The combination of the illustrations along with the descriptions create a clear visual image. I can absolutely see this as an animated series! It's the kind of book, as an adult, I can enjoy reading over and over to my nieces without getting bored. Have you ever wondered how to use a compass? Or build a canoe? Or properly clean a gun, or cast a flyrod, or shoot a muzzle-loading rifle? Well, keep wondering. You won't learn any of that stuff from this book. Kendal Hemphill has been called a cross between Dave Barry and Pat McManus. No subject is too delicate, no politician too insulated, no topic too sensitive to be speared with the arrow of cynicism and barbequed on the backyard pit of sarcasm. If you enjoy camping, hunting, fishing, lying, and passing the buck, this book is for you. If your tastes tend more toward wall-to-wall carpet, central air-conditioning, and room service, this book is for you too. Mark Twain said, 'Humor is the great thing, the saving thing after all.' At times like these, laughter really is the best medicine. Hemphill is here to pass out the placebos. 'Down to earth and grounded are two of the most praiseworthy compliments one can receive. Kendal Hemphill deserves both of these compliments and verily reeks of this aboriginal down and dirty connection to the good mother earth. Take a breather and enjoy Kendal Hemphill.' —Ted Nugent

This text is a compilation of studies conducted in a variety of cross-cultural contexts where children learn language and literacy with siblings, grandparents, peers and community members. Focusing on the knowledge and skills of children often invisible to educators, these illuminating studies highlight how children skillfully draw from their varied cultural and linguistic worlds to make sense of new experiences. Through studies grounded in home, school, community school, nursery and church settings, we see how children create for themselves radical forms of teaching and learning in ways that are not typically recognized, understood or valued in schools.

Help he's reluctant to give-until another assassin pushes the issue. Pursued by Imperial forces, left with no one to depend on but each other, a bond begins to form that even their secrets can't destroy.
