The building of a vintage Indian Chief motorcycle is more than the restoration of a bike—it's the resurrection of a dream. Rebuilding the Indian chronicles one man's journey through the fearful expanse of midlife in a quest for peace, parts, and a happy second fatherhood. Fred Haefele was a writer who couldn't get his book published, an arborist whose precarious livelihood might just kill him, and an expectant father for the first time in over twenty years. He was in a rut, until he purchased a box of parts not so euphemistically referred to as a "basket case" and tackled the restoration of an Indian Chief motorcycle. With limited mechanical skills, one foot in the money pit, and a colorful cast of local experts, Haefele takes us down the rocky road of restoration to the headlong, heart-thrilling rush of open highway on his gleaming midnight-blue Millennium Flyer.

After her nightmarish recovery from a serious car accident, Faye gets horrible news from her doctor, and it hits her hard like a rock: she can't bear children. In extreme shock, she breaks off her engagement, leaves her job and confines herself in her family home. One day, she meets her brother's best friend, and her soul makes a first step to healing. Life has gotten a bit boring for Zuria Johnston, and with the exception of her Friday nights out with her best, flamboyant friend, Chase, and her job as a guidance counselor, she seems to have hit a rut. After a rough break-up with her longtime boyfriend, Manuel, her prospects of finding a man also seem pretty bleak. That is, until she connects with her poetic crush, Amir, and he opens her eyes to a world of romance and passion that she didn't know existed. She discovers what it feels like to be loved as a real woman should, and to overcome the difficulties of being a young,

strong, black woman who is afraid to have her heart broken for a second time. The thrill of new romance seems to fill the emptiness in her life, but her old life isn't as easy to escape as she first thought. Mistakes that she thought she had left behind threaten to undo everything that she has begun to build in this new chapter of her life, but she isn't the only one battling the demons of her past. The poetic and passionate Amir harbors some dark secrets of his own, and when the truth begins to come out, the connection between her two lovers, old and new, may end her short reign of happiness before it ever fully begun. With love from one man and sworn vengeance from another, Zuria is trapped in the middle, trying desperately to make her way through the tangled troubles of family, love, and happiness. The problem is, she might lose more than the man of her dreams. As this complex and spellbinding story reaches its peak, Zuria will have to risk mind, body, and soul for herself and the people she loves, but will that final risk mean achieving the life she'd always dreamed of? Or will she end up making the ultimate sacrifice? Whether it's a big-bore, high-end custom sportbike you're after, or a naked, bare knuckles streetfighting drag racer, this book has the goods for getting you there. In three different scenarios, the nation's top builders give blow-by-blow instructions for completely rebuilding three popular streetbikes -- from performance modifications and exhaust systems to flawless finishes and detail work. Focusing on highly customized Hayabusa drag bikes, including a slammed and lowered Suzuki GSX1300R Hayabusa, John Dantzler of the Charlotte, North Carolina, shop Two Wheel Customs outlines the suspension and engine modifications that the serious street and quarter-mile racer can make. He takes a salvaged, late-model four-cylinder street machine and transforms it into the kind of machine that both professional stunt riders and corner-carving enthusiasts favor. Next, author

Mike Seate covers the details on constructing and installing popular modifications -- everything from engine crash guards and wheelie bars to motocross-style handlebars and bikini fairings -- while stunt riders and streetfighter builders from the United States and Europe weigh in with tips and advice. Last but not least, the builders at Wisconsin's Patrick's Performance and South Carolina's Coastal Motorcycles provide a step-by-step account of the construction of two high-end custom sportbikes -- transforming a Yamaha YZF R-1 and a Suzuki GSX-R 1000 into the kind of machines that are eye-popping everywhere--on the streets or on the motorcycle show circuit.

