Art, literature, music and other intellectual expressions of a particular society are together regarded as the culture of that society. Ideas, customs and social behaviour of a particular people or society are also its 'culture'. Contrary to what we think, it is not easy to describe 'culture', nor is it easy to write the cultural history. Writing the history of Bengali culture is even more difficult because Bengali society is truly plural in its nature, made even more so by its political division. The two main religious communities that share this culture are often more aware of the differences between them than the similarities.

Nonetheless, the people remain bound by history and a shared language and literature. Ghulam Murshid's Bengali Culture over a Thousand Years is the first non-partisan and holistic discussion of Bengali culture. Written for the general reader, the language is simple and the style lucid. It shows how the individual ingredients of Bengali culture have evolved and found expression, in the context of political developments and how certain individuals have moulded culture. Above all, the book presents the identity and special qualities of Bengali culture. The book was originally published in Bengali in Dhaka in 2006. This is the first English translation.

Working with Bengali mentors, especially his close friend A. B. Ghose, Sir John Woodroffe became the pseudonymous orientalist Arthur Avalon, famous for his tantric studies at the beginning of the twentieth century. Best known for The Serpent Power, the book which introduced 'Kundalini Yoga' to the western world, Avalon turned the image of Tantra around, from that of a despised magical and orgiastic cult into a refined philosophy which greatly enhanced the prestige of Hindu thought to later generations of westerners. This biographical study is in two parts. The first focuses on Woodroffe's social identity in Calcutta against the background of colonialism and nationalism - the context in which he 'was' Arthur Avalon. To a very unusual degree for someone with a high position under the empire, Woodroffe the British High Court Judge absorbed the world of the Bengali intellectuals of his time, among whom his popularity was widely attested. His admirers were attracted by his Indian nationalism, to which his tantric studies and supposed learning formed an important adjunct. Woodroffe's friend Ghose, however, was the chief source of the textual knowledge in which the 'orientalist' scholar appeared to be deeply versed. The second part of this study assesses Woodroffe's own relationship to Sanskrit and to the texts, and highlights his very extensive but gifted use of secondary sources and the knowledge of Ghose and other Indian people. It examines the apologetic themes by which he and his collaborators made Tantra first acceptable, then fashionable. Partly because of his mysterious pseudonym, Woodroffe acquired a near legendary status for a time, and remains a fascinating figure. This book is written in a style that should appeal to the general reader as well as to students of Indian religions and early twentieth century Indian history, while being relevant to the ongoing debate about 'orientalism'.

On 20 May 2011, Mamata Banerjee was sworn in as the first female chief minister of West Bengal, bringing an end to thirty-three years of CPI(M) rule. 'Poriborton!' screamed the morning papers, echoing Trinamool Congress's catchphrase for bringing in change. A decade later, amidst allegations against the TMC of political violence, syndicate rule and institutional corruption, the Bharatiya Janata Party has sent out a new war cry. Ahead of what promises to be a historic state Legislative Assembly election, Deep Halder met and spoke to Bengal's biggest stars-turned-politicians, refugees who want to become permanent citizens, and travelled as far as the Bangladesh border to gauge the mood of the people. Bengal 2021 looks at an electrifying election, unfolding in the times of Covid-19.

Composing the administration within a government organization is a task of a bureaucrat. Bureaucracy is a government system where every decision is taken by the officers selected by professional merit. These merit holders are the Civil servants of the nation. The government runs through an administration and the Civil Servants are the major part of the Public Administration. Every administrative decision is first taken under the state bureaucrats before their implementation. A similar case is that of West Bengal. West Bengal Public Service Commission is the entry to manage every administrative activity of the state. Not only administration but implementation and regulation of rules in the state of West Bengal are the major tasks after entering in the services of WBPSC.

Nineteenth-century Muslim peddlers arrived at Ellis Island, bags heavy with embroidered silks from their villages in Bengal. Demand for "Oriental goods" took these migrants on a curious path, from New Jersey's boardwalks into the segregated South. Bald's history reveals cross-racial affinities below the surface of early twentieth-century America.

This work explores some of the constitutive elements in the life and mind of Bengal in the twentieth century. The author addresses some frequently unasked questions about the history of modern Bengal. In what way was twentieth-century Bengal different from 'Renaissance' Bengal of the late-nineteenth century? How was a regional identity consciousness redefined? Did the lineaments of politics in Bengal differ from the pattern in the rest of India? What social experiences drove the Muslim community's identity perception? How did Bengal cope with such crises as the impact of World War II, the famine of 1943 and the communal clashes that climaxed with the Calcutta riots of 1946? The author has chosen a significant period in the history of the region and draws on a wealth of sources archival and published documents, mainstream dailies, a host of rare Bengali magazines, memoirs and the literature of the time to tell his story. Looking closely at the momentous changes taking place in the region's economy, politics and socio-cultural milieu in the historically transformative years 1920-47, this book highlights myriad issues that cast a shadow on the decades that followed, arguably till our times.

Despite the critical role played by the Supreme Court of India, the lives of the judges have never been studied before. This seminal book presents biographical essays for each of the first ninety-three judges who served on the Court from 1950 through mid-1989. The essays in the book are based on interviews the author conducted with sixty-four of the sixty-eight judges who were alive in the 1980s, and on meetings and correspondence with family members or relatives, friends, and associates of the deceased judges. An attempt is made to account for why certain judges rather than others were chosen, the selection criteria employed and, to the extent possible in a secretive selection environment, to identify those who selected them. It concludes with a collective portrait of these judges, paying particular attention to changes in their background characteristics—fathers' occupation, education, pre-SCI career, caste, religion, state of birth, and region, over four decades. The essays also embrace their post-retirement activities.
