Worry about cholesterol. Avoid red meat. Eat whole grains. Could it all be a lie? We live in an era of health hype and nutrition propaganda, and we're suffering for it. Decades of avoiding egg yolks, choosing margarine over butter, and replacing the real foods of our ancestors with low-fat, processed, packaged substitutes have left us with an obesity epidemic, ever-rising rates of chronic disease, and, above all, total confusion about what to eat and why. This is a tragedy of misinformation, food industry shenanigans, and cheap calories disguised as health food. It turns out that everything we've been told about how to eat is wrong. Fat and cholesterol are harmful to your health? Nope—they are crucial to your health. "Whole grains" are health food? Not even close. Counting calories is the way to lose weight? Not gonna work—nutrients are what matter. Nutrition can come from a box, bag, or capsule? Don't count on it! In *Eat the Yolks*, Liz Wolfe debunks all these myths and more, revealing what's behind the lies and bringing the truth about fat, cholesterol, protein, and carbs to light. You'll be amazed at the tall tales we've been told in the name of "healthy eating." With wit and grace, Wolfe makes a compelling argument for a diet based on Paleo foods. She takes us back to the foods of our ancestors, combining the lessons of history with those of modern science to

uncover why real, whole food—the kind humans ate for thousands of years before modern nutrition dogma led us astray—holds the key to amazing health and happy taste buds. In *Eat the Yolks*, Liz Wolfe doesn't just make a case for eating the whole egg. She uncovers the shocking lies we've been told about fat, cholesterol, protein, carbs, and calories and brings us the truth about which foods are healthy—and which foods are really harming us. You'll learn truths like: - fat and cholesterol are crucial, not harmful . . . and why - “whole grains” are processed foods . . . and what to eat instead - counting calories is a waste of energy . . . and what we actually should be tracking - all animal products are not created equal . . . and which ones we truly need - nutrition doesn't come in a box, bag, or capsule . . . and why there's no substitute for real food!

from a lot of other "diet" programs out there that promote extremely restricted eating; encourage you to consume only shakes, juices, or smoothies; or rely heavily on supplements and very-low-calorie or very-low-fat diets to ensure success. The goal of any detox program should be to support your body in naturally cleansing itself of substances that create negative health effects—and that's exactly what The 21-Day Sugar Detox does. By focusing on quality protein, healthy fats, and good carbs, this program will help you change not only the foods you eat, but also your habits around food, and even the way your palate reacts to sweet foods. You'll likely complete the program and continue eating this way much of the time thereafter because you'll feel so amazing. After changing your everyday eating habits, you will begin to gain a new understanding of how food works in your body—and just how much nutrition affects your entire life. There's no reason to wait! SUGAR IS TAKING OVER OUR LIVES. But why? And is it only those sweet, refined white crystals that are causing us problems, or could there be more to the story? Let's be honest: The problem isn't just sugar itself. It's the refined, nutrient-poor carbohydrates that carry tons of calories, but no real nutrition. In our world, these are the easiest foods to grab on the go, but they leave us fat, sick, tired, and downright unhappy. The effect that sugar, "hidden" carbs, and refined, processed foods have on our bodies goes far beyond our waistlines. We can't focus, we can't sleep, we have irrational mid-afternoon cravings, and we can't even make it through the day without wanting—or needing—to prop up our energy levels with caffeine or even more sugar! What can we do to break free from this cycle? The 21-Day Sugar Detox is here to help.

What would you be willing to give up to experience the presence of God in your life again? Many of us sign up for a physical detox program, thinking that if our bodies are healthier, then

we're healthier. But a healthy body doesn't do us a lot of good if we are spiritually malnourished. Welcome to the 40-Day Sugar Fast, a fast that begins with us giving Jesus our sugar and ends with Jesus giving us more of himself--the only thing that can ever truly satisfy our soul's deep hunger. On this 40-day journey you'll learn how to stop fixating on food and other things you use to fill the voids in life and instead fix your eyes on Christ. Anyone who runs to sugar for comfort or a reward, who eats mindlessly or out of boredom, who feels physically and spiritually lethargic, or who struggles with self-control will discover here not only freedom from their cravings but an entirely new appetite for the good things God has for us. Our great-grandmothers didn't need nutrition lessons—then again, they weren't forced to wade through aisle after aisle of packaged foods touting outlandish health claims and confusing marketing jargon. Over the last few decades, we've forgotten what "real food" is—and we're left desperately seeking foods that will truly nourish our bodies. We're disillusioned with the "conventional wisdom" for good reason—it's gotten us nowhere. Achieving optimal health without calorie-counting, diet foods, or feelings of deprivation has never been easier. Practical Paleo explains why avoiding both processed foods and foods marketed as "healthy"—like grains, legumes, and pasteurized dairy—will improve how you look and feel and lead to lasting weight loss. Even better—you may reduce or completely eliminate symptoms associated with common health disorders! Practical Paleo is jam-packed with over 120 easy recipes, all with special notes about common food allergens including nightshades and FODMAPs. Meal plans are also included, and are designed specifically to support: immune health (autoimmune conditions) blood sugar regulation (diabetes 1 & 2, hypoglycemia) digestive health (leaky gut, IBS & IBD) multiple sclerosis, fibromyalgia, and chronic fatigue syndromethyroid health (hypo

Why is it so hard to say NO to a chocolate bar, sodas, or the candy when we all know that they're ultimately unhealthy? Well, simple; they are all high in sugars and sugar is addictive! We have a pretty extensive appetite (craving) for sweet treats, simply because they are often high in sugars. In the recent past, there has been a great increase in the amount of sugar that the average person consumes. There is too much sugar in our coffee, bagels, donuts and even whole meal breads that are expected to be a healthy alternative. This high consumption of sugar daily leads to the average person consuming about $\frac{1}{2}$ -1 pound sugar daily. Can you imagine this holding a pound of sugar? No wonder we are plagued with many diseases from diabetes and high blood pressure to heart disease and obesity. The situation is not going to get better until we do something about this situation. Are you tired of being unable to say No? Do you want to lose some weight? Do you want to break free from your sugar addiction? If you do, then this book will help you achieve your goals. First, learn how sugar is addictive and from there know what to eat during the sugar detox. Second, you'll have access to
