From the prizewinning journalist and internationally recognized expert on corruption in government networks throughout the world, comes a major work that looks homeward to America, exploring the insidious, dangerous networks of corruption of our past, present, and precarious future. "If you want to save America, this might just be the most important book to read now." --Nancy MacLean, author of *Democracy in Chains* Sarah Chayes writes in her new book, that the United States is showing signs similar to some of the most corrupt countries in the world. Corruption, she argues, is an operating system of sophisticated networks in which government officials, key private-sector interests, and out-and-out criminals interweave. Their main objective: not to serve the public but to maximize returns for network members. In this unflinching exploration of corruption in America, Chayes exposes how corruption has thrived within our borders, from the titans of America's Gilded Age (Andrew Carnegie, John D. Rockefeller, J. P. Morgan, et al.) to the collapse of the stock market in 1929, the Great Depression, and FDR's New Deal; from Joe Kennedy's years of banking, bootlegging, machine politics, and pursuit of infinite wealth to the deregulation of the Reagan Revolution--undermining this nation's proud middle class and union members. She then brings us up to the present as she shines a light on the Clinton policies of political favors and personal enrichment and documents Trump's hydra-headed network of corruption, which aimed to systematically undo the Constitution and our laws. Ultimately and most importantly, Chayes reveals how corrupt systems are organized, how they enable bad actors to bend the rules so their crimes are covered legally, how they overtly determine the shape of our government, and how they affect all levels of society, especially when the corruption is overlooked and downplayed by the rich and well-educated.

" another missing piece of our rich history and profound contribution to western civilization. For history buffs please put this book on your must read list...

"George C. Fraser, Author of *Race For Success* and *Success Runs In Our Race* "[Mitchell] believes that the entire future of blacks in the field of architecture is in jeopardy He then discusses the impact of the Harlem Renaissance on black architecture and the subsequent emergence of Howard University as the center of the black architectural universe..." *The Journal of Blacks in Higher Education* " seminal " *Architecture Magazine* In this long overdue book, aimed at Black America and her allies, Melvin Mitchell poses the question "why haven't black architects developed a Black Architecture that complements modernist black culture that is rooted in world-class blues, jazz, hip-hop music, and other black aesthetic forms?" His provocative thesis, inspired by Harold Cruse's landmark book, *The Crisis of the Negro Intellectual*, exposes the roots of an eighty-year-old estrangement between black architects and Black America. Along the way he provides interesting details about the politics of downtown development in the

Marion Barry era of Washington, DC. Mitchell calls for a bold and inclusive "New (Black) Urbanism." He sees the radical reform and "re-missioning" of the handful of accredited HBCU based architecture schools as a critical tool in refashioning a rapprochement between black architects and Black America.

America's capital gets the Most Wanted Oao treatment"

Counsels how business leaders can improve communications with their employees and customers to discover organizational changes which can increase productivity, efficiency, and overall profitability.

This volume shows how we can all gain from imitating George Washington, whose ideas of dignity and respect for his fellow peers began with these rules and were followed diligently throughout his life, ultimately shaping both his outward demeanor and his nation.

For fifty years, Medicare and Medicaid have stood at the center of a contentious debate surrounding American government, citizenship, and health care entitlement. In Medicare and Medicaid at 50, leading scholars in politics, government, economics, health policy, and history offer a comprehensive assessment of the evolution of these programs and their impact on society -- from their origins in the Great Society era to the current battles over the Affordable Care Act ("Obamacare"). These highly accessible essays examine Medicare and Medicaid from their origins as programs for the elderly and poor to their later role as a safety net for the middle class. Along the way, they have served as touchstones for heated debates about economics, social welfare, and the role of government. Medicare and Medicaid at 50 addresses key questions for understanding the past and future of health policy in America, including: · What were the origins for these initiatives, and how were they transformed over time? · What marks have Medicare and Medicaid left on society? · In what ways have these programs produced innovation, even in eras of retrenchment? · How did Medicaid, once regarded as a poor person's program, expand its benefits and coverage over the decades to become the platform for the ACA's future expansion? The volume's contributors go on to examine the powerful role of courts in these transformations, along with the shifting roles of Congress, public opinion, and state governors in the programs' ongoing evolution. From Lyndon Johnson to Barack Obama on the left, and from Ronald Reagan to George W. Bush on the right, American political leaders have tied their political fortunes to the fate of America's entitlement programs; Medicare and Medicaid at 50 helps explain why, and how those ongoing debates are likely to shape the future of the Affordable Care Act.

