The Velveteen Rabbit is not a 'real' rabbit, like the rabbits he meets in the forest. He has seams and is full of stuffing. Still, the Velveteen Rabbit doesn't mind as long as the boy who owns him loves him. One of the rabbit's friends tells him that a toy becomes real if its owner truly loves it. But when the boy leaves home to recover from an illness and is forced to leave his Velveteen Rabbit behind, what will become of his beloved toy? *The Velveteen Rabbit* (or *How Toys Become Real*) is a children's book written by Margery Williams (also known as Margery Williams Bianco) and illustrated by William Nicholson. It chronicles the story of a stuffed rabbit and his desire to become real, through the love of his owner. The book was first published in 1922 and has been republished many times since. *The Velveteen Rabbit* was Williams' first children's book. It has been awarded the IRA/CBC Children's Choice award. The shocking, never-before-told story of the bizarre world inside the legendary Playboy Mansion—and, finally, the secret truth about the man who holds the key—from one of the few people who truly knows: Hef's former #1 girlfriend and star of *The Girls Next Door* A spontaneous decision at age twenty-one transformed small-town Oregon girl Holly Sue Cullen into Holly Madison, Hugh Hefner's #1 girlfriend. But like Alice's journey into Wonderland, after Holly plunged down the rabbit hole, what seemed like a fairytale life inside the Playboy Mansion—including A-list celebrity parties and her own #1-rated television show for four years—quickly devolved into an oppressive routine of strict rules, manipulation, and battles with ambitious, backstabbing bunnies. Life inside the notorious Mansion wasn't a dream at all—and quickly became her nightmare. After losing her identity, her sense of self-worth, and her hope for the future, Holly found herself sitting alone in a bathtub contemplating suicide. But instead of ending her life, Holly chose to take charge of it. In this shockingly candid and surprisingly moving memoir, this thoughtful and introspective woman opens up about life inside the Mansion, the drugs, the sex, the abuse, the infamous parties, and her real behind-the-scenes life with Bridget, Kendra, and, of course, Mr. Playboy himself. With great courage, Holly shares the details of her subsequent troubled relationship, landing her own successful television series, and the hard work of healing, including her turn on *Dancing with the Stars*. A cautionary tale and a celebration of personal empowerment, *Down the Rabbit Hole* reminds us of the importance of fighting for our dreams—and finding the life we deserve.

From social psychologist Dr. Devon Price, a fascinating and thorough examination of what they call the “laziness lie”—which falsely tells us we are not working or learning hard enough—filled with practical and accessible advice for overcoming society’s pressure to “do more.” Extra-curricular activities. Honors classes. 60-hour work weeks. Side hustles. Like many Americans, Dr. Devon Price believed that productivity was the best way to measure self-worth. Price was an overachiever from the start, graduating from both college and graduate school early, but that success came at a cost. After Price was diagnosed with a severe case of anemia and heart complications from overexertion, they were forced to examine the darker side of all this productivity. *Laziness Does Not Exist* explores the psychological underpinnings of the “laziness lie,” including its origins from the Puritans and how it has continued to proliferate as digital work tools have blurred the boundaries between work and life. Using in-depth research, Price explains that people today do far more work than nearly any other humans in history yet most of us often still feel we are not doing enough. Dr. Price offers science-based reassurances that productivity does not determine a person’s worth and suggests that the solution to problems of overwork and stress lie in resisting the pressure to do more and instead learn to embrace doing enough. Featuring interviews with researchers, consultants, and experiences from real people drowning in too much work, *Laziness Does Not Exist* encourages us to let go of guilt and become more attuned to our own limitations and needs and resist the pressure to meet outdated societal expectations.

People Magazine Book of the Week A Best Book of the Year at Kirkus Reviews, Book Riot, The Chicago Review of Books, Minnesota Public Radio, and more An Indies Introduce and Indie Next Pick Fans of Maria Semple’s *Where’d You Go Bernadette* and Kevin Wilson’s *The Family Fang* will delight in Annie Hartnett’s debut, a darkly comic novel about a young girl named Elvis trying to figure out her place in a world without her mother. Elvis Babbitt has a head for the facts: she knows science proves yellow is the happiest color, she knows a healthy male giraffe weighs about 3,000 pounds, and she knows that the naked mole rat is the longest living rodent. She knows she should plan to grieve her mother, who has recently drowned while sleepwalking, for exactly eighteen months. But there are things Elvis doesn’t yet know—like how to keep her sister Lizzie from poisoning herself while sleep-eating or why her father has started wearing her mother’s silk bathrobe around the house. Elvis investigates the strange

circumstances of her mother's death and finds comfort, if not answers, in the people (and animals) of Freedom, Alabama. As hilarious a storyteller as she is heartbreakingly honest, Elvis is a truly original voice in this exploration of grief, family, and the endurance of humor after loss.

