About Gakken Gakken is the number 1 educational publisher in Japan. Founded in 1946 by Hideto Furuoka, the mission of Gakken has always been to produce fun-first, educational materials for children. Gakken is well-known to Asian families for its bestselling workbooks. Gakken is also well-respected in academic circles - publishing popular teaching materials for preschools, kindergartens, and primary schools. In addition to its substantial publishing business, Gakken also runs 14,000 learning centers called "Gakken Classrooms" and operates nursery schools - all

inspired by the successful formula used in their workbooks. Play Smart's philosophy rewards success and builds confidence. Created by educational experts, this award-winning Play Smart series uses Gakken's unique fun-first method of completing age-appropriate activities that are progressively more challenging, building on small achievements, and fostering an eagerness to learn. The variety of activities leads to creative problem-solving skills and prepares children for the journey of lifelong learning.

Children go crazy for Sticker by Numbers, an innovative new series that takes stickers to a whole new level. Simply match the colored stickers to the numbers on each page to create stunning works of art. This special junior version features larger stickers that are easy to grasp for smaller artists. With over 650 stickers, children can create rocket ships, flowers, butterflies, sailboats, and much more. Move over, coloring books! Here's an entirely new craft that kids will love: Paint by Sticker Kids. Paint by Sticker Kids is the same compelling craft first introduced in Paint by Sticker, but just for kids! The book includes everything you need to create 10 bright, playful, full-color illustrations—illustrated templates printed on perforated card stock, and 10 pages of stickers to fill in and create the artwork. The fun, vibrant images are rendered in “low-poly,” a computer graphics style using geometric polygon

shapes to create a 3-D effect. As in paint-by-number, each template is divided into hundreds of spaces, each with a number that corresponds to a particular sticker. Find the sticker, peel it, and place it in the right space. Add the next, and the next, and the next and voila! It's a rocket ship blasting through space. A Tyrannosaurus rex prowling his domain. A pickup truck hauling its load. A friendly toucan hanging on his perch. Kids will love watching these pictures come to life. Plus, each is suitable for framing or the fridge.

Stickers can offer far more than amusement. In Math Stickers the stickers become manipulatives, requiring a child to locate the correct sticker in order to solve the problems, creating an interactive learning experience. Soon kids will be able to recognize that each numeral has a unique name and shape, and each numerical symbol represents a number. This, along with counting objects, builds important early math skills. Add colorful illustrations, games, matching and reward stickers to the mix and a child can't help but be engaged in this colorful world of numbers. See for yourself--engage your child in Math Readiness today. Get your child stuck on learning!