The Washington Information Directory (WID) is a topically organized reference resource that lists contact information for federal agencies and nongovernmental organizations in the Washington metro area along with a brief paragraph describing what each organization does related to that topic. In addition, WID pulls together 55 organization charts for federal agencies, congressional resources related to each chapter topic, hotline and contact information for various specific areas of interest (from Food Safety Resources to internships in Washington), and an extensive list of active congressional caucuses and contact details. WID has two

appendices, one with thorough information on congresspersons and committees, and the second with governors and embassies.

In his original CyberUnion, the author presented a bold plan for unions to develop a more significant role in the 21st century by adopting four strategic aids - futuristics, innovations, services, and traditions (F-I-S-T) - knit together by cutting-edge Info Tech resources. CyberUnions in Action expands on the F-I-S-T model and looks at gains and setbacks in pioneering efforts to create "CyberUnions". It highlights relevant websites, and features interviews with key CyberUnion advocates (and some critics). Shostak reviews overseas union efforts for transferable lessons, and pays special attention to the AFL-CIO campaign to ensure Labor's advances in the use of computer networks, the Internet, wireless devices, and more. This book charts the course of Kaushik Basu's career over seven years, as he moved out of the cloisters of academe to the frenetic world of policymaking, first in India as Chief Economic Adviser to the Indian Government and after that as Chief Economist at the World Bank in Washington. The Indian years were a period of high inflation, growth challenges (as the global financial crisis arrived in India), and also a remarkable growth recovery story, with India moving past China's GDP growth rate. There were corruption scandals breaking, causing widespread street protests, a lot of late-night decision-making, which one knew would rock the stock market the next day, and getting to know politicians who were outstanding as statesmen in the midst of all this, and also many who were not. The World Bank years weren't that close to actual policymaking, but nevertheless breath-taking in their scope. They ranged from interacting with policymakers in tiny remote countries like Samoa to gigantic nations with comparable heft, such as China. It entailed sitting down with leading researchers to compute and announce global numbers on extreme poverty and rankings on how easy it is to do business in different countries (fully aware that there would be calls from irate finance ministers as soon as these were published). And there was the handling of politics within the World Bank, which could actually be as enjoyable as any global economic problem! This book is a revised version of the diary that Kaushik Basu kept for seven years. Revised because he often wrote the diary in a hurry at the day's or even week's end. He has now inserted some reflections in retrospect, without altering any descriptions of what actually happened.

A happier and healthier life is something everyone can achieve. This book shows how to let go of Stress and Anxiety to create a happier and more positive mind. The mind and body are linked, an emotional mind creating stress will eventually cause the body to become sick, and feeding the body constantly with processed foods and high sugar not only causes the body to break down, it also causes the mind to become more anxious and depressed. Depression is now linked to high sugar consumption. Eating nutritious foods and doing some daily exercise will create a healthier body, plus a happier mind. There are chapters dedicated to achieving this by showing the benefits of different exercises, and what foods will give us optimum health. Also chapters on how we can become happier, and how to let go of stress. Learning to let go of stress and worry will give not only give a happier and more positive mind, as we become more positive we also allow more to enter our life. When we focus on problems all we have are

problems, but being positive allows us to find solutions, to move forward. A healthy and active lifestyle will give more energy, reduced stress, an increase in overall happiness, giving a healthy mind and body into old age. Most illness and also old age symptoms are a result of lifestyle. Your energy will increase, you will feel good, look great, and embrace all that life has to offer. When we are happy and show our beautiful smile to the world, we look better, sexier, and more youthful, and we will create beautiful memories for tomorrow. You will live each day in health and happiness, Happier and Healthier. Yes, life can be beautiful