In 1726, in the town of Godalming, England, a woman confounded the nation's medical community by giving birth to seventeen rabbits. This astonishing true story is the basis for Dexter Palmer's stunning, powerfully evocative new novel. Surgeon's apprentice Zachary Walsh knows that his master, John Howard, prides himself on his rationality. But John cannot explain how or why Mary Toft, the wife of a local journeyman, has managed to give birth to a dead rabbit. When this singular event becomes a regular occurrence, John and Zachary realize that nothing in their experience as rural physicians has prepared them to deal with a situation like this--strange, troubling, and possibly miraculous. John contacts several of London's finest surgeons, three of whom soon arrive in Godalming to observe, argue, and perhaps use the case to cultivate their own fame. When King George I learns of Mary's plight, she and her doctors are summoned to London, where Zachary experiences a world far removed from his small-town existence and is exposed to some of the darkest corners of the human soul. All the while Mary lies in bed, as doubts begin to blossom among her caretakers and a growing group of onlookers waits with impatience for another birth, another miracle. When a new family moves into the neighborhood the animals of Rabbit Hill are very curious about how these human inhabitants will act. A Newbery Medal Winner.

Love it or hate it, we are all teachers. Whether walking clients through a new program, guiding an audience through a novel proposition, or helping our children to kick a soccer ball, nearly every day we work to disseminate knowledge and wisdom to others. The problem is that very few of us have ever been taught how to teach! Drawing on Jared Cooney Horvath's nearly 15 years of experience conducting brain research at prominent universities, teaching students from 10 to 80 years of age, and working closely with organizations and schools across 4 continents, *Stop Talking, Start Influencing* outlines 12 scientific principles of how people learn. The result is a book that shows readers how to impart their knowledge to others in a manner that sticks with and truly influences them — regardless of the situation or circumstance. For every business leader sick of repeating themselves ad nauseam to colleagues and clients, for every coach tired of endlessly drilling athletes without seeing meaningful improvement, for every entrepreneur who's had enough of pouring their heart into presentations only to see no lasting impact among the audience ... it's time to stop talking and start influencing!

Alice in Wonderland (also known as *Alice's Adventures in Wonderland*), from 1865, is the peculiar and imaginative tale of a girl who falls down a rabbit-hole into a bizarre world of eccentric and unusual creatures. Lewis Carroll's prominent example of the genre of "literary nonsense" has endured in popularity with its clever way of playing with logic and a narrative structure that has influence generations of fiction writing.

Two best friends understand that saying goodbye to one experience means

saying hello to the next, but that does not make it easier when one friend has to move away.

The Earth is flat, the World Trade Center collapse was a controlled demolition, planes are spraying poison to control the weather, and actors faked the Sandy Hook massacre.... All these claims are bunk: falsehoods, mistakes, and in some cases, outright lies. But many people passionately believe one or more of these conspiracy theories. They consume countless books and videos, join like-minded online communities, try to convert those around them, and even, on occasion, alienate their own friends and family. Why is this, and how can you help people, especially those closest to you, break free from the downward spiral of conspiracy thinking? In *Escaping the Rabbit Hole*, author Mick West shares over a decade's worth of knowledge and experience investigating and debunking false conspiracy theories through his forum, MetaBunk.org, and sets forth a practical guide to helping friends and loved ones recognize these theories for what they really are. Perhaps counter-intuitively, the most successful approaches to helping individuals escape a rabbit hole aren't comprised of simply explaining why they are wrong; rather, West's tried-and-tested approach emphasizes clear communication based on mutual respect, honesty, openness, and patience. West puts his debunking techniques and best practices to the test with four of the most popular false conspiracy theories today (Chemtrails, 9/11 Controlled Demolition, False Flags, and Flat Earth) — providing road maps to help you to understand your friend and help them escape the rabbit hole. These are accompanied by real-life case studies of individuals who, with help, were able to break free from conspiracism. With sections on: the wide spectrum of conspiracy theories avoiding the "shill" label psychological factors and other complications (and concluding with) a look at the future of debunking Mick West has put forth a conclusive, well-researched, practical reference on why people fall down the conspiracy theory rabbit hole and how you can help them escape.

Sadness has come to live with me and I am building it a shelter. I am building a shelter for my sadness and welcoming it inside. A small boy creates a shelter for his sadness, a safe space where Sadness is welcome, where it can curl up small, or be as big as it can be, where it can be noisy or quiet, or anything in between. The boy can visit the shelter whenever he needs to, every day, sometimes every hour, and the two of them will cry and talk or just sit, saying nothing. And the boy knows that one day Sadness may come out of the shelter, and together they will look out at the world, and see how beautiful it is. A poignant and heart-warming picture book exploring the importance of making space and time for our own griefs, small or large, sensitively visualized with David Litchfield's stunning illustration. Anne Booth was inspired to write this book by the words of Etty Hillesum, a Holocaust victim who wrote: 'Give your sorrow all the space and shelter in yourself that is its due, for if everyone bears grief honestly and courageously, the sorrow that now fills the world will abate. But if you do instead reserve most of the space inside you for hatred and thoughts of revenge-from which new sorrows will be born for others-then sorrow will never cease in this world. And if you have given sorrow the space it demands, then you may truly say: life is beautiful and so rich.' (Esther 'Etty' Hillesum (15 Jan 1914 - 30 Nov 1943)
