"Know what I do at night while you're asleep? Eat your trash, that's what!" With ten wide tires, one really big appetite, and an even bigger smell, this truck's got it all. His job? By the author of Foreskin's Lament, a novel of identity, tribalism, and mothers. Seventh Seltzer has done everything he can to break from the past, but in his overbearing, narcissistic mother's last moments he is drawn back into the life he left behind. At her deathbed, she whispers in his ear the two words he always knew she would: "Eat me." This is not unusual, as the Seltzers are Cannibal-Americans, a once proud and thriving ethnic group, but for Seventh, it raises some serious questions, both practical and emotional. Of practical concern, his dead mother is six-foot-two and weighs about four hundred and fifty pounds. Even divided up between Seventh and his eleven brothers, that's a lot of red meat. Plus Second keeps kosher, Ninth is vegan, First hated her, and Sixth is dead. To make matters worse, even if he can wrangle his brothers together for a feast, the Can-Am people have assimilated, and the only living Cannibal who knows how to perform the ancient ritual is their Uncle Ishmael, whose erratic understanding of their traditions leads to conflict. Seventh struggles with his mother's deathbed request. He never loved her, but the sense of guilt and responsibility he feels--to her and to his people and to his "unique cultural heritage"--is overwhelming. His mother always taught him he was a link in a chain, thousands of people long, stretching back hundreds of years. But, as his brother First says, he's getting tired of chains. Irreverent and written with Auslander's incomparable humor, Mother for Dinner is an exploration of legacy, assimilation, the things we owe our families, and the things we owe ourselves.

Puts a modern and humorous spin on the Greek myth of Medusa and Perseus, in which Perseus slays Medusa in her sleep before she can turn him to stone.

In Greek mythology, Medusa was a Gorgon a winged monster with snakes for hair. Anyone who looked at her was instantly turned to stone. But she wasn't born that way. Not even close. Athena was so jealous of Medusa's beauty that she cursed her. Zeus changed the story to make his son, Perseus, look good. Hades is here to set the record straight on Perseus, Medusa, and everything in between.

He's not a stray house cat, he's an immortal being. And now he must choose whether to return to his planet or remain with his new human friend in a humorous, heart-tugging story from the author of I, Cosmo. The cat that Olive rescues from a flood has a secret: he's not really a cat at all, but an alien who crashed to Earth on a beam of light. The cat, whom Olive names Leonard, was prepared to visit the planet as a human--but something went wrong. Now Leonard may never know what it's like to hold an umbrella, go bowling, or host a dinner party. (And his human jokes still need some work: Knock, knock. Who's there? Just Leonard. It is me.) While Olive worries about whether she will have to move after her mom and her new boyfriend get back from their summer vacation, Leonard tries to figure out how to get from South Carolina to Yellowstone National Park, because if he's not there at the end of the month, he'll miss his ride home. But as Olive teaches Leonard about the beautiful and confusing world of humans, he starts to realize how much he cares about this particular one. A sweet and dryly funny story about what it means to be human--and what it means to be home.

In this modern version of Greek mythology, Hades explains how a jealous Athena turned Medusa into a gorgon and what really happened when Perseus went hunting for Medusa's head.

"Here in the Just City you will become your best selves. You will learn and grow and strive to be excellent." Created as an experiment by the time-traveling goddess Pallas Athene, the Just City is a planned community, populated by over ten thousand children and a few hundred adult teachers from all eras of history, along with some handy robots from the far human future—all set down together on a Mediterranean island in the distant past. The student Simmea, born an Egyptian farmer's daughter sometime between 500 and 1000 A.D, is a brilliant child, eager for knowledge, ready to strive to be her best self. The teacher Maia was once Ethel, a young Victorian lady of much learning and few prospects, who prayed to Pallas Athene in an unguarded moment during a trip to Rome—and, in an instant, found herself in the Just City with grey-eyed Athene standing unmistakably before her. Meanwhile, Apollo—stunned by the realization that there are things mortals understand better than he does—has arranged to live a human life, and has come to the City as one of the children. He knows his true identity, and conceals it from his peers. For this lifetime, he is prone to all the troubles of being human. Then, a few years in, Sokrates arrives—the same Sokrates recorded by Plato himself—to ask all the troublesome questions you would expect. What happens next is a tale only the brilliant Jo Walton could tell. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

When Samuel Godwin, a young and naive art tutor, accepts a job with the Farrow family at their majestic home, little does he expect to come across a place containing such secrets and lies. His two tutees are as different as can be--younger sister Marianne, full of flightiness and nervous imagination, and Juliana, sensible and controlled. Helped by their governess, Charlotte Agnew, Samuel begins to uncover slowly why Marianne is so emotionally fragile, and in doing so uncovers a web of intrigue. But his discoveries lead to revenge and betrayal--and lives all around are turned upside down. Linda Newbery has written a novel in diary style, combining different voices and a different century with her usual brilliance and ease. These are characters full of the same passions as our own today, while living in an unfamiliar and fascinating time.