A comprehensive work that brings together and explores state-of-the-art research on the link between stress and health outcomes. Offers the most authoritative resource available, discussing a range of stress theories as well as theories on preventative stress management and how to enhance well-being Timely given that stress is linked to seven of the ten leading causes of death in developed nations, yet paradoxically successful adaptation to stress can enable individuals to flourish Contributors are an international panel of authoritative researchers and practitioners in the various specialty subjects addressed within the work

An evocative, gorgeous four-season look at cooking in Maine, with 100 recipes No one can bring small-town America to life better than a native. Erin French grew up in Freedom, Maine (population 719), helping her father at the griddle in his diner. An entirely self-taught cook who used cookbooks to form her culinary education, she now helms her restaurant, The Lost Kitchen, in a historic mill in the same town, creating meals that draw locals and visitors from around the world to a dining room that feels like an extension of her home kitchen. The food has been called "brilliant in its simplicity and honesty" by Food & Wine, and it is exactly this pure approach that makes Erin's cooking so appealing—and so easy to embrace at home.

A monumental speculative fiction story of love, loyalty, politics, and conscience, set in parallel Londons. "Newland...imagines a world where colonialism never happened at all...It's speculative fiction that genuinely made me speculate." --Wired "Newland has produced a text that piques and provokes, providing a guidebook to worlds both uncomfortably familiar and radically new." --Strange Horizons "An immersive speculative novel set in a dystopian city that's facing an uprising." --Foreword Reviews "This mystical coming-of-age tale...is sure to please fans of thought-provoking speculative fiction." --Publishers Weekly "This is an ambitiously imagined book that, by removing the European lens on African cultures, creates a new reality that allows us to question how we view our own. Complex and multilayered, this novel opens the door to the possibilities of noncolonial worlds." --Kirkus Reviews "Courtia Newland is a formidable writer...And his latest work, *A River Called Time*, is an extraordinary piece of speculative fiction...Newland offers a brilliant remix of history...This may be a work of speculative fiction but its critical lens is present and prescient." --Financial Times, reviewed by Imani Perry "No one can doubt the sheer energy and verve of Newland's vision." --The Guardian (UK), Book of the Day selection "Class, race, different iterations of self, the power of the imagination, Afrofuturism, politics, spirituality, physics and philosophy--it's all here in a high-concept novel blending sci-fi and speculative fiction with the self-critique of memoir." --The Herald (UK) "Newland subtly and smoothly incorporates elements of Egyptian mythology into his alternative landscape, building an altered history that is entirely believable...This kind of thing is not easy to portray well in fiction, but Courtia Newland does so with a confident hand, leading the reader through different worlds with aplomb." --The Big Issue (UK) "The seventh novel from Newland, who also co-wrote Steve McQueen's recent *Small Axe* film series, is set in an alternative London where the privileged live in a giant Ark, and in a timeline in which slavery and colonialism never happened." --BBC News "A brilliantly realized story." --i (UK), a Best Book of 2021 "Rooted in a decolonized narrative style where every turn of phrase brings forth the weight of its cultural implications, *A River Called Time* is a deeply thoughtful, surprising and rewarding read." --The Arts Desk (UK) "Mightily impressive...an extraordinary...exploration of history, identity and time." --Daily Mail (UK) "This is a splendid

and complex book with many layers and is written superbly well...I have never read a book quite like this before." --NB Magazine (UK) The Ark was built to save the lives of the many, but rapidly became a refuge for the elite, the entrance closed without warning. Years after the Ark was cut off from the world--a world much like our own, but in which slavery has never existed--a chance of survival within the Ark's confines is granted to a select few who can prove their worth. Among their number is Markriss Denny, whose path to future excellence is marred only by a closely guarded secret: without warning, his spirit leaves his body, allowing him to see and experience a world far beyond his physical limitations. Once inside the Ark, Denny learns of another with the same power, whose existence could spell catastrophe for humanity. He is forced into a desperate race to understand his abilities, and in doing so uncovers the truth about the Ark, himself, and the people he thought he once knew.

