The first three verses of the Torah are perhaps the best-known sentences of the Hebrew Bible. They may also very well be the least understood. In *Awesome Creation*, Rabbi Yosef Bitton delves into these verses with an open mind and an open heart. Drawing on classical Jewish sources as well as current scientific data, Rabbi Bitton offers a fresh reading of the initial words of Scripture. Among the subjects covered are the coincidences and differences between the Big Bang theory and the Biblical Creation story, the unexplored consequences of Creation ex nihilo, the controversies surrounding the age of the universe, the state of our planet upon its creation, the natural forces used by the Creator to reshape His world, and the enigma of the nature of primeval light. Throughout his book, Rabbi Bitton emphasizes the importance of an accurate comprehension of Biblical Hebrew, as explained by the Rabbis of the Talmud and the classical Torah commentators. Through a precise understanding of each word of these verses and thanks to today's modern scientific knowledge we are able to appreciate, as never before, the beauty and sophistication of the Biblical story of Creation.

Hopi migration myths illuminate *The Last Creation*, the third book in *The Arizona Series*. Alternating chapters describe her deteriorating mental state as she camps among the Homolovi ruins on the Little Colorado River; her pursuit by Guy and her adoptive parents, Kate and Richard; and Guy's adventures in the central Arizona desert six years prior as he struggles to recover the Arabian stallion that Rose had run away on. Despite the hardships each narrative describes, all paths lead home by the end.

An epic new science fiction series about faith, family, and alien invasion in the wilds of Alaska. When a shooting star plunges through the atmosphere and touches down in the Alaska wilderness, only two earthlings are present to witness the event. But they perceive two utterly different realities. What park ranger Jace Kuliak sees is a UFO and the arrival of a dangerous alien species from beyond the solar system. What Poppy Prophecy sees is the star called Wormwood, as recorded in Scripture, and the arrival of an archangel of the Apocalypse. The thing is -- they're both sorta right. Poppy Prophecy is the despotic patriarch of a large End-Times prepper family that is busily converting a depleted copper mine into its own private doomsday bunker. Their copper mine is a century-old relic from territorial days when East Coast robber barons ruled Alaska and plundered its mineral wealth. Today the abandoned mine sits in the middle of the largest, wildest, most majestic national park in the United States. But Poppy isn't impressed by mere earthly beauty, and he doesn't mind bulldozing federal land when it suits his purposes. Backcountry Ranger Jace Kuliak does mind, and he and fellow rangers confront the fundamentalist family in an armed standoff over the construction of an illegal airstrip. It doesn't help matters when Ranger Kuliak falls hopelessly in love with Poppy's second daughter, the lovely, innocent, and totally clueless Deuteronomy. An uneasy truce between the Prophecys and the park service is shattered when the falling star lands in their backyard and is claimed by both sides. What is it? Who is it? Better yet, of all the pit stops on all the planets in all the galaxies, why did the Visitor choose this particular rock to screw with?

Envious of her best friend's lavish lifestyle, a young woman wonders how different her life would be if she had an opportunity to change her past.