When Medusa suddenly gains the "Midas touch," she is delighted, but as it dawns on her that it is more curse than blessing, she seeks a cure.

You've heard of Hercules, right? Big, strong guy who did tons of amazing, heroic deeds? Well one part of that myth is correct. Hercules was big and strong. But he had an teeny-tiny brain. He couldn't have done any of those heroic deeds if it hadn't been for his friends telling him exactly what to do. Hades sets the record straight on the true story of Hercules.

A fresh cultural analysis of female monsters from Greek mythology, and an invitation for all women to reclaim these stories as inspiration for a more wild, more “monstrous” version of feminism The folklore that has shaped our dominant culture teems with frightening female creatures. In our language, in our stories (many written by men), we underline the idea that women who step out of bounds—who are angry or greedy or ambitious, who are overtly sexual or not sexy enough—aren’t just outside the norm. They’re unnatural. Monstrous. But maybe, the traits we’ve been told make us dangerous and undesirable are actually our greatest strengths. Through fresh analysis of 11 female monsters, including Medusa, the Harpies, the Furies, and the Sphinx, Jess Zimmerman takes us on an illuminating feminist journey through mythology. She guides women (and others) to reexamine their relationships with traits like hunger, anger, ugliness, and ambition, teaching readers to embrace a new image of the female hero: one that looks a lot like a monster, with the agency and power to match. Often, women try to avoid the feeling of monstrousness, of being grotesquely alien, by tamping down those qualities that

we're told fall outside the bounds of natural femininity. But monsters also get to do what other female characters—damsels, love interests, and even most heroines—do not. Monsters get to be complete, unrestrained, and larger than life. Today, women are becoming increasingly aware of the ways rules and socially constructed expectations have diminished us. After seeing where compliance gets us—harassed, shut out, and ruled by predators—women have never been more ready to become repellent, fearsome, and ravenous.

As any reader of Jo Walton's *Among Others* might guess, Walton is both an inveterate reader of SF and fantasy, and a chronic re-reader of books. In 2008, then-new science-fiction mega-site Tor.com asked Walton to blog regularly about her re-reading—about all kinds of older fantasy and SF, ranging from acknowledged classics, to guilty pleasures, to forgotten oddities and gems. These posts have consistently been among the most popular features of Tor.com. Now this volume presents a selection of the best of them, ranging from short essays to long reassessments of some of the field's most ambitious series. Among Walton's many subjects here are the Zones of Thought novels of Vernor Vinge; the question of what genre readers mean by "mainstream"; the underappreciated SF adventures of C. J. Cherryh; the field's many approaches to time travel; the masterful science fiction of Samuel R. Delany; Salman Rushdie's *Midnight's Children*; the early Hainish novels of Ursula K. Le Guin; and a Robert A. Heinlein novel you have most certainly never read. Over 130 essays in all, *What Makes This Book So Great* is an immensely readable, engaging collection of provocative, opinionated thoughts about past and present-day fantasy and science fiction, from one of our best writers. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied. In this updated version of Greek mythology, Hades, King of the Underworld, tells how a gawky teen Cupid fell in love with the mortal Psyche and what really happened when he kidnapped her.

Medusa's Ankles celebrates the very best of A. S. Byatt's short fiction, carefully selected from a lifetime of writing. Peopled by artists, poets, and fabulous creatures, the stories blaze with creativity and color. Zeus's version of the Theseus myth is totally fabricated! Theseus went into the labyrinth all right, but the only thing he did in there was get lost. He never killed the Minotaur. Zeus made the whole thing up so everyone would think the Minotaur was gone for good. Hades, King of the Underworld, sets the record straight on the story of Theseus and the Minotaur.

Novel based on Pirates and buried gold of Treasure Island (Imaginary place).

Many of the beings in this book – Cheiron, Pan, Acheloo, the Sirens and others – will be familiar from the narratives of Greek mythology, in which fabulous anatomies abound. However, they have never previously been studied together from a religious perspective, as recipients of cult and as members of the ancient pantheon. This book is the first major treatment of the use of part-animal – mixanthropic – form in the representation and visual imagination of Greek gods and goddesses, and of its significance with regard to divine character and function. What did it mean to depict deities in a form so strongly associated in the ancient imagination with monstrous adversaries? How did iconography, myth and ritual interact in particular sites of worship? Drawing together literary and visual material, this study establishes the themes dominant in the worship of divine mixanthropes, and argues that, so far from being insignificant curiosities, they make possible a greater understanding of the fabric of ancient religious practice, in particular the tense and challenging relationship between divinity and visual representation.