A behind-the-scenes look at Lexus's surprising twenty-year success story—in a revised new edition In the 1980s, German brands BMW and Mercedes-Benz dominated the luxury car market and had little reason to fear competition from Japan. But in 1989, Toyota entered the market with the Lexus LS 400, a car that could compete with the Germans in every category but price—it was US\$30,000 cheaper. Within two years, Lexus had overtaken Mercedes-Benz in the United States and made a stunning success of Toyota's brave foray into the global luxury market. Lexus: The Relentless Pursuit reveals why Toyota decided to take on the German automakers and how the new brand won praise and success for its unparalleled quality, unforgettable advertising, and unprecedented customer service. From the first boardroom planning session to Lexus's entry into the mega-luxury supercar market, this is the complete and compelling story of one of the world's most admired brands. Includes a new Foreword by legendary designer Erwin Lui, an Afterword with updates since the first edition, and a new Coda by leading Japanese automotive journalist Hisao Inoue Covers the racetrack triumph—and tragedy—behind the new US\$375,000 Lexus LFA supercar Offers important business lessons for

brand managers and executives For car enthusiasts, business leaders, and anyone interested in branding and marketing, Lexus: The Relentless Pursuit offers an amazing story of excellence and innovation in the automotive industry. Perfect for fans of the Bridgerton series by Julia Quinn. Jocelyn Cherril inherits a house in Ireland and finds herself in

a fortunate situation. She is drawn to the charming Lucien Fitzgerald, who is unfortunately haunted by the aftermath of an injury from years ago. When the lovely Wanda Hayward from his past arrives in Ireland and tries to help him, Jocelyn faces a contender for the man's heart. Can she carve a place in his life for good? The novel from the 20th century provides a dramatic love story set in rugged Ireland and was written by Averil Ives, a pseudonym of Ida Pollock. A must-read for fans of literary romance and surprising twists of fate. Averil Ives is a pseudonym of Ida Pollock (1908 – 2013), a highly successful British writer of over 125 romance novels translated into numerous languages and published across the world. Ida Pollock has sold millions of copies over her 90-year career. Pollock began writing when she was 10 years old. Ida has travelled widely, living in several different countries. She continues to be popular amongst both her devoted fan base and new readers alike. Pollock has been referred to as the "world's oldest novelist" who was still active at 105 and continued writing until her death. On the occasion of her 105th birthday, Pollock was appointed honorary vice-president of the Romantic Novelists' Association, having been one of its founding members. Ida Pollock wrote in a wide variety of pseudonyms: Joan M. Allen, Susan Barrie, Pamela Kent, Averil Ives, Anita Charles, Barbara Rowan, Jane Beaufort, Rose Burghley, Mary Whistler and Marguerite Bell.

Genes in the Environment presents the recent research in the exciting and rapidly developing field of molecular, genetic and modelling techniques. These techniques, central to ecology, provide valuable new tools for addressing complex ecological questions and considerable insights into our understanding of the dynamics of populations and communities. A diverse range of topics is covered, including community dynamics in soils and water, gene flow and spatial dynamics, and the evolution of the pathogenic and symbiotic relationships.

Organisms studied range from bacteria, viruses and fungi to insects, plants and fish.

Transportation plays a substantial role in the modern world; it provides tremendous benefits to society, but it also imposes significant economic, social and environmental costs. Sustainable transport planning requires integrating environmental, social, and economic factors in order to develop optimal solutions to our many pressing issues, especially carbon emissions and climate change. This essential multi-authored work reflects a new sustainable transportation planning paradigm. It explores the concepts of sustainable development and sustainable transportation, describes practical techniques for comprehensive evaluation, provides tools for multi-modal transport planning, and presents innovative mobility management solutions to transportation problems. This text reflects a fundamental change in transportation decision

making. It focuses on accessibility rather than mobility, emphasizes the need to expand the range of options and impacts considered in analysis, and provides practical tools to allow planners, policy makers and the general public to determine the best solution to the transportation problems facing a community. Featuring extensive international examples and case-studies, textboxes, graphics, recommended reading and end of chapter questions, the authors draw on considerable teaching and researching experience to present an essential, ground-breaking and authoritative text on sustainable transport. Students of various disciplines, planners, policymakers and concerned citizens will find many of its provocative ideas and approaches of considerable value as they engage in the processes of understanding and changing transportation towards greater sustainability.

Excerpt from The Coronation Souvenir: June 1911 A few years ago an internal-combustion motor tractor was a scarcity. To - day a trip through Western Canada brings hundreds of them into view, every one of them making money for the owners. No machine introduced to the Canadian farmer has ever met the instant popularity which has come to the gasoline tractor. This popularity is rightly deserved. For no one machine has done more to make possible the great wheat crops which have given Western Canada the name, The Breadbasket of the World.
