Hans Christian Andersen was a Danish author best known for writing children's stories including "The Little Mermaid" and "The Ugly Duckling." But he didn't just write short stories, and his intended audience wasn't restricted to children. In addition to his fairy tales, Andersen wrote poems, plays, novels, travel books, essays, and more. He hungered for recognition at home (Denmark) and abroad-and he got it! Eventually. Today, his stories can be read in over one hundred languages. But no matter what language they're in, Andersen's tales have got something for everyone. In them, you'll find beauty, tragedy, nature, religion, artfulness, deception, betrayal, love, death, judgment, penance, and-occasionally-a happy ending. They're complex tales, but since Andersen himself was pretty complex, we like to think that art imitates life. Or something like that. "The Emperor's New Clothes" (Danish: Kejserens nye Kl?der) is a short tale by Hans Christian Andersen about two weavers who promise an Emperor a new suit of clothes that is invisible to those who are unfit for their positions, stupid, or incompetent. The tale has been translated into over a hundred languages. Includes a unique illustration!

Since the Renaissance, what has been considered the "best" style of writing has always been connected with the dominant cultural agenda of the time. In this book, Kathryn Flannery offers a demystifying perspective on theorists who have argued for an essential distinction between "content" and "style," and focuses on the importance of understanding written prose style as a cultural asset. She addresses the development of prose criticism, the evolution of English teaching, the history of Francis Bacon and Richard Hooker's writing, and a modern discourse on stylistics.

Published in 1837, Hans Christian Andersen's The Emperor's New Clothes tells the tale of two weavers who present a non-existent suit of clothes to the Emperor with the caution that the suit is invisible to those who are unfit for their positions, stupid, or incompetent. As the Emperor parades in his underwear no one dares to say that they see no clothes—with the exception for one small child who exclaims; "he isn't wearing anything at all." Fast forward to the present day and business owners and managers around the world are told that anyone who cannot see the benefits of social media marketing are unfit for their positions, stupid, or incompetent. As organizations, brands and products fill the social media landscape with meaningless, objectiveless drivel that has interest to no one and serves only to waste resources and alienate customers, a small voice can be heard exclaiming; "who told you that was a good idea?" The caveat to this contemporary tale is that for a very few organizations, brands and products, social media has provided a kind-of marketing panacea. Correction: make that a very, very few organizations. For the rest, they are metaphorically parading in their digital underwear. All is not lost however. Although many have been duped in a new clothes-esque sting, and that their social media marketing efforts are indeed, invisible—but marketing on social media might just be riding to the rescue.