Offering both theoretical analysis and classroom advice, Rhetorics for Community Action: Public Writing and Writing Publics, by Phyllis Mentzell Ryder, is a guide to studying and teaching public writing. The book shows how public groups embed competing democratic ideals into the rhetorical structures of their texts, how they work with and against traditional media to spread those ideals, and how teachers can partner with community organizations and support students as they practice public writing in all its complexity.

Social Welfare Policy in a Changing World is an approachable and student-friendly text that links policy and practice and employs a critical analytic lens to U.S. social welfare

policy. With particular attention to disparities based on class, race/ethnicity, ability, sexual orientation and gender, authors Shannon R. Lane, Elizabeth S. Palley, and Corey S. Shdaimah assess the impact of policies at the micro, meso, and macro levels. The authors provide students with a brief foundation in history, the policy process, and theory, while primarily focusing on helping students recognize the many ways that policy affects their lives and the lives of their clients and communities. Connecting description, theoretical analysis, and advocacy, this new text challenges readers to examine the development, consequences, and future implications of core policies. Students will come away with a newfound understanding of how to use the political process to address social justice issues and enact meaningful policy change. This book provides a coherent Blockchain framework for the business community, governments, and universities structured around microeconomics, macroeconomics, finance, and political economy and identifies how business organizations, financial markets and governmental policies are changed by digitalization, specifically Blockchain. This framework, what they authors call “disintermediation economics,” affects everything by providing a paradigm that transforms the way we organize markets and value chains, financial services, central banking, budgetary policies, innovation ecosystems, government services, and civil society. Bringing together leading and experienced policy makers, corporate practitioners, and academics from top universities, this book offers a road map of best practices that can be immediately useful to firms, policy makers as well as academics by balancing theory with practice.

#1 NEW YORK TIMES, WALL STREET JOURNAL, AND BOSTON GLOBE BESTSELLER • One of the most acclaimed books of our time: an unforgettable memoir about a young woman who, kept out of school, leaves her survivalist

family and goes on to earn a PhD from Cambridge University “Extraordinary . . . an act of courage and self-invention.”—The New York Times NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY THE NEW YORK TIMES BOOK REVIEW • ONE OF PRESIDENT BARACK OBAMA’S FAVORITE BOOKS OF THE YEAR • BILL GATES’S HOLIDAY READING LIST • FINALIST: National Book Critics Circle’s Award In Autobiography and John Leonard Prize For Best First Book • PEN/Jean Stein Book Award • Los Angeles Times Book Prize Born to survivalists in the mountains of Idaho, Tara Westover was seventeen the first time she set foot in a classroom. Her family was so isolated from mainstream society that there was no one to ensure the children received an education, and no one to intervene when one of Tara’s older brothers became violent. When another brother got himself into college, Tara decided to try a new kind of life. Her quest for knowledge transformed her, taking her over oceans and across continents, to Harvard and to Cambridge University. Only then would she wonder if she’d traveled too far, if there was still a way home. “Beautiful and propulsive . . . Despite the singularity of [Westover’s] childhood, the questions her book poses are universal: How much of ourselves should we give to those we love? And how much must we betray them to grow up?”—Vogue NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The Washington Post • O: The Oprah Magazine • Time • NPR • Good Morning America • San Francisco Chronicle • The Guardian • The Economist • Financial Times • Newsday • New York Post • theSkimm • Refinery29 • Bloomberg • Self • Real Simple • Town & Country • Bustle • Paste • Publishers Weekly • Library Journal • LibraryReads • Book Riot • Pamela Paul, KQED • New York Public Library

The Department of Licensing has worked to keep the notary public application process as simple as possible. A prospective notary need only submit a complete application, proof of a \$10,000 surety bond, and appropriate fees to the Department of Licensing in order to begin the process. Once an applicant has completed all application requirements and proven that he or she is eligible, the Department will have a new certificate of commission mailed out promptly. New in 2018, notaries public can also apply for an electronic records notary public endorsement, which allows the notary to perform notarial acts on electronic documents as well as paper documents. The application process is similar to the application process for the commission, and can be done at the same time or separately.
