Set your pulse racing with this stunning visual guide to over 1000 pin-up machines - iconic symbols of wanderlust, speed, and the open road. From Gottlieb Daimler's gas-powered "engine on a bicycle" which set fire to the seat on its first outing, to superbikes such as the Ducati 916, *Motorcycle: The Definitive Visual History* takes you on an enthralling tour of the bike's history. It shows you bikes that appeal to the head - practical forms of transport - and to the heart - a parade of classic pin-ups including cult machines such as the Honda RC30, the Triumph Bonneville, and the Harley-Davidson XR750. *Motorcycle: The Definitive Visual History* shows the brilliance and impracticality of different designs and features detailed cross-sections of engines such as the air-cooled two-stroke. How to Build a Bonneville Salt Flats Motorcycle documents the construction of “The Worlds Fastest Panhead,” conceived and assembled by Keith Ball, former editor of Easyriders magazine. Building a Bonneville Salt Flats winner presents a whole series of hurdles. Keith describes each hurdle, and how it was overcome, from determining the best frame dimensions to making the un-streamlined machine as aerodynamic as possible.

from the past four decades, delivered in his signature, wise but amusing, style. Peter  
Egan's writing invites you to pull up a chair, pour a little scotch, and relax while he  
shares with you his tales from the road, his motorcycling philosophy, and his keen  
observations about the two-wheeled life. For some forty years, Peter Egan's columns  
and feature articles have been among Cycle World's most anticipated monthly content.  
Egan's legions of fans know they will gain a fresh perspective on motorcycling from  
each of his articles. Drawings from motoring artist Hector Cademartori beautifully

This edited volume proposes that an understanding of ASEAN – its development and institutionalization – is invaluable to our conception of international relations theory in the Asian context. Southeast Asia and ASEAN host peoples, ideas, institutions, and relations that contribute to a critical reassessment of theories in social sciences. In the field of IR, studies on transnational networks, diasporas, small states, middle powers, the role of history, and identity learn from Southeast Asian practices. ASEAN has long been established as an authoritative example of alternative ways of regional institutionalization. Besides empirical analysis, these fields can also benefit from their interactions with regional scholarly communities. This edited book offers an opportunity for a dialogue among scholarly communities on a variety of issues of which Southeast Asia and ASEAN provide ample opportunities for a critical analysis. This book will be of great interest to scholars of ASEAN, the broader Asian region, and for scholars of regionalism in general.
