The American Fred Merkel riding a Honda won the first two editions in 1988 and 1989. This was followed by a Ducati triple with titles for Raymond Roche in 1990

and Doug Polen in 1991 and '92. In the years that followed the likes of Carl Fogarty, Troy Corser, Colin Edwards and Troy Bayliss came to the fore aboard equally well-known bikes also raced in the same period by Pier Francesco Chili, perhaps the best-known Italian Superbike rider prior to the advent of Biaggi and Melandri. These 25 years are revisited for the first time in an official book that, season by season, reviews the technical, sporting and human stories of each championship through the ever-accurate texts of Claudio Porrozzi and above all the spectacular images of his brother Fabrizio, for years the official SBK World Championship photographer. Championship standings and statistics complete a book that is sure to be source of reference for all fans.

The office of notary public has a long and proud history in our society. Their work is rarely glamorous, but it is so important that the highest courts in the nation routinely accept properly notarized documents as evidence in legal matters. Despite being one of the most successful motorcycles of all time, the Royal Enfield Bullet has had a very chequered history. Its story begins in the 1930s and by the 1950s it was at the height of its popularity in post-War Britain. Then it became a stalwart of the Indian Army and manufacture transitioned from Britain to India. The near-collapse of the Royal Enfield marque in the 1990s almost meant the end of this classic motorbike, but with the involvement of the Eicher Group from 2001 onwards, the updated Bullet generated new interest and renewed its original commercial success, just like a phoenix rising from the ashes. With over 200 photographs, this book describes the origins of the Royal Enfield company and the pre-war Bullets from 1932 and the relaunch of the Bullet in 1949 with its radical swinging-arm frame. Derivative models such as the 350 and 500, as well as those for competition and road are covered as well as specials such as diesels, V-twins, Egli and big-bore Bullets. The development story behind the lean-burn, electric-start and 5-speed updates is discussed as well as the UCE - the all-new Bullet from 2008 and the Classic and its design story. Finally, the evolution beyond the Bullet is covered which includes the Continental GT and Himalyan 650 twins.

motorcycle manufacturer in continuous production, Italy's Moto Guzzi has built some of the most iconic motorcycles ever produced. Established in 1921, the company is one of the most traditional motorcycle makers and also one of the most innovative. Carlo Guzzi's first engine design, a horizontal single, defined Moto Guzzi's road-going motorcycles for the company's first 45 years. In the 1950s, Moto Guzzi experienced tremendous success in Grand Prix motorcycle racing. Today, Moto Guzzi has a higher profile than ever, thanks to its popularity among enthusiast celebrities like Ewan McGregor. This new edition of *The Complete Book of Moto Guzzi* includes a 100th anniversary introduction, new photography, and additional pages to cover the newest models from 2018 to 2020. All of Moto Guzzi's production models are covered in detail, including the groundbreaking Falcone, the V-8 Grand Prix racers, the V7 Sport, the Ambassador, the Eldorado, the Le Mans, the Daytona, right up to today's the complete range of modern bikes including the V7, Griso, Stelvio, and V9. Celebrate a century of iconic Moto Guzzi machines, model by stunning model.

The story of Moto Guzzi is a story of survival. As one of Italy's oldest, and most legendary marques, Moto Guzzi had seen the height of success during the 1930s, and then the 1950s when they dominated 250 and 350cc Grand Prix racing. Their withdrawal from racing coincided with a period of stagnation until the company was sold to De Tomaso in 1973. During the 1970s the V7 Sport and Le Mans were at the forefront of the new superbike era, and later, with Dr John Wittner's help,

embraced contemporary technology with the 1000cc Daytona. If one aspect characterizes Moto Guzzi it is continuity. The great 500cc Falcone single ran from 1950 until 1976, and the V7, originally seeing the light of day in 1967, continued well into the 2010s. This continuity breeds loyalty, and Guzzi owners are a fiercely proud breed. Guzzis are not like other motorcycles, even Italian ones, and to qualify as a Guzzi owner requires a dedication and individuality that will be rewarded in a long term relationship.

For more than 120 years (1714–1837) Great Britain was linked to the German Electorate, later Kingdom, of Hanover through Personal Union. This made Britain a continental European state in many respects, and diluted her sense of insular apartness. The geopolitical focus of Britain was now as much on Germany, on the Elbe and the Weser as it was on the Channel or overseas. At the same time, the Hanoverian connection was a major and highly controversial factor in British high politics and popular political debate. This volume was the first systematically to explore the subject by a team of experts drawn from the UK, US and Germany. They integrate the burgeoning specialist literature on aspects of the Personal Union into the broader history of eighteenth- and early nineteenth-century Britain. Never

before had the impact of the Hanoverian connection on British politics, monarchy and the public sphere, been so thoroughly investigated.
