and academic and private institutions, as postmodernization challenged the discipline to redefine its modes of practice and reconsider the very idea of architecture itself.00Exhibition: CCA, Montréal, Canada (07.11.2018 - 07.04.2019).

The life of legendary Swiss photographer Ernst Moiré is so shrouded in speculation that he sometimes seems more like a phantasm than the flesh-and-blood figure whose name will forever be linked with the well-known printer's error. Yet as scholar Lytle Shaw reveals in *The Moiré Effect*, when it comes to Monsieur Moiré and his circle, fact is often stranger than fiction. Tracking the artist from his humble Alpine beginnings as the son of a postal clerk to his fateful founding of a Zurich photography studio in the 1890s and his subsequent role in the lives of a number of curious figures--including the legendary Dutch architect Mer Awsümbildungs, the theosophist philosopher Rudolf Steiner and several members of the secretive Chadwick family--*The Moiré Effect* takes readers on a journey from the elegant salons of Swiss palazzi to the dusty bowels of ancient archives to a conclusion as hair-raising as it is oblique.

This guide aims to aid people interested in learning to work with BASH. It aspires to teach good practice techniques for using BASH, and writing simple scripts. This guide is targeted at beginning users. It assumes no advanced knowledge -- just the ability to login to a Unix-like system and open a command-line (terminal) interface. It will help if you know how to use a text editor; we will not be covering editors, nor do we endorse any particular editor choice. Familiarity with the fundamental Unix tool set, or with other programming languages or programming concepts, is not required, but those who have such knowledge may understand some of the examples more quickly.

In the oeuvre of New York artist Moyra Davey (born 1958), literature and writing are as significant as photography, film, and video. In her latest text, 'Burn the Diaries', Davey considers the work of French playwright and political activist Jean Genet (1910–1986), among other texts, while examining fugitive moments from her own life. An essay by her childhood friend and reading companion Alison Strayer, written in response, reflects on Davey's themes. The publication is part of a group of new works — that includes photographs, a film, and an installation of her signature mailers - and can be read both as an artist's book and a catalogue to accompany the exhibition at mumok, Vienna,
