The world of education is full of grammar books. For most teachers and students of foreign languages, grammar books are generally dry and dusty and only to be consulted on a reference basis. However, Who Said English Grammar Was Boring? is not your conventional grammar book. Its core dynamic is based upon a conversation between the author and an English language instructor colleague. Apart from being an exposition of English grammar, the book also incorporates advice on teaching methodology and practice exercises for students. Apart from focusing on the four key

areas of language learning reading, writing, listening, and speaking the book introduces another concept in the form of a practicum, which asks the students to take turns in giving a lesson to their classmates on what they have learned. It is hoped that this book will serve to take the monotony out of grammar learning.

Teaching English in Africa is a practical guide written for primary and secondary school teachers working all over the continent. This book relates the practice of English language teaching directly to the African context. As well as covering the underlying theory of how children learn languages and how teachers can best facilitate this learning, it also provides practical resources and ideas for activities and techniques that have proved successful in English classrooms in Africa, both at primary and secondary level. It is intended to be a practical guide, so references and citations are kept to a minimum and concepts are presented using examples that are likely to be familiar to most teachers working in Africa. If there is a bias in this book, it is towards the needs of teachers working in low-resource, isolated contexts in Africa, as these teachers are so often neglected by literature on teaching methodology.
